

Part C - Precinct Plans

21. Darlinghurst

The area is bounded by William Street, Oxford Street, Boundary Street and Riley Street.

Included in this precinct are the nodal points of Taylor Square, Whitlam Square and the William Street/ Darlinghurst Road intersection. A prominent restaurant and cafe strip runs along Victoria Street.

21.1 Precinct objectives

General

- To enhance the streetscape with street trees of appropriate scale and form.
- To respect established street tree character.
- To reinforce the residential character through a mix of deciduous and evergreen tree planting.

21.2 Precinct conditions

Existing street trees

The area consists of a range of young and established trees in narrow footways. Plantings of *Robinia pseudoacacia* 'Frisia' form memorable arched canopies in some of the narrower streets. Boundary Road contains a number of very large established rainforest tree species that create a very unique character.

Current dominant species

<i>Platanus acerifolia</i>	Plane Tree
<i>Lophostemon confertus</i>	Brush Box
<i>Robinia pseudoacacia</i> 'Frisia'	Golden Robinia

Built form and road widths

Architecturally Darlinghurst is a mix of Victorian terraces and older style apartments interspersed with newer residential developments. The precinct includes the landmarks of Darlinghurst Court House, St Vincent's Hospital and Sydney Art School.

Geological conditions

Dominated by an underlying geology of Hawkesbury sandstone, with small areas of overlaying shale.

Soil conditions

Sandy soils produced by underlying geology of Hawkesbury sandstone.
