Open to young people [15 yrs+]. It's your chance to collaborate, socialise and have loads of fun drawing awesome doodles.

BEIJING DOODLES

Beijing Doodles is a drawing game that uses the principal of Chinese whispers but with drawing. Start with as many pieces of paper as you have players, everyone draws one picture, then shows that picture for 5 seconds to the person to their left. You must then draw your own version of the picture you saw from memory. Then show that picture to the person to your left again for five seconds. Draw your own version of the second picture. Then repeat this process until every player has drawn their version of the picture. At the end each player should have their own versions of each picture. Display them and laugh! The game was invented by a group of local Sydney artists including Lucas Abela & Emily Hasslehoof.

EXQUISITE CORPSE

Exquisite Corpse is a circle game in which a group of people cooperatively draw a person. The first person draws a head on a piece of paper then folds it over so the next player can not see it. The second person draws the torso then folds it over so the next player can't see it, and so on. The game of Exquisite Corpse was invented by the Surrealists and is similar to an old parlour game called Consequences in which players write in turn on a sheet of paper, fold it to conceal part of the writing, and then pass it to the next player for a further contribution.

MISTER SQUIGGLE

That old TV show that Generation X'ers grew up with – one person draws a scribble & the other has a limited time to use this to create a drawing. A great game for all!
