Sydney Park improvements

**Monday
23 August
6.00pm – 8.15pm
Erskineville
Primary School
Malcolm Street, Erskineville**

from 6pm

Have your say with the Lord Mayor,
Councillors and City staff

from 6.45pm

Newtown Station upgrade
Sydney Park improvements
Cycleways in your area
Improving Lillian Fowler Reserve

SOUTH WEST COMMUNITY FORUM

CAMPERDOWN,
WEST ALEXANDRIA,
ST PETERS, ERSKINEVILLE,
NEWTOWN AND
EVELEIGH.

I invite you to come along to the Inner West Community Forum for residents of Erskineville, Newtown, South Camperdown and West Alexandria.

From 6.00pm you can meet and talk with Councillors and senior staff.

From 6.45pm, you will hear about the projects underway and being planned in your area, including improvements to Sydney Park and measures to make it more sustainable. There will also be an update on Development Applications in your area.

Come and have your say about your neighbourhood.

Clover Moore
Clover Moore MP
Lord Mayor

**From 6pm
Open
Forum**

Talk with the Lord Mayor, Councillors, City staff, Police and local organisations about the issues that interest you. Specialist staff are available to discuss a range of subjects including our environmental programs, parking and transport, and local planning.

**From
6.45pm
Local
Projects**

Newtown Station upgrade

A RailCorp representative will give you a progress report on the Newtown Railway Station upgrade. It is designed to improve passenger flows, accessibility, and deliver a cleaner and safer train station.

Sydney Park improvements

A new stormwater harvesting system is under construction at Sydney Park and will reuse rainwater to keep the wetlands healthy. We continue to work with Sydney Water to restore and improve the areas where the desalination pipeline was installed.

Cycling in your area

We have been working with the STA and RTA to push forward our plans for the Missenden Road cycleway. We will bring you the latest news on this project as well as our broader plans to improve cycle paths across the city.

Improving Lillian Fowler Reserve

Work starts soon to improve Lillian Fowler Reserve with new play equipment, more seating, new pathways and landscaping. An underground tank will collect stormwater to irrigate the park.

+
Local Development Applications, and an update on Sustainable Sydney 2030.
