Aboriginal and Torres Strait Islander Statement

Aboriginal and Torres Strait Islander communities in the City of Sydney were extensively consulted more than a decade ago to inform Sustainable Sydney 2030 and this consultation continues today.

The First Peoples Dialogue Forum was an integral part of the community engagement process to ensure that Aboriginal and Torres Strait Islander voices were influential in developing Sustainable Sydney 2030 - 2050 Continuing the Vision. The Aboriginal and Torres Strait Islander Advisory Panel was also briefed and invited to participate in workshops and forums.

The City of Sydney is committed to listening to, working with and elevating the voices of Aboriginal and Torres Strait Islander peoples in the city. We acknowledge the harmful impact of colonisation and government policies is still impacting on the city's Aboriginal and Torres Strait Islander peoples. It has led to intergenerational trauma and disadvantage in housing, education, health and wellbeing.

By addressing housing affordability, cost of living and gentrification, we will work to prevent further displacement of Aboriginal and Torres Strait Islander peoples. The City of Sydney understands that these past injustices affect us all as a nation and must be addressed in consultation with Aboriginal and Torres Strait Islander peoples.

We recognise that the British occupation of the shores of Warrane, Sydney Harbour which began in 1788 had far-reaching and devastating impacts on the Eora nation. Longstanding ways of life were disrupted by invasion and the Aboriginal peoples' Country, lands and waterways appropriated.

Today Sydney is of prime importance as an ongoing centre for Aboriginal and Torres Strait Islander communities, cultures, traditions and histories.

Despite the destructive impact of this invasion, Aboriginal cultures have endured and are now globally recognised as one of the world's oldest living cultures. Aboriginal people have shown and continue to show, enormous resilience coupled with generosity of spirit towards other peoples with whom they now share their land.

The City of Sydney strives to reflect the needs and aspirations of Aboriginal and Torres Strait Islander communities and supports their quest for self-determination. By understanding the harsh truth of our shared past, we are laying the groundwork for a future that embraces all Australians, a future based on genuine engagement, mutual respect and shared responsibility for our land.

The ongoing custodianship of the Gadigal of the Eora Nation is an essential part of this future, as is Sydney's continuing place as central to Aboriginal and Torres Strait Islander cultures and communities.

We are working to embed principles that acknowledge the continuing cultural connection to, and care for Country by Aboriginal peoples. The principles aim to provide a new way to think about our responsibilities to the land, to heal and nurture it for future generations.

There are many sites across our local area with historical and cultural significance for Aboriginal and Torres Strait Islander communities. We have documented many of these in Barani / Barrabugu (Yesterday/ tomorrow), a free guide to Sydney's Aboriginal histories.

The City of Sydney works with and has achieved much with Aboriginal and Torres Strait Islander peoples and the Aboriginal and Torres Strait Islander Advisory Panel since 2008. These gains are consistent with the principles of cooperation signed between us and the Metropolitan Local Aboriginal Land Council in 2006. Here are some milestones:

- 2011 As part of the Eora journey project we committed to fund and install seven artworks by Aboriginal and Torres Strait Islander artists in public areas. It is part of our commitment to celebrate the living cultures of Aboriginal and Torres Strait Islander people.
- 2015 We adopted an inaugural Innovate reconciliation action plan in partnership with Aboriginal and Torres Strait Islander peoples as part of our deep commitment to reconciliation.
- 2016 We adopted the 10-year Eora journey economic development plan.
- 2020 A stretch reconciliation action plan built on our success and extended our actions. It includes targets to increase employment of Aboriginal peoples, spending with businesses, cultural learning activities for all staff and major public works such as the harbour walk Yananurala and bara, an artwork and monument to the Eora people.

Our actions and commitments will help to ensure the political, economic, social and cultural rights of Aboriginal and Torres Strait Islander peoples are embedded in subsequent economic, social, environmental and cultural change.

Inclusion and equity statement

Diverse communities live, work in and visit Sydney. The City of Sydney values and respects the diversity of these cultures, communities and experiences.

We value the city's Aboriginal and Torres Strait Islander peoples, and the Gadigal of the Eora Nation as the Traditional Custodians of this local area.

We value Sydney's multicultural communities and the varied languages, traditions, religious and spiritual practices of the people who call the city home.

We value the range of identities, perspectives, experiences and lifestyles of our communities. They include children, young and older people, people with disability and individuals with diverse political beliefs and perspectives. We respect people of diverse sexualities and genders and intersex people.

We value the contributions made by all individuals and believe that the diversity of our communities strengthens the city.

The City of Sydney champions human rights and people's right to self-determination, as we strive for inclusion.

We demonstrate our commitment to diversity and inclusion by respecting the dignity and worth of all people, equitably treating and consulting with communities and employees, and fairly providing services, facilities and public spaces to build workforce diversity, cultural safety, strengthen inclusion, and broaden participation and representation.

We want to promote a society where self-determination and inclusive participation is valued and to demonstrate these principles in all that we do.

Our work with communities strives to eliminate discrimination and mitigate disadvantage, to actively remove barriers to inclusive participation and to promote relationships that are based on understanding and respect.

Our communities expressed the same aspirations when we engaged them on the future vision for the city. The citizens jury recommended concepts that included the active participation of Aboriginal and Torres Strait Islander peoples in the governance of the city in an embedded and respectful way. It's a model of participatory governance that genuinely engages all people in decision making on all levels and promotes community diversity, equity and cohesion to ensure that the city is inclusive so everyone feels safe, welcomed, and able to fully participate in what the city has to offer.

Our response is a more equitable and inclusive city. We want the city to be one where everyone has a home, a fair chance in life and the opportunity to realise their potential. Cities that are more equitable are cities that thrive.

1. Introduction

Sustainable Sydney 2030-2050 Continuing the Vision continues our vision for a more sustainable future. Ten targets enable change to be measured over time. Six guiding principles that consider the values expressed by the community will inform the City of Sydney in its decision-making.

Ten strategic directions provide a framework for action to be taken by the City of Sydney, other levels of government, civil society and by communities. Ten project ideas building on past projects have been developed. These ambitious ideas illustrate ways the vision for the city could be realised by 2050.

The Integrated Planning and Reporting Framework provides the mechanism for the implementation of Sustainable Sydney 2030-2050 Continuing the Vision through the Community Strategic Plan Delivering Sustainable Sydney 2030-2050 (also referred to in this document as the community strategic plan) and other key documents such as this operational plan.

Our operational plan

Our operational plan (this document) is prepared and adopted by the end of June each year. It sets out the specific projects, programs and activities to be delivered in the year ahead. It is aligned with our delivery program and community strategic plan and assigns responsibility to the divisions in the council to deliver those actions.

The operational plan includes our detailed budget and revenue policy as well as the financial plan for the delivery of our programs and projects. It also includes measures which help us monitor and evaluate the delivery of our projects and programs.

This operational plan has been prepared using the best and most current information available at the time of production, but it may be subject to change due to the ongoing dynamic health and economic impacts of the Covid-19 pandemic. It should be read in conjunction with our Delivery Program 2022-26.

Delivering Sustainable Sydney 2030-2050

Our Community Strategic Plan Delivering Sustainable Sydney 2030-2050 sets directions for our city that respond to our communities' vision for a more sustainable future. The plan positions our city as a regional leader for just and sustainable growth, creativity and innovation and it sets clear directions to help tackle the climate emergency. It builds on the sustained conversations with local communities that began in 2006/07.

In developing the community strategic plan, we gathered the perspectives of people with an interest in the city and its future – workers, visitors, business owners and residents, including younger people, through a comprehensive engagement program that began in 2019.

We have continued to monitor community concerns, ideas and aspirations throughout the pandemic to see if, or how, perspectives might have changed. We have also taken stock of the impact the pandemic has had on our communities and economy since its emergence in early 2020.

It includes an urgent imperative to address the climate emergency and adapt to our changing climate. It recognises the economic benefits for our city in transitioning to a decarbonised future. It also addresses rising inequalities and aims to build resilience in our communities, networks and city infrastructure, as we recover from the impacts of the pandemic.

We will continue to engage with the community using the principles outlined in our Community Engagement Strategy and Community Participation Plan to ensure that changing and emerging priorities are identified. Decisions will continue to be based on the principles in our plan, community engagement outcomes, and in alignment with the NSW and Federal Governments' recovery efforts and directives.

Six guiding principles

These guiding principles, based on values expressed by our communities, will be used by the City of Sydney in its decision making.

We are accountable to the voices and elevate the knowledge and cultures of Aboriginal and Torres Strait Islander peoples

The City of Sydney strives to reflect the needs and wants of Sydney's Aboriginal and Torres Strait Islander communities and recognise their contribution. We will work to authentically strengthen relationships with Aboriginal and Torres Strait Islander peoples and help build self-determining communities.

We respond to the climate emergency

The City of Sydney responds to the climate emergency by taking bold steps to reduce the city's environmental footprint and transition to a zero-carbon and regenerative economy.

We plan for the sustainable growth of the city. We step lightly on the planet and support biodiversity and nature in the city.

We promote transformative change in energy generation, resource consumption, water use, transport and climate adaptation. We encourage it be done in a way that is equitable and inclusive, with no one being left behind or bearing an unfair burden because of long-term structural change to jobs and industries.

We build the resilience of our society and economy

The City of Sydney is a place where partnerships between government, business and communities strengthen the city.

We build resilience in our economy, communities, systems and infrastructure to respond, recover and adapt to a range of shock events and chronic stresses. These include our energy and transport systems failing to cope with extreme weather or other events, and a lack of affordable housing and poorly constructed buildings that fail to meet current safety, quality or sustainability standards.

Among other stresses are that our health services are under pressure and some vulnerable communities may be isolated or experience increasing inequity.

Our communities are engaged in the governance of their city

The City of Sydney is a democratic city where people of all ages can influence decisions. People are encouraged to be connected and effective community builders.

We lead through stewardship and collaboration

The City of Sydney will lead by facilitating social harmony and inclusion while also acting as a steward of the environment and the economy.

In our role as steward, we are required to understand what our communities' value and the values we have in common, then act in line with those shared values.

As steward of this city, we will ensure that we embrace innovation and are prepared for, respond and adapt to change.

Our communities are also impacted by decisions outside our boundaries and we seek to work collaboratively with partners, our neighbours and all levels of government for the benefit of current and future generations.

Our organisation is governed responsibly and sustainably

The City of Sydney has a responsibility to balance the needs and interests of current and future generations as it makes decisions.

We will ensure the organisation has the financial capacity to serve our communities now and in the future.

Fairness and equity, including intergenerational equity, underpin all our choices. High ethical standards, transparency, accountability and the involvement of our communities are integral to the governance of the city.

About Sydney

The City of Sydney is the local authority with responsibility for the area shown on the map. We share some areas of authority with other agencies at different levels. The NSW Government has an explicit strategic interest. State agencies also have key planning and development responsibilities.

The City of Sydney (or the **City**) is the organisation, responsible for the administration of the local government area.

The Council is the elected Councillors of the City of Sydney. The most recent election was held on 4 December 2021 and the current term will run until September 2024.

The city (or our **local area**) is the geographical area administered by the City of Sydney and its physical elements. It is made up of 33 suburbs wholly or partly within our local government area boundary.

The city centre is the Sydney central business district and includes major civic functions, government offices, and cultural and entertainment assets. It runs between Circular Quay and Central station, the Domain / Hyde Park and Darling Harbour.

Eastern City District as defined by the Greater Cities Commission, is “the engine room of Greater Sydney’s economy”. The City of Sydney area is within the Eastern City District. The district also includes these local government areas: Bayside, Burwood, Canada Bay, Inner West, Randwick, Strathfield, Waverly, and Woollahra.

Greater Sydney, or **metropolitan Sydney**, extends from Wyong and Gosford in the north to the Royal National Park in the south and follows the coastline in between. Towards the west, the region includes the Blue Mountains, Wollondilly and Hawkesbury. Greater Sydney covers 12,368 square kilometres.

2. About the City of Sydney

Council policy, strategic directions and major corporate decisions are determined by the elected Council, chaired by the Lord Mayor. Day to day operations are largely delegated to the Chief Executive Officer or managed in conjunction with the Lord Mayor, as provided for in council resolutions and delegations, and in accordance with relevant legislation. Corporate performance is monitored through quarterly financial reports, and six-monthly operational and whole of council term performance reports to council and the community.

The City of Sydney is governed by the requirements of the Local Government Act (1993) and Regulations, the City of Sydney Act (1988) and other relevant legislative provisions.

The City of Sydney, like the community strategic plan itself, is concerned with the full range of issues that affect the wellbeing of the city and its communities. In following the directions of our community strategic plan and striving to achieve its objectives, there are limits to what Council alone can control or even influence.

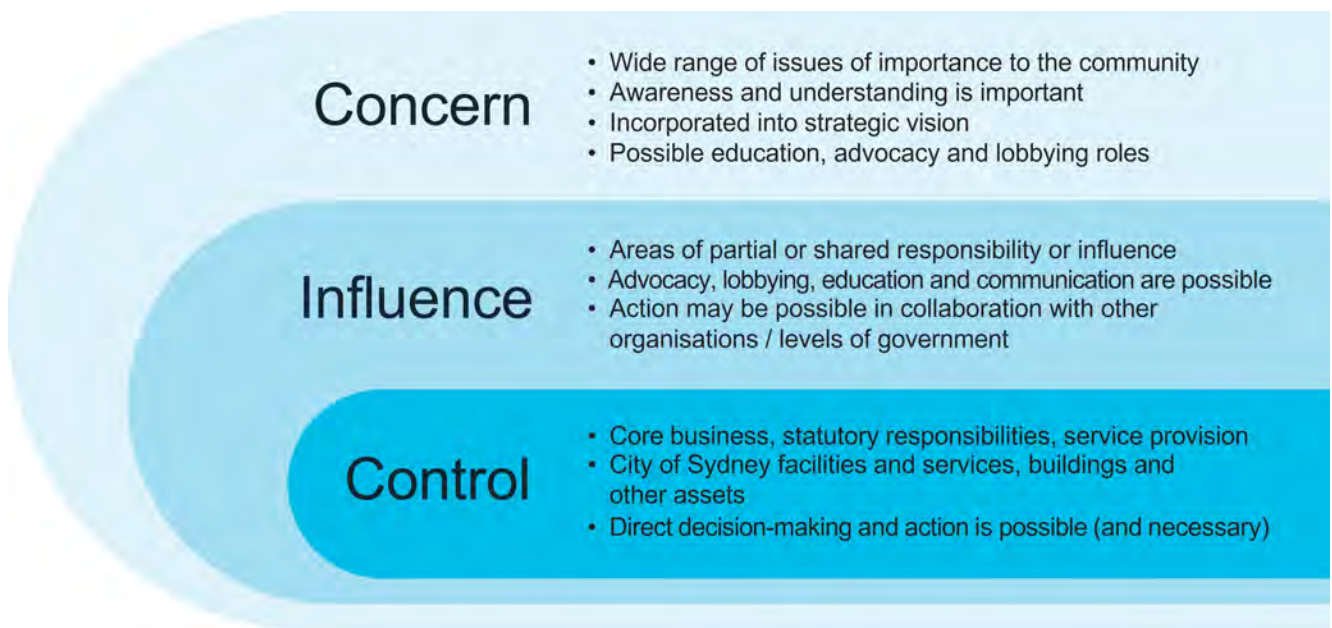

Figure 2. Concern, influence and control diagram outlining the City's level of involvement in a range of activities.

The integrated planning and reporting framework

Integrated Planning and Reporting (IP&R) allows councils to bring plans and strategies together in a way that supports a clear vision for the future and provides an agreed roadmap for delivering community priorities and aspirations. While councils lead the IP&R process, it is a journey that they undertake in close consultation with communities, elected representatives, other levels of government and the private sector.

The Integrated Planning and Reporting Framework provides the mechanism for implementing Sustainable Sydney 2030-2050 Continuing the Vision. The Community Strategic Plan Delivering Sustainable Sydney 2030-2050 is the highest-level plan within this framework.

The City of Sydney is a local government organisation governed by the requirements of the *Local Government Act (1993)* and Regulations, the *City of Sydney Act (1988)* and other relevant legislative provisions.

The Local Government Act includes principles for local government, which identify the matters councils need to consider when carrying out their responsibilities. Integrated planning and reporting is included as one of the principles.

Integrated Planning and Reporting gives the City a framework for identifying the priorities of its many communities and creating a holistic approach to planning to achieve those goals in a sustainable way, given the resources available. The NSW Government's framework, introduced in 2009, applies to all councils in the state.

Using this framework, the City has prepared a number of plans which detail how we intend to deliver on the communities' priorities identified through consultation and engagement and articulated in the community strategic plan.

The diagram below illustrates our integrated planning and reporting framework suite of documents and how they are interrelated. It is adapted from the NSW Office of Local Government Guidelines, available from olg.nsw.gov.au

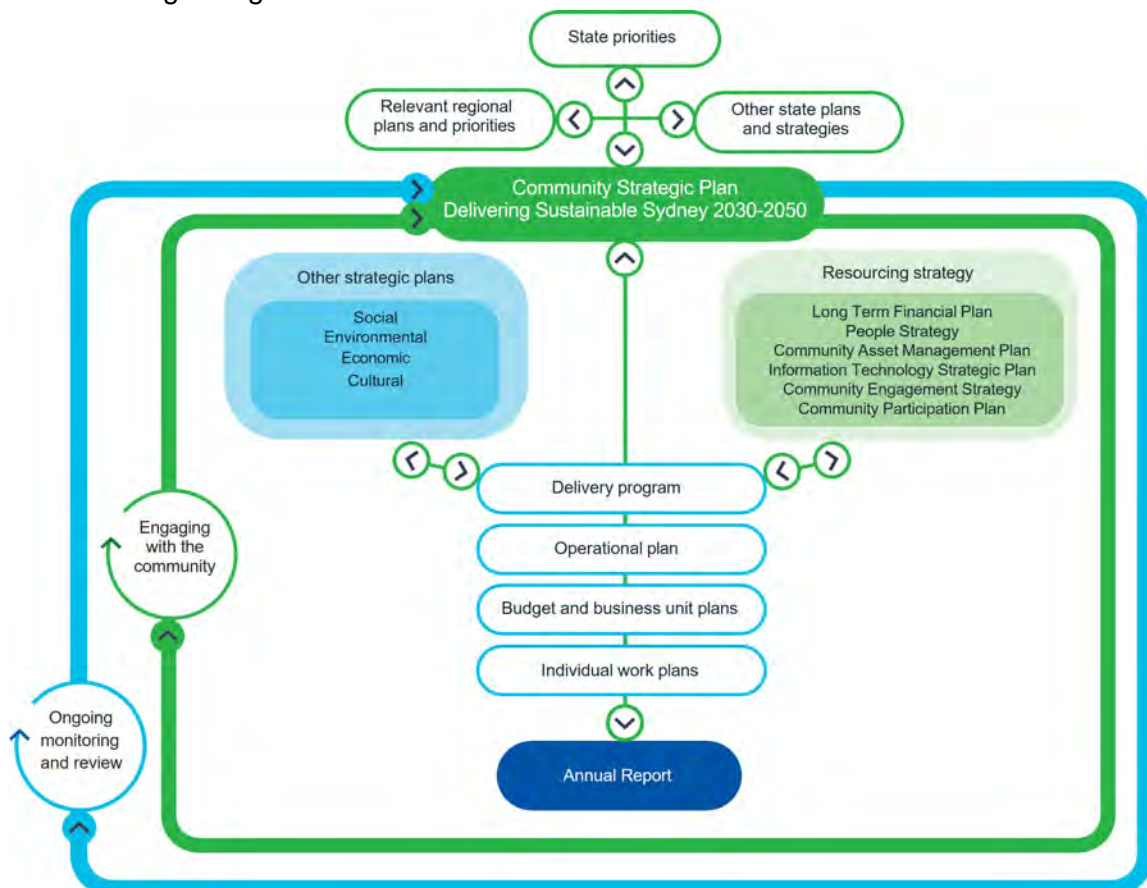

Figure 3. Integrated planning and reporting framework diagram adapted from Office of Local Government

How the documents relate

The suite of integrated planning documents represents the City of Sydney's response to the statutory framework for planning and reporting.

The Community Strategic Plan Delivering Sustainable Sydney 2030-2050 (the community strategic plan) is the highest level plan that the City will prepare.

Our community strategic plan was developed with, and on behalf of, the communities we serve. It identifies the community's main priorities and aspirations and guides all our other strategies and plans which help us to achieve these.

It takes a long-term view, identifying issues and opportunities to be addressed in the city over the next three decades. We update this plan every four years, in line with government requirements, and to adapt to changing circumstances and community aspirations.

The City's Delivery Program 2022-26 (the delivery program) identifies the actions we will take over the next 4 years that support the community strategic plan outcomes. The delivery program structure reflects the community strategic plan with activities aligned with the 10 strategic directions.

The delivery program acts as the link between the long term community strategic plan and the annual operational plan.

The delivery program also identifies priority projects and programs with measures and targets that contribute to the outcomes under each strategic direction in the community strategic plan.

Our operational plan (this plan) is an annual plan with more details of individual activities. It sets out the specific projects, programs and activities to be delivered in the year ahead and is aligned with our delivery program. It also includes the City's revenue policy for rates and annual charges, the fees and charges schedule, and other relevant budgetary information.

The IP&R framework includes a reporting process to communicate how we are progressing to the council and the community.

Resourcing the plan

To support the community's objectives expressed in the community strategic plan a long-term resourcing strategy is required as part of the Integrated Planning and Reporting Framework.

The resourcing strategy ensures the City of Sydney has adequate resources to achieve the planned outcomes for which it is responsible, while maintaining the long-term sustainability of the organisation.

The resourcing strategy spans a period of 10 years and has 5 components:

1. Long term financial plan

The Long Term Financial Plan is a 10 year plan that identifies current and future financial capacity to act on the aspirations of the community strategic plan, including providing high quality services, facilities and infrastructure to the community.

2. People (workforce) strategy

The People Strategy outlines the key issues impacting the City's workforce and seeks to guide people related decision making, priorities and investment to support the outcomes in the community strategic plan.

3. Community asset management plan

The Asset Management Plan is a plan to ensure appropriate standards for maintenance and renewal of key assets, detailing status and resource requirements. These assets are valued at approximately \$13 billion (including land) under City of Sydney care and control.

4. Information and technology strategy

This plan sets the information and technology direction and priorities that are aligned with the community strategic plan, community needs and government information and data policies. The plan guides information and technology related decision making, priorities and investment.

5. Community engagement strategy and community participation plan

The community engagement strategy sets out a framework for how we consult diverse communities and collaborate, involve and empower communities to take part in shaping the future of our city.

The City of Sydney's community participation plan is included in the community engagement strategy document to make it easier for community members to understand. However, it can read as a stand-alone plan that responds to the requirements of the Environmental Planning and Assessment Act.

The resourcing strategy should be read in conjunction with this delivery program and the operational plan to identify the resourcing needs for our activities.

Monitoring and review

The City's key plans are prepared and updated periodically and are subject to a review following the election of each new Council. The review process includes extensive engagement and input from all business units at the City and feedback from the community from submissions and other engagement activities, as well as consideration of planning priorities of other levels of government and agencies.

Progress towards our Community Strategic Plan Delivering Sustainable Sydney 2030-2050 strategic goals is monitored through regular reporting to Council. We conduct half yearly, annual and whole of each council term performance reporting, and quarterly and annual financial reporting.

Additionally, Sustainable Sydney 2030-2050 Continuing the Vision and the community strategic plan contain 10 targets to measure progress.

Strategic context

Our community strategic plan is the City of Sydney's highest-level plan. It guides all our other strategies and plans. It was developed with, and on behalf of, the communities we serve and it identifies the community's main priorities and aspirations and the strategies we can take to achieve these. It takes a long-term view, identifying issues and opportunities to be addressed in the city over the next 3 decades and it is supported by our integrated planning and reporting documents and our other plans and strategies.

Other strategic plans

Our activities are planned taking into account other City strategies and plans, such as the Local Strategic Planning Statement, and planning by other levels of government and agencies. Information on some of the key strategies and plans is given below.

Local strategic planning statement

Our Local Strategic Planning Statement sets out a 20 year land use vision, balancing the need for housing and economic activities with protecting and enhancing local character, heritage, public places and spaces. It links state and local strategic plans with our planning controls to guide development.

It sets 13 priorities and a series of actions to achieve the vision and guide future changes to our planning controls. It identifies housing and jobs targets and places for priority planning investigations. The actions include measures to align infrastructure with development, enhance the natural environment, improve the liveability of places and support the economic productivity of the city.

Resilient Sydney

Greater Sydney is one of the most diverse metropolitan cities in the world with a population of more than five million people from 200 vibrant cultures. Our global city is known for the beauty of its natural environment and outdoor lifestyle, but it is struggling to maintain liveability and equity during a time of growth and change.

Prior to the Covid-19 pandemic Sydneysiders were already experiencing a range of chronic stresses such as lack of affordable housing and transport congestion, and the need to be prepared for shock events such as heatwaves, storms and cyber-attacks. The coronavirus has added substantially to these chronic stresses.

To become connected, inclusive and resilient is a challenge every organisation and community in metropolitan Sydney must address to create a place of opportunity and well-being for everyone.

In 2015 Sydney became a member of the global Resilient Cities Network, pioneered by the Rockefeller Foundation as 100 Resilient Cities, to help cities adapt to and solve the physical, social and economic challenges of the 21st century.

Resilient Sydney is part of the network and is a collaboration between all 33 metropolitan Sydney councils, the NSW Government, business and communities. The program is hosted by the City of Sydney and funded by all local governments of Sydney. Together we developed the Resilient Sydney Strategy (2018), the first of its kind for our city, marking a new spirit of collaboration and connection in Sydney.

The strategy, in final implementation, identified solutions and actions to build resilience across systems in metropolitan Sydney. The collaboration have committed to renew our understanding of community shocks and stresses and develop the second Resilient Sydney Strategy in 2023-2024.

The community strategic plan and this operational plan have drawn from this regional strategy to set the direction for the City of Sydney's actions to build the resilience of our local area and its networks, infrastructure, assets and communities.

Premiers' priorities

The recently elected NSW Government is currently reviewing and updating the priority policy areas.

Closing the Gap

The Council of Australian Governments' (COAG) National Indigenous Reform Agreement, known as Closing the Gap, started in 2008. In March 2019 a formal partnership agreement on Closing the Gap (the Partnership) was established between the commonwealth government, state and territory governments, the Coalition of Aboriginal and Torres Strait Islander Peak Organisations (the Coalition of Peaks) and the Australian Local Government Association.

Through this partnership and for the first time, Australian governments have committed to a fundamentally new way of developing and implementing policies and programs that impact on the lives of Aboriginal and Torres Strait Islander people.

This new and shared way of working to close the gap has at its heart, four agreed priority reform targets and 16 socio-economic targets in areas including education, employment, health and wellbeing, justice, safety, housing, land and waters, and Aboriginal and Torres Strait Islander languages.

As the level of government closest to the people, local government plays an essential role in supporting and helping to steer the development of policies and programs in partnership with local Aboriginal and Torres Strait Islander peoples that address these priorities at the local and regional level.

More information on the Closing the Gap partnership is here:

<https://www.closingthegap.gov.au/>

Our organisation

Our services

The City is committed to improving the quality of services to the community. The City will continue a program of reviews and implement subsequent improvement actions across a number of services and functions. Current and proposed reviews include asset management, procurement and contract management and streamlining internal corporate services. It is expected that priorities will change over time and the review program may be required to alter accordingly during the year.

When community facing services are to be reviewed, a community engagement program will be developed to ensure our communities' and other stakeholders' expectations are included.

City of Sydney Service Catalogue

The City is developing a service catalogue to enhance our overall management of services and functions. This is a high level representation of the services provided across the organisation that might be shared across multiple organisational units and teams.

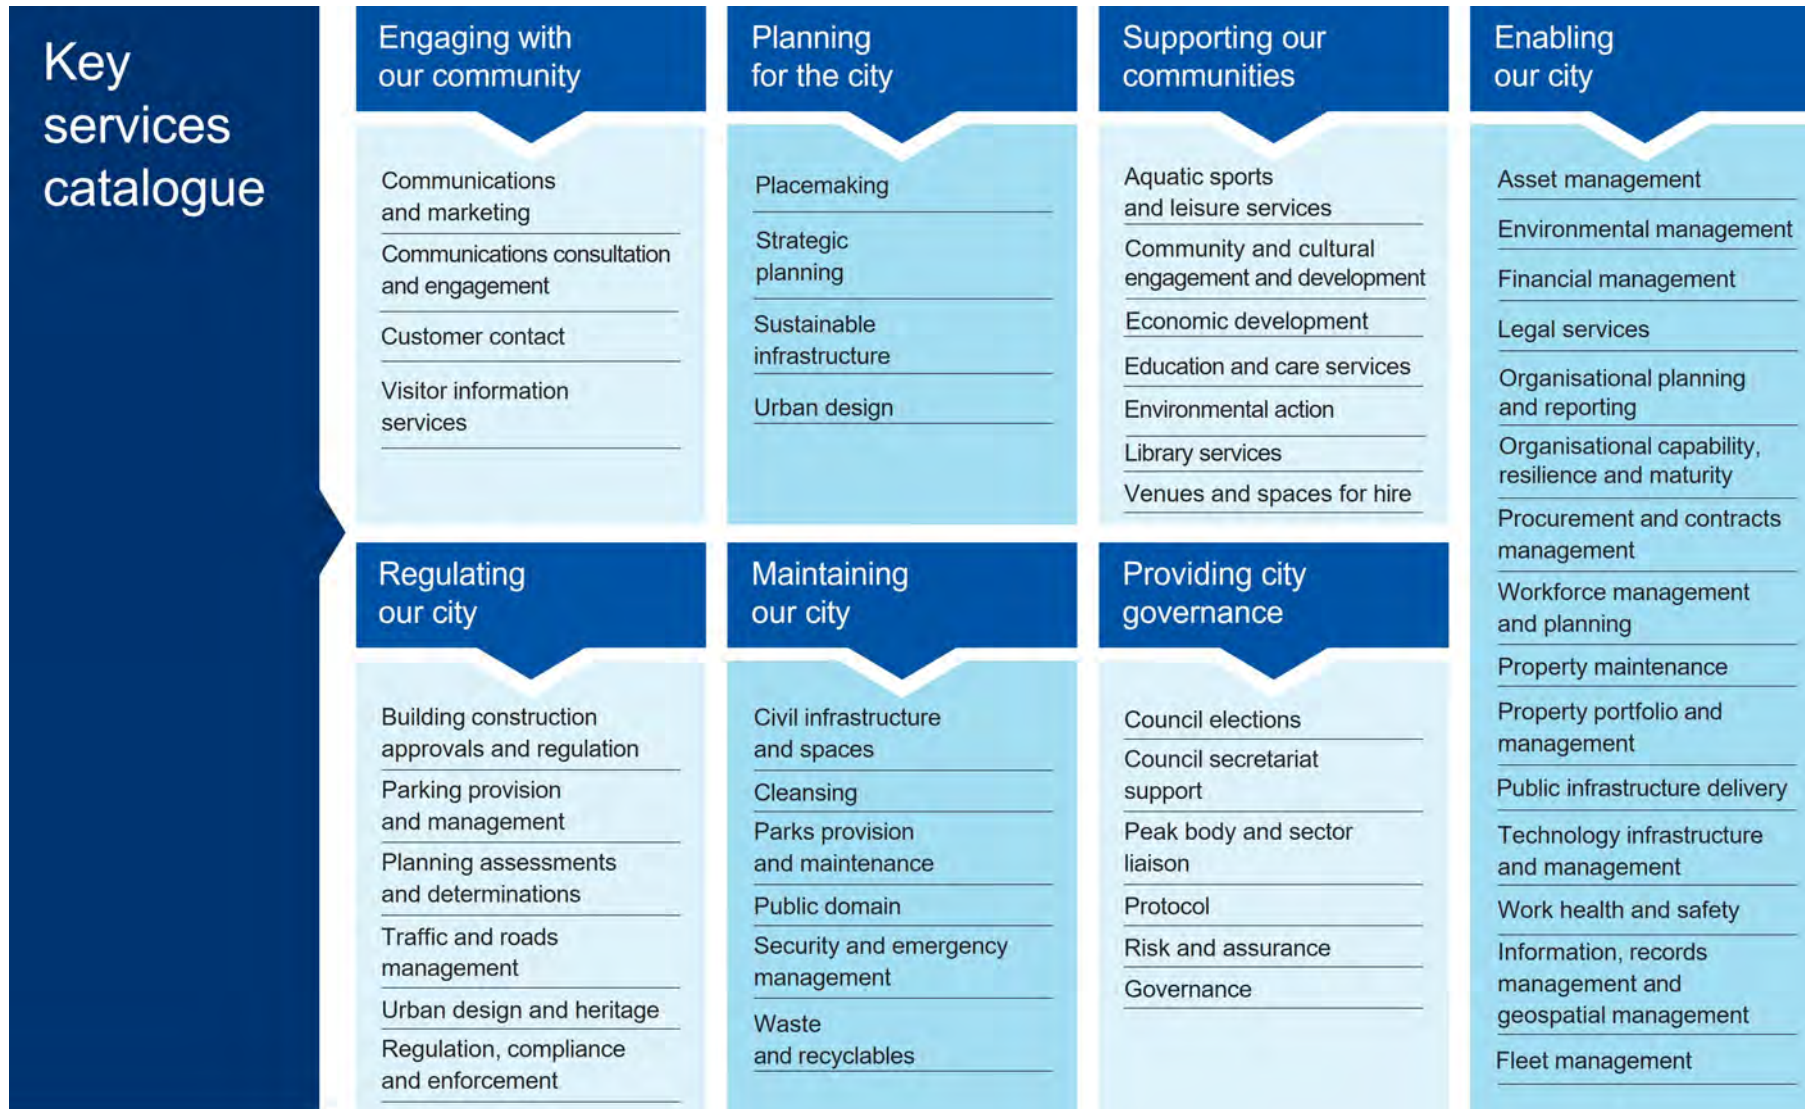

Figure 4. High level representation of the services provided by the City of Sydney

Organisational structure

The following chart shows the City's organisational structure and senior executive. The directors lead the provision of key services and delivery of programs and projects to achieve our communities' vision.

Figure 5. Diagram showing the City's organisational structure and senior executive

Governance

Our governance framework comprises the systems, processes, policies and practices developed to deliver efficient and effective decisions, services and facilities.

Good governance is at the heart of how the City of Sydney operates and ensures the community has confidence and trust in us to deliver our objectives in a way that meets community needs.

Our governance framework is implemented, monitored and reviewed by the senior management team, and ensures that we deliver what we say we will deliver and that we act in an ethically responsible way.

Figure 6. Diagram outlining elements of governance at the City

Code of conduct

The City of Sydney most recently updated our Code of Conduct in August 2022. It is based on the Model Code of Conduct for Local Councils in NSW issued by the Office of Local Government. Staff undertake induction training and regular refresher code of conduct training to ensure their actions align with our ethical standards and organisational values.

Fraud and corruption prevention

The City of Sydney has a Fraud and Corruption Control Plan which underpins the City's commitment to fraud and corruption control and contains the actions we will take to prevent, detect and respond to fraud and corruption. Complaints of corrupt conduct against council staff or councillors can be made via the reporting form on our website.

Complaints about staff members are investigated by the Legal and Governance Division. Complaints about councillors and the Chief Executive Officer are referred in accordance with the provisions of the Code of Conduct. Complaints can also be made directly to the Independent Commission Against Corruption.

Risk Management

The City of Sydney has embedded risk management principles and capabilities across the organisation to ensure effective decision making and good governance. Our risk management structures include:

- Corporate Risk Management system and framework based on international standards
- Compliance Management Framework based on international standards
- Audit Risk and Compliance Committee
- Emergency Management Committee
- Business Continuity Plans
- Internal Audit Program
- Workplace Health and Safety Management System.

Audit, Risk and Compliance Committee

The Audit Risk and Compliance Committee plays an important role in the City's governance framework. It provides council with independent oversight and monitoring of the City's audit, compliance and risk processes and its other internal control activities.

The primary objectives of the committee are to ensure the integrity of the internal audit function and to assist the council in discharging its responsibilities relating to:

- financial reporting practices;
- business ethics, policies and practices;
- accounting policies;
- risk management and internal controls;
- fraud and corruption prevention
- compliance with laws, regulations, standards and best practice guidelines.

The Audit, Risk and Compliance Committee Charter sets out the committee's roles and responsibilities and its oversight of the internal and external audit functions, including any statutory duties. The committee has three independent members, one of whom acts as chair, as well as two councillors.

External Audit

External auditing services are provided by the NSW Audit Office. The External Auditor provides independent audit opinions on both the general and special purpose financial reports of council, audits statutory returns relating to a number of council activities (including the ratings return, domestic waste return, and parking enforcement gain share), reports to the Council and the Minister of the conduct of the audit, issues a management letter detailing any matters that arise during the course of the audit and, provides any supplementary reports where required by the Office of Local Government. The External Auditor also contributes to council's Audit, Risk and Compliance Committee meetings.

Internal Audit

Internal Audit is an independent, objective assurance and consulting activity. The purpose of internal audit is to enhance and protect organisational value by systematically and independently evaluating and identifying performance improvements in business operations, risk management, internal controls and governance processes. This is undertaken through a strategic program of audits and reviews on behalf of the Audit Risk and Compliance Committee. This activity is in accordance with the City's Internal Audit Charter and is reported independently to the City's Audit Risk and Compliance Committee.

In 2023 the NSW Office of Local Government (OLG) released updated draft guidelines for the new requirement under section 428A of the NSW Local Government Act 1993 for councils to appoint an independent Audit Risk and Improvement Committee (ARIC). The City is currently using the new OLG template to update the Charter of the Audit Risk and Compliance Committee to align with the new requirements.

Accountability and Transparency

The City of Sydney takes seriously its responsibility to be open and accountable to the community. The City responds to requests made in accordance with the Government Information (Public Access) Act (2009) and proactively revises information about decisions. The City of Sydney fully complies with the intent and requirements of all legislation. At the same time we respect people's privacy by not releasing personal information where inappropriate.

Procurement and external contracts

The City's procurement processes meet the highest standards of probity and integrity. The City's objective in entering into contracts is to obtain goods and services to perform its functions, while using public funds wisely, honestly and in compliance with legislative and public interest requirements. All contracts over \$250,000 undergo a rigorous and open tender process. All other contracts follow best practice and are selected on a value for money basis.

Safety in the City of Sydney

The City is committed to the health, safety and welfare of its employees, residents and visitors. The City has a broad range of roles and responsibilities in relation to ensuring safety is prioritised across the local government area. This includes ensuring safety is a priority consideration in relation to the design and maintenance of public areas, when conducting events, in undertaking compliance and enforcement activities and when providing services to members of the community.

The broad range of legislation in relation to public safety which the City complies with, which the City has a role in enforcing or which regulates the activities of others in our local government area include the following NSW acts and related regulations, guidelines and standards:

State legislation

- *Anti-Discrimination Act 1977*

3. Strategies, objectives and actions

The Community Strategic Plan Delivering Sustainable Sydney 2030-2050 is structured around 10 strategic directions. Our strategic directions are the focus of the City's delivery program and for the purposes of section 404 of the Local Government Act (1993) describe the City of Sydney's principal activities.

Each strategic direction sets out the high level outcomes, with objectives, projects, programs and services identifying what it is we are doing to achieve the outcomes. Delivery measures, including performance indicators are used to measure our progress towards the outcomes.

Monitoring Progress

It is important that we track our progress against our plans and evaluate our success as well as what we could do differently to achieve our goals.

Monitoring the implementation of the objectives within the community strategic plan requires a multi-layered approach. The delivery of the plan's actions are monitored together with a range of sustainability indicators for the community and city as a whole. A State of our City report is prepared for each incoming council which outlines our progress against the community strategic plan, and how effective we have been in delivering social, environmental, economic and civic leadership objectives over the term of the previous council. Additionally, our community strategic plan includes 10 targets to monitor our progress.

The delivery program and operational plan are monitored through half-yearly, annual and whole of council term performance reports, and through quarterly and annual financial reports to Council. These reports provide details of our operational performance and our progress towards strategic outcomes identified in the community strategic plan. This plan also includes a range of measures within each strategic direction which will be tracked to assess our progress in implementing the Delivery Program.

These reports can be found at cityofsydney.nsw.gov.au

By 2035 we will achieve net zero emissions in the City of Sydney local area

By 2050 there will be a minimum overall green cover of 40%, including 27% tree canopy cover.

By 2030 residential potable water use will be reduced to 170 litres a person a day in the City of Sydney local area.
Non-residential potable water use will be reduced by 10% (measured per square metre) from 2018/19 levels.

By 2030 there will be a 15% reduction in waste generated by each person based on 2015 levels. And by 2030 there will be 90% recycling and recovery of residential waste, commercial and industrial waste, and construction and demolition waste, which will be maintained at that level to 2050.

By 2036 there will be approximately 700,000 jobs in the City of Sydney local area including 200,000 new jobs compared to 2017. An increased proportion of all jobs will be secure jobs.

By 2036 there will be at least 156,000 private dwellings and 17,500 non-private dwellings that include boarding houses and student accommodation. Of the private dwellings, 7.5% will be social housing and 7.5% will be affordable housing with this proportion maintained into the future.

By 2036 there will be at least 40,000m2 of new cultural production floor space in the City of Sydney local area compared to 2017.

By 2050 people will use public transport, walk or cycle to travel to and from work. This includes 9 out of 10 people working in the city centre and 2 out of 3 people working in the rest of the local area.

By 2030 every resident will be around a 10-minute walk to what they need for daily life.

By 2050 community cohesion and social interaction will have increased. This is based on at least 75% of the local resident population feeling part of the community, agreeing most people can be trusted and believing that when needed, they can get help from their neighbours.

Figure 7. Our ten community strategic plan targets to measure progress

Community wellbeing indicators

The City has established a comprehensive set of community wellbeing indicators that measure progress across social, cultural, environmental, economic and democratic perspectives. The community wellbeing indicators add an additional dimension to monitoring and reporting on the community strategic plan, and to the evidence base for integrated planning and reporting.

Measures

In improving our planning and reporting to address our community strategic plan outcomes, we have developed a number of measures. Not all of these measures have historical data to report, nor do they all have identified targets.

There are two reasons for this:

1. It is not always appropriate to set targets, as some measures are not controllable by the City but are useful plot trends or demands that impact performance.
2. There may be no historical data to use as a guide for an appropriate target to set. This will be changed where appropriate as we collect enough data to guide us in target setting.

Each of our strategic directions and underlying performance monitoring processes reflect that City of Sydney works under the principles of PLAN, DO, CHECK, ACT.

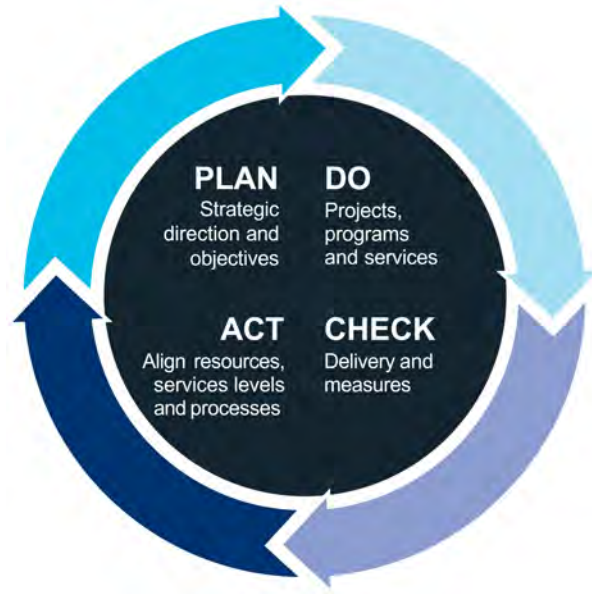

Figure 8. Plan, do, check, act process diagram

4. Ten strategic directions

Strategic Direction 1 Responsible governance and stewardship

Our organisation evolves to provide governance and leadership for the city and communities.

Strategic Direction 2 A leading environmental performer

The city is part of a decarbonised world. Our communities live in a city that is regenerative and makes a positive contribution to the planet, to society and to individual lives. We are innovative leaders in climate change adaptation and innovation.

Strategic Direction 3 Public places for all

The city has more places for people who live, work, invest and visit here. The history of the city and connections to Aboriginal and Torres Strait Islander peoples is evident in our public places. The city centre is an inviting and lively place, clean and safe, day and night, and with creativity and public art at its heart. Our local main streets are thriving hubs with their own distinctive characters.

Strategic Direction 4 Design excellence and sustainable development

The city will continue to grow sustainably and with good design. Communities are inclusive, socially connected, healthy, and live in walkable well-serviced neighbourhoods, supported by public transport. We take the impact of our changing climate into account in the policies that influence development in the city.

Strategic Direction 5 A city for walking, cycling and public transport

The city is greener and calmer, with more space for people on the streets – including footpaths and cycleways. More people choose to walk, ride and use public transport. All vehicles in the city are zero emissions.

Strategic Direction 6 An equitable and inclusive city

Everyone feels welcome and can afford to live here if they choose. Everyone can participate, prosper, and reach their full potential in a city that is fair and just.

Strategic Direction 7 Resilient and diverse communities

The city and its public places and infrastructure can withstand impacts from a changing climate and emergency situations. We work with communities, businesses, and other organisations to strengthen connections and networks, to prepare the city and be able to recover from most situations.

Strategic Direction 8 A thriving cultural and creative life

We are proud of the city. We are all able to participate in, contribute to and benefit from the city's cultural life.

**Strategic Direction 9
A transformed and innovative economy**

The city maintains its position locally, nationally, and internationally as a destination for business, investment, and talent. Innovation is central to the economy and transformation has occurred across all industries. Wealth and benefits are shared equitably.

**Strategic Direction 10
Housing for all**

This is a city where everyone has a home. Social, affordable, and supported housing is available for those who need it. High-quality housing is available for everyone.

5. Statement of Revenue Policy

The City's revenue and financial position have been impacted by the Covid-19 pandemic. We're working to restore our financial position back in line with our long-term financial plan and to meet our commitments to provide services and support to the community and businesses in our local government area.

Despite the impacts of the pandemic, the City's strong financial management over the past years has provided a platform to respond to the crisis.

As we emerge from the pandemic we will focus on building the recovery while continuing to adjust to ensure the health and wellbeing of the community.

We will continue to engage with the community using the principles outlined in our Community Engagement Strategy and Community Participation Plan to ensure that changing and emerging priorities are identified. Decisions will continue to be based on the principles in our plan, community engagement outcomes, and in alignment with the NSW and Federal Government's recovery efforts and directives.

Budget and financial schedules

The City has produced a number of financial reports to illustrate its plans and commitments over the ten year horizon of the Long Term Financial Plan.

The following briefly describes these schedules and any assumptions have not been previously discussed throughout the body of the plan.

Additional alternative schedules have been presented for the Income Statement and Cash Flow Forecast, to reflect potential adverse scenarios.

Income and Expenditure (Income Statement)

Income & Expenditure Statements have been provided at summary and detailed level to reflect the City's ten year operational plan, including the 2023/24 budget and future years' forward estimates.

The summary report provides a high level overview, accords with the discussion in this plan, and aligns to the required Annual Financial Reports format.

Scenario modelling

Beyond the "base case" modelled in the main financial schedules, supplementary Income Statement and Cash Flow Forecast schedules have been included, modelling additional scenarios related to:

Sustained inflation over the short term (until 2025/26), then decreasing and returning to the Reserve Bank of Australia's inflation target range, driving an increase in the expenditure base.

1. Reduced income from developer contributions resulting from uncertainty of future development cycles and the ownership of income flows.
2. Additional income and expenditure reports then provide more detailed information for the "base case":

- By main income and expenditure type
- By the City’s organisational structure; and
- Distributed by the City’s principal activities

Capital Works

The capital works budget within the Long Term Financial Plan identifies each major project, rolling program and future project provision over the course of the 10 year planning horizon. The proposed capital works program includes asset enhancement programs, asset renewal programs and a capital contingency sum.

Balance sheet (Statement of financial position)

The balance sheet reflects the City’s financial assets, liabilities and equity over the 10 years of the plan. The 10 year balance sheet reflects movements in cash and investments levels, the acquisition and divestment of assets and estimated movements in employee leave provisions, accounts payable and accounts receivable.

Cash flow forecast

The Cash flow Forecast takes the Net Surplus result from the Income & Expenditure Statement, adjusts for non-cash transactional movements and allows for the Capital Expenditure program to forecast the movements in the City’s total cash and investment balances.

Achieving this cash forecast is critical to ensuring the sustainability of the Long Term Financial Plan, and as such it will be one of the key measures that is regularly monitored and reviewed over the life of the plan.

Office of Local Government performance measures

Projections relating to key performance measures are included in graphical format to provide additional context and to indicate performance trends over the period of the Plan.

Consistent with the requirements of the Office of Local Government, the Long Term Financial Plan projects financial forecasts for the City for ten years, and is updated annually as part of the development of the Operational Plan.

Budgeted Income Statement

The City's budgeted Income Statement (and future year projections) is prepared with regard to International Financial Reporting Standards (AIFRS) and the NSW Office of Local Government's Code of Accounting Practice and Financial Reporting. The formatting of the statement above reflects this approach. The above Income Statement (and other financial schedules) reflect the City's "base case" Net Operating Result. Scenarios reflecting inflation lasting longer than anticipated impacting operating expenses, and developer contributions lower than anticipated impacting total income have also been modelled and are included after the "base case" scenario financial schedules.

Major non-cash items that may impact the City's financial results include:

- the incremental increase / decrease arising from the annual market revaluation of the City's investment properties
- the initial recognition of transferable Heritage Floor Space rights

These items will have no initial impact upon the budgeted funds available for the Council and are therefore excluded from the annual budget and future years' financial estimates. Expected realisation of these assets through anticipated sale/divestment is reflected in forward estimates as applicable.

City of Sydney

Summary of income and expenditure by Principal Activity

The schedule below reflects the Strategic Directions from Delivering Sustainable Sydney 2030-2050 as Principal Activities for this Delivery Program. A number of Principal Activities are largely of an advocacy and facilitation role for the City (such as Housing for all) and not one of direct service provision. As a result, the proposed budget does not reflect substantial operational costs (particularly salaries expenditure) incurred indirectly in delivering this Principal Activity. Other Principal Activities (such as Design excellence and sustainable development), will be delivered primarily via operational expenditure, rather than directly through capital works.

The summary of income and expenditure by Principal Activity below includes both the proposed operational budgets and the capital works program (for 2023/24) to better reflect the allocation of Council funds towards these major directions.

City of Sydney

Plant and Asset acquisitions, disposals and Capital Works (Technology and Digital Services)

Council holds assets to ensure its financial viability, for commercial and strategic reasons, and to meet the needs of its operations. Depreciating assets, such as plant, equipment and vehicles, held for Council's operations are changed or replaced in line with Council's current needs and the operational life of the asset. The City replaces its light fleet every two years or 40,000km excluding utility vehicles which are replaced every three years or 60,000km. The City also adopts a replacement program to renew its Personal Computer assets on an average three-yearly cycle.

The City has a program of upgrades and enhancements to information systems. These can include installation and configuration of third party software and development of new in-house solutions. Where these system developments are deemed to have an enduring benefit to the City, the costs of the project are capitalised as assets within the Fixed Asset Register, and amortised over an appropriate useful life. Capitalisation of costs is consistent with the City's Asset Recognition and Capitalisation Policy.

Notes on Commercial Activities and Revenue Policy

Statement of Business or Commercial Activities

The City of Sydney expects to continue with Parking Stations as a Category 1 business activity. In a typical operating environment, these commercial activities provide an additional source of funding that enables the Council to continue to provide enhanced services and infrastructure delivery without placing additional burden on the City's ratepayers.

The City expects to generate \$10.6M in 2023/24 from Parking Stations and \$114.4M over the ten year life of the plan.

Revenue Policy - Charges for Works Carried out on Private Land

Council does not generally carry out works on private land, however if Council were required to undertake such works (e.g. the construction of a private road), then the works would be charged at the appropriate commercial rate.

City of Sydney
OFFICE OF LOCAL GOVERNMENT PERFORMANCE MEASURES - PROJECTIONS

The City's performance in respect of the mandated Office of Local Government Performance measures is detailed below. The charts demonstrate performance trends on the basis of forward projections contained in the Long Term Financial Plan, and estimates related to future asset maintenance and renewal requirements (per the Asset Management Plan) and infrastructure backlog.

The formulas used in the calculations, as provided by the NSW Office of Local Government (OLG), are also included.

The graphs plot the annual performance for each ratio shown - while longer term projections generally reflect above-benchmark

Sustainability

Operating Performance Ratio

$$\frac{\text{Operating Revenue (excluding Capital Grants \& Contributions)}}{\text{less Operating Expenses}}$$

$$\text{Operating Revenue (excluding Capital Grants \& Contributions)}$$

Operating Performance is projected to exceed benchmark over the life of the Long Term Financial Plan.

2024/25, 2028/29 and 2032/33 are all election years, which has a slight unfavourable impact on the ratio result due to additional expenses incurred in running local government elections including to administer a roll of business voters within the LGA for the purposes of compulsory voting.

2025/26 sees an improved ratio result attributed to anticipated improvement on commercial property returns and reintroduction of Footway License fees.

Own Source Revenue

$$\text{Total continuing operating revenue (excluding all grants and contributions)}$$

$$\frac{\text{Total Operating Revenue}}{\text{(including all Capital Grants and Contributions)}}$$

The City's Own Source Operating Revenue is already well above the required benchmark level and is forecast to continue to grow as a proportion of total operating revenue.

As detailed in the Long Term Financial Plan document, minor incremental growth in the City's rates base and the assumed continuation of the "cap" on developer contributions per new dwelling will result in capital income representing a declining proportion of the City's income base, reflected in the gradual increase in the Own Source Revenue ratio. The ratio may be impacted in any given year by higher-than-expected capital income receipts.

Building and Infrastructure Asset Renewal Ratio

$$\text{Actual Asset Renewals}$$

$$\text{Required Renewal* of Building and Infrastructure Assets}$$

Rather than utilise depreciation expense as an arbitrary proxy, the required renewal of building and infrastructure assets is instead sourced from the Asset Management Plan within the City's Integrated Planning and Reporting documents. Depreciation rates are also re-assessed regularly to reflect appropriate useful lives for assets, but the straight line methodology inevitably presents a limitation.

Ratio performance is forecast to exceed benchmark over the life of the plan. Performance in excess of the ratio benchmark is driven by large-scale capital works projects that provide a renewal benefit to major assets while achieving long term strategic goals. These major items are in addition to underlying capital renewal programs that meet cyclical renewal requirements.

City of Sydney
OFFICE OF LOCAL GOVERNMENT PERFORMANCE MEASURES - PROJECTIONS
Infrastructure and Service Management

Infrastructure Backlog Ratio

Estimated Costs to Bring Assets to a Satisfactory Standard

Written Down Value of Infrastructure
 (incl roads and drainage assets), Building, Other Structures and Depreciable Land
 Improvements Assets

The City holds the view that the vast majority of its buildings and infrastructure are currently maintained at or above a "satisfactory standard". The identified infrastructure backlog is subject to ongoing review, to ensure that backlog levels reported are reflective of those assets deemed to be at less than "satisfactory standard".

The City's projected Infrastructure Backlog ratio is subject to future assessments of asset condition, and therefore difficult to predict. However, the ratio result is expected to improve as targeted renewal works (per the City's asset management plans) are completed. Condition assessments of assets are also completed periodically, in order to better prioritise works.

Asset Maintenance Ratio

Actual Asset Maintenance
Required Asset Maintenance

In line with the City's Asset Management Plan, asset maintenance is forecast to remain at (or near to) benchmark over the life of the plan (i.e. 98% or higher).

Whilst gross expenditure on asset maintenance will continue to grow over time, so to will the "required" level of annual maintenance, as the City's asset base continues to grow. Resourcing of asset maintenance and operating expenditure is considered in conjunction with capital renewal, as part of a holistic approach to asset management. Over the longer term, increases to asset maintenance expenditure will continue to be 'matched' to growth in the City's asset base.

Debt Service Ratio

Principal Repayments (from Statement of Cash Flows) plus Borrowing Interest Costs
 (from the income statement)

Operating Results before Interest and Depreciation (EBITDA)

Historically strong financial management has alleviated the need for the City to borrow funds, and the Long Term Financial Plan projects that this trend will continue over the next 10 years.

In addition to cash and investment reserves accumulated over time, the City has access to considerable capital income (in the form of developer contributions and interest on cash and investments) that will facilitate the delivery of new capital projects without the use of borrowings. Should funding circumstances change, the City will review the appropriateness of debt financing accordingly.

Efficiency

Real Operating Expenditure per capita

Real Operating Expenditure
Residential Population of Local Government Area

A declining trend over time is in line with OLG requirements, and reflects the City's commitment to targeting efficiencies in service delivery.

Whilst gross Operating Expenditure is forecast to increase over time, the residential population of the LGA is projected to grow more rapidly, representing a gradual decline in Real Operating Expenditure per capita. Service levels are reviewed as part of the Integrated Planning and Reporting process, and will reflect ratepayer priorities within tight budgetary controls.

The orange line reflects the inclusion of all users of the City. Note that the City has close to 1.1M visitors per day on average in 2022/23, which is a slight drop on earlier estimates.

Inflation lasting longer than anticipated impacting operating expenses

The base case of this Long Term Financial Plan anticipates that inflation will subside and return to the Reserve Bank of Australia's long term average target range by 2024/25. This alternative scenario has been modelled to demonstrate the potential additional impact of high levels of inflation persisting for two years, with the compounding impact of that inflation reflected through the ten years of the Plan. Compared to the base case, Employee related expenses in this scenario were modelled at 1% higher for 2024/25 and 2025/26. Likewise Materials and Contracts were modelled at 2% higher than the base case. The increase in these two financial years is compounded in the later years of the plan by the same assumptions used in the base case.

The financial impact of the temporary higher inflation under this scenario results in an additional \$41.9M Employee related expenses and \$113.4M higher Materials and Contracts costs. As a consequence, projected Interest Income is \$19.6M lower. These factors combined unfavourably impact the City's net operating result by \$175M over the ten year Plan. The cash impact of this scenario is modelled on an alternative Cash Flow Forecast on the next page.

Developer contributions lower than anticipated impacting total income

The base case of this Long Term Financial Plan anticipates that Developer Contributions will be stable, driven by long term trends in property development in the Local Government Area. This alternative scenario has been modelled to reflect the potential impact of Developer Contributions being lower than assumed in the base case. This may eventuate for a number of reasons. There is the possibility that the development cycle dips and activity is subdued for some time following prolonged global inflation and recessionary pressures. Separately, the State Government has not dismissed the possibility of changes to legislation regarding developer contributions, in which contributions received by the City may be siphoned off to fund State Government priorities elsewhere in New South Wales.

The assumption in this scenario is that developer contributions are 25% lower compared to the base case over the life of the plan. The financial impact is \$128.3M lower developer contributions with a consequential reduction in interest income of \$19M, which leads to an operating result that is \$147.3M unfavourable to the base case of this plan. The cash impact of this scenario is modelled on an alternative Cash Flow Forecast on the next page.

Grants and sponsorship program

The City of Sydney's Grants and sponsorship program supports initiatives and projects that strengthen the social, cultural, economic and environmental life of the city. Through this program the City of Sydney partners with the community and business to further the strategic directions of Sustainable Sydney 2030-2050 Continuing the Vision.

The Grants and sponsorship policy provides the framework for managing grants and sponsorship applications. It sets the expected outcomes of our Grants and sponsorships program and the principles that guide grantmaking at the City of Sydney.

The City seeks to optimise the use of public funds through effective and efficient grant processes, and clear grant program objectives linked to the organisation's strategic goals.

Supporting the Policy are the Grants and sponsorship guidelines which provide details about each of the grant programs including funding priorities, key dates, funding available, eligibility criteria, application processes and assessment criteria. The City's current Grants and sponsorship policy was fully reviewed in 2022 and adopted by Council on 22 August 2022. The Policy is next due to be reviewed by August 2026.

Grant programs and proposed budgets in 2023/24

These grant programs have been approved under the current Grants and sponsorship guidelines.

Cash

- Aboriginal and Torres Strait Islander collaboration fund – \$500,000
- Community services grant – \$1,695,000
- Creative grants – \$1,300,000
- Business sector support grant – \$845,000
- Green building grant – \$400,000
- Festivals and events sponsorships – \$5,405,000
- Innovation and ideas grant – \$1,175,000

- Quick response grant – \$360,000
- Affordable and diverse housing fund – \$1,500,000
- Major homelessness support – \$1,400,000

Value in Kind (VIK)

- Accommodation grant – \$9,445,265
- Creative live/work spaces grant – \$204,042
- Short term empty properties grant – no budget required
- Venue hire support grants and sponsorship – \$956,000
- Street banner sponsorship – \$234,526
- Special events cleaning and related expenses – \$230,000

Note:

Some of the proposed grant programs are open for application to for-profit organisations.

The budget for each grant program open to for-profit organisations does not exceed 5% of the City's forecast for ordinary rates this year.

A number of grant programs include multi-year funding arrangements. e.g. support for Sydney Festival within the Festival and events sponsorships program.

Where the budget for one grant program is not fully expended, the underspend will be made available for transfer to other grant programs within this financial year as required.

Summary

The table below provides a breakdown of the cash and value in kind amounts that make up the total grants budget of \$25.65M.

	2023/24 Financial year
Cash	\$14,580,000
Value in kind	\$11,069,833
TOTAL	\$25,649,833

Land Values

The Valuer General is an independent statutory officer that issues new land values to councils at least every three years to use for rates. All councils will use the 1 July 2022 land values for rating from July 2023. If a land value increases, it doesn't mean the rates on that land will rise by the same amount. Changes in rates depend on how a land value changed relative to other properties in the same rating category and how much the council can increase its overall rates income.

The Valuer General sends landowners a Notice of Valuation to give them a chance to consider the land value before council sets its rates. For strata scheme land values, only one land value is determined for the whole site of the strata scheme and the Notice of Valuation is issued to the nominated representative of the scheme. Rating values for individual strata units are a proportion of the strata scheme land value, based on unit entitlement. Ratepayers can find their land values by visiting www.valuergeneral.nsw.gov.au or contacting Valuation NSW directly.

Objections to land values can be made under the Valuation of Land Act 1916. Valuation NSW published "Your Guide to the Valuer General's Review Process" in January 2023 that can be found at https://www.valuergeneral.nsw.gov.au/publications/fact_sheets_and_brochures

Rating structure

The Independent Pricing and Regulatory Tribunal (IPART) determined that the City of Sydney could increase its general rate income by 3.7% for 2023/24.

The rating structure has one ordinary rate for all residential properties, one business sub-category rate for the CBD and a business ordinary rate, with minimum rates in each category to ensure that all ratepayers make a minimum contribution to the City.

The City has determined the following residential and business categories and sub-category of rateable land for the 2023/24 year:

Residential:

Residential Rate – Ordinary

Business:

Business Rate – Ordinary

Business Rate – Central Business District (CBD)

The boundaries of the business sub-category are shown on the plan located within this document.

The City will continue to investigate rating models during 2023/24, and invite community feedback, to consider options to improve the fair and equitable distribution of the rates burden for all of our ratepayers.

In a high density local government area with population increases that are forecast to continue, and a requirement to respond to NSW Government housing targets, the City is looking closely at its rating path and the best way to equitably align its rating structure to service this growth. High volumes of apartment living puts additional demands on the City's services, facilities and infrastructure, however the relatively low additional income that arises from the minimum rates attributable to these additional apartments fails to provide appropriate financial support to offset the rising costs of servicing our growing community.

The rating structure for 2023/24 set out in the following table reflects the City's adoption of a 3.7% general rate increase:

Rating category	Minimum rate	Ad valorem rates (in the \$)	Estimated yield before rebates \$M
Residential rate – ordinary	\$636.10	0.00092013	\$93.0
Business rate – ordinary	\$814.00	0.00283718	\$72.1
Business rate – CBD	\$814.00	0.00733334	\$173.3

The City is applying for \$400,000 in newly rateable Crown land to be added to its permissible rates.

Categorisation of land for the purposes of ordinary rates

Council determines rating categories for rating purpose in accordance with sections 514 – 529 of the Act and relevant sections of the *Local Government (General) Regulation 2021* (the Regulations).

Business rate categories:

-  Business rates - CBD
-  Business rates - Ordinary

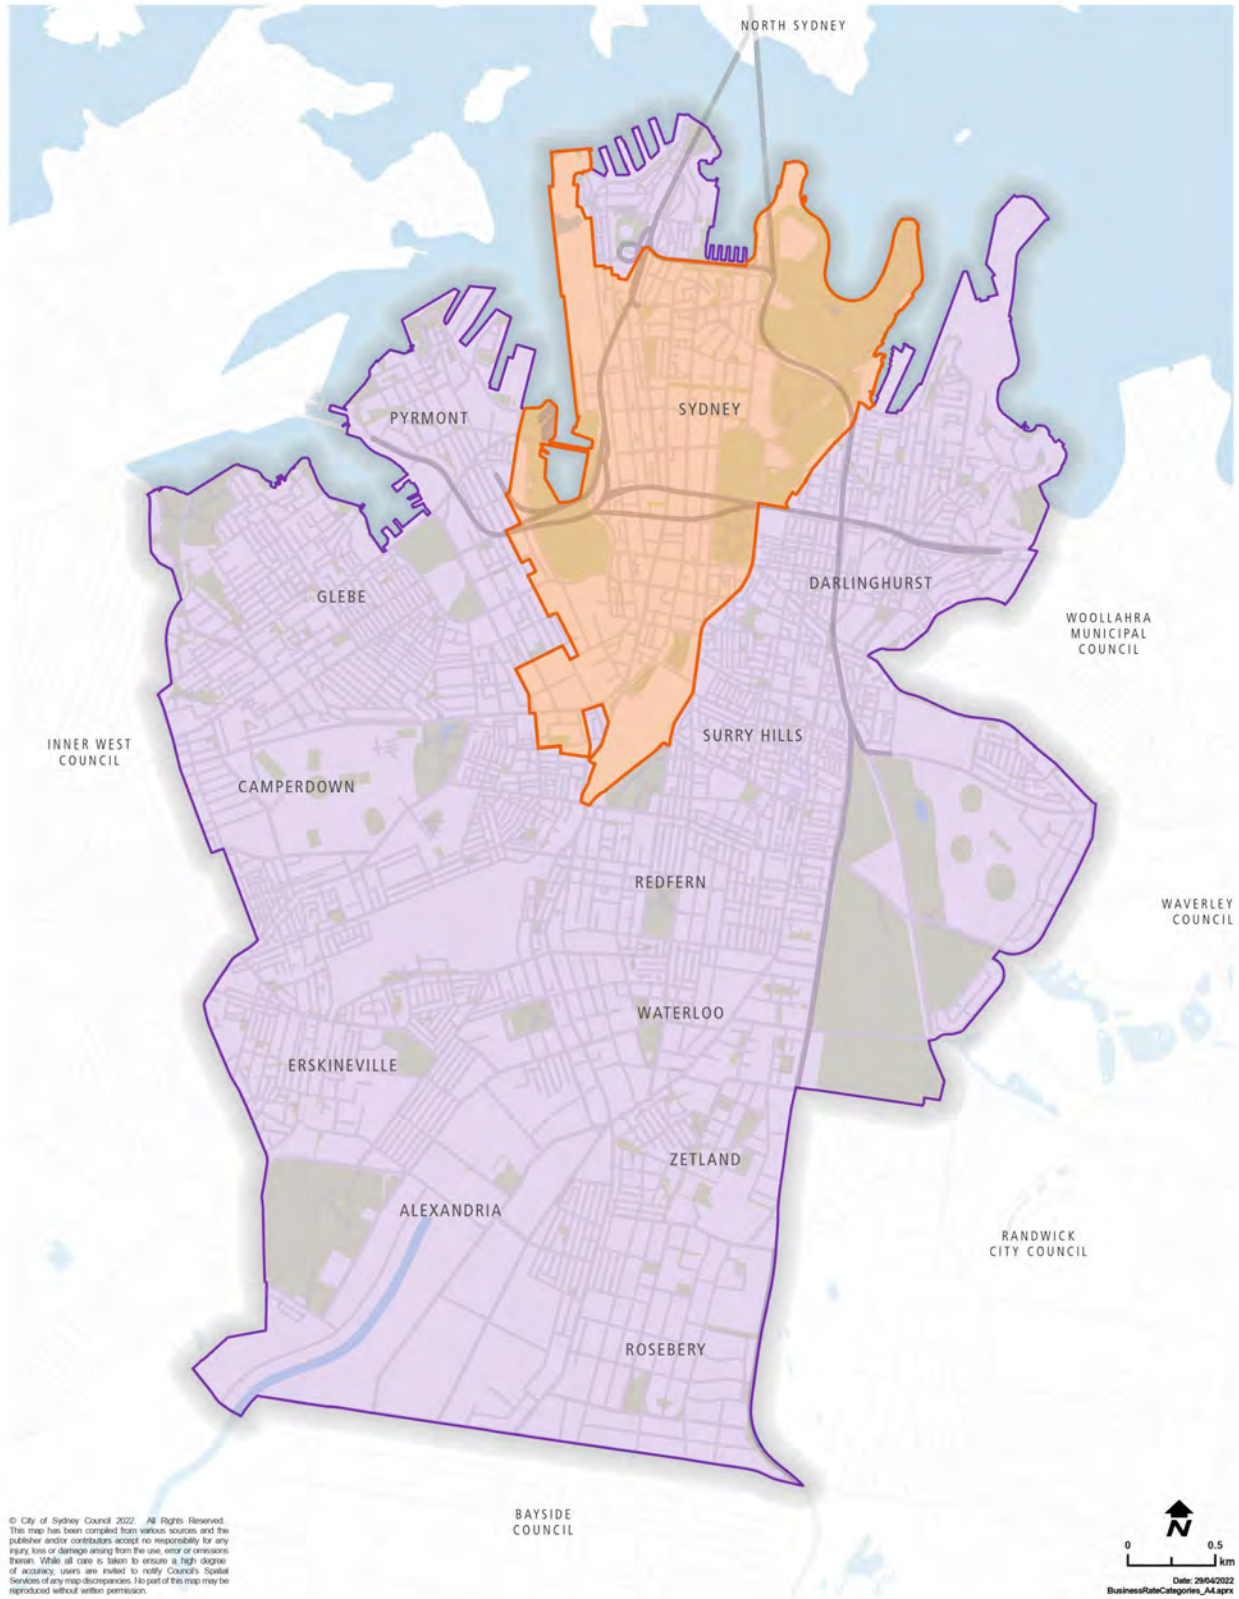

Figure 11. Business rate categories

Residential and business categories

The Act only allows 4 available categories of rateable land, including farmland and mining which are not applicable within the City of Sydney LGA. All rateable land in the City is categorised as either residential or business. As noted within section 518 of the Act, land that does not satisfy the criteria to be deemed residential, farmland or mining will be categorised and rated as business. The business category applies to land that is used for industrial and commercial operations, and can also include car spaces, storage lots, marina berths and mooring lots.

Council will use the plans approved under a development application or building application as a basis for determining the initial categorisation of a property, unless other more relevant information is available. The ratepayer will be advised through the issue of an annual or supplementary rate notice.

Mixed development

There are instances where a property is used for both residential and business purposes. If applications are submitted to and approved by Valuer General NSW, the City will be advised of the relevant apportionment of use between residential and business rate components to enable a mixed rate to be levied.

Change to category for rating purpose

A review of the categorisation of land for rating purposes may arise in response to a ratepayer request (application), or because Council elects to review one or a number of parcels of land or because it believes that the current categorisation may be incorrect. Council may request further information and/or access to inspect the property to assist with making this determination.

Applications for a change in categorisation of land for rating purposes must be made on the approved form that can be found on the City's website.

The ratepayer will be formally advised in writing of the outcome and where applicable, will receive an annual or supplementary rate notice.

Ratepayers with a property that is used for both a business and residential purpose should also make an application for a change in categorisation of land for rating purposes on the approved form if they wish to change from one category to mixed use rating.

Decisions on requests for refunds will be made having regard to the *Recovery of Impost Act 1963*.

Pensioner rebates and refunds

The City of Sydney will continue to provide a 100% rebate for eligible pensioners in 2023/24, determined in accordance with section 575 of the *Local Government Act (1993)* (the Act).

Requests for retrospective rebates may be approved for the current rating year and a maximum of one prior rating year only.

Refund of overpayments

Refunds may be made on request for payments made toward the next rating year. Refunds are subject to the refund fee. Payments made in advance for instalments due within the current rating year will not be refunded.

Aggregation of land parcels (lots) for the purposes of ordinary rates – rating of car spaces and storage lots

Where a lot for a strata unit includes part lots for car and/or storage lots, only one rateable valuation exists and therefore only one rate is calculated on the total value of the unit, car and storage lots.

Where car and/or storage lots are separately titled, they attract their own unit entitlement and rateable value separate from the strata unit. In this circumstance, Council may allow the rateable

values to be aggregated, and a single rate to be levied on the combined rateable value, in accordance with section 548A of the Act, subject to the limitations below.

Council will aggregate only where:

1. the lots are used in conjunction with the unit, by the occupier of the unit; and
2. the ownership of each lot noted on the certificate of title is exactly the same for each; and
3. all lots are within the same strata plan, or strata scheme, or the strata plan notes that the lots are used in conjunction; and
4. the lots are not leased out separately.

Residential – Council will only aggregate a maximum of 3 car spaces and all storage lots, to a residential strata unit.

Business – Council will only aggregate a maximum of 1 car space and one storage lot, to a business rated strata unit.

Council will not permit aggregation of marina berths and mooring lots.

Aggregation of car and storage lots will continue until the use or ownership changes. Upon change of ownership, aggregation of a unit with car and storage lots purchased in the same dealing will occur automatically from the next quarterly instalment due following receipt of the Notice of Sale and any settlement payment (subject to meeting criteria mentioned above).

Applications for aggregation must be made using the form found on the City's website. Approved aggregations will come into effect from the start of the next quarter following receipt of the application.

Debt recovery and financial hardship

The Act and related regulations require Council to assist in effective and efficient collection of the rates and annual charges due to Council, while being responsive and supportive to those ratepayers who are suffering genuine financial hardship.

When is a debt recoverable and what actions may be taken to recover the debt?

Rates and charges will be deemed overdue when the due date for instalment has passed, and payment has not been received.

Where an instalment is overdue, Council may commence recovery action, either directly or via its debt recovery agent.

Council's recovery action options will generally include a reminder, through verbal or written correspondence. If payment is still not received, then a final demand will be issued. Council may commence legal recovery action to recover the overdue rates and charges in accordance with section 695 of the Act, and any costs incurred in this regard will be recoverable from the ratepayer.

Payment arrangements

To assist in recovery of the overdue amount, the Council and a ratepayer may at any time agree a payment arrangement whereby regular scheduled payments pay off the debt, in accordance with section 564 of the Act. The arrangement must be formally approved by the City or its debt recovery agent.

Payment arrangements must include any legal or interest charges that will or already have occurred due to the rates being overdue.

Council will generally seek an arrangement to have the overdue debt paid within 90 days from the original due date (being the instalment due date).

If the payments are not made in accordance with the agreed payment arrangement, Council may commence recovery action at any time after the payment due date.

Interest on overdue rates

Interest is charged on all overdue rates and annual charges in accordance with section 566(3) of the Act. The City will adopt the maximum interest rate permitted by the Minister for Local Government for the 2023/24 financial year.

Ratepayers in genuine financial hardship

While ratepayers are required to pay their annual rate and charges to support local government operations, Council is mindful of the need to support ratepayers who suffer genuine financial hardship.

The City of Sydney's 100% pensioner rebate policy covers many in need of support; however there will still be ratepayers whose financial circumstances for a specific period of time render them unable to meet their obligations as they fall due.

To address these situations, ratepayers are able to apply for consideration of extended payment terms. Options for eligible ratepayers may include:

- a. a short term deferment for paying their current rates and charges; or
- b. longer term arrangement plans for arrears owed, with current instalments being paid as they become due.

Provided that an approved hardship repayment plan is maintained, the City can consider reducing or waiving interest on overdue rates in accordance with sections 564 and 567 of the Act.

Financial hardship as a result of valuation changes

Section 601 of the Act specifically caters for ratepayers who may suffer financial hardship arising from an increased rate levy due to changes in the valuation of their property.

Ratepayers in this position should contact the City to discuss their circumstances. Evaluation of any such application will be considered in light of the valuation change and subsequent rate increase.

Stormwater management services charge

The Office of Local Government released guidelines in July 2006 that provide assistance to councils raising additional funding through the Stormwater Management Services Charge to support them in improving the management of urban stormwater in NSW. This follows the gazettal of the *Local Government Amendment (Stormwater) Act 2005*.

The City introduced a stormwater management services charge in 2008 and proposes to continue this charge. The legislation enables the City to raise charges to improve its stormwater networks. The charges remain at \$25 per residential property, \$12.50 per residential strata unit, and a pro rata rate of \$25 for every 350m² or part thereof for business properties.

The funds raised from this charge are quarantined to improve the quality and quantity management of the City's stormwater network, over and above the existing works that are currently undertaken. The City plans to expend significant sums towards these important infrastructure improvements in the coming 10 years, and this contribution has assisted with the preliminary planning of network enhancements, and in the future will contribute to the delivery of works identified with the Stormwater Management Plan.

Residential

Non strata land parcels	\$25.00 per parcel
Strata unit	\$12.50 per unit
Company title	\$12.50 per unit

Business

Non strata land parcels \$25.00 per 350m2 or part thereof

Strata unit Pro-rata of above, but a minimum of \$5

The income of the proposed stormwater management services charge is approximately \$2 million.

Domestic waste management annual availability charge

The *Local Government Act 1993* requires Council to recover the full cost of providing the domestic waste management service.

This is achieved through the annual domestic waste management charge for each parcel of rateable land for which the service is available (refer section 496 of the Act). This mostly applies to land categorised “residential” but includes some land categorised business where the property contains a residential component and some non-rateable land with a residential component where a domestic waste service is requested. In accordance with section 518A of the Act, every dwelling in a strata lot or company titled unit is to be taken as a separate parcel and levied a separate domestic waste management annual availability charge (DWMAAC).

The form of a charge may be expressed as the number of individual units or dwellings forming part of that assessment (refer section 540 of the Act). For example, a block of units with 10 residential premises (flats, bedsits etc.) may be owned by 1 ratepayer subject to a single rates assessment but the DWMAAC charge would be for 10 dwellings, that is 10 DWMAAC’s.

Council retains the right to determine the most suitable means of providing the service particularly in terms of the bin size and type (carry bin, mobile garbage bin or bulk bin) and frequency of collection to suit particular properties and localities mindful of efficiencies and practicalities.

When calculating shared services charges, compacted bins will be recognised as having twice the volume capacity of an uncompacted bin of the same size. Single dwellings that share a waste service will attract a shared service charge.

Individual requests for amendments to annual domestic waste charges can only apply from the current financial year.

The domestic waste management service charge covers:

- The administration, collection, transport, processing and treatment of residential waste and recycling (including general waste, recycling, organics and bulky waste)
- Residential education programs and recycling drop-off services
- The landfill tipping fee and the NSW Government landfill levy

The service availability charges are described by the general waste bin (red bin) capacity available to the land as follows:

Single Service Charges

Description	Charge per residual waste bin	Estimated yield
Minimum domestic waste charge (bins smaller than 120L) collected once weekly	\$323	\$870,808
Domestic waste charge (120L bin) collected once weekly	\$491	\$9,551,423

Large domestic waste charge (between 161 – 240L garbage waste per dwelling per week), 2 x weekly collections	\$814	\$2,490,026
Large domestic waste charge (between 161 – 240L garbage waste per dwelling per week), 3 x weekly collections	\$879	\$1,923,252
Extra large domestic waste charge (>240L garbage waste per dwelling per week), 1 x weekly collection	\$987	\$42,441
Extra large domestic waste charge (>240L garbage waste per dwelling per week), 2 x weekly collections	\$1,031	\$902,125
Extra large domestic waste charge (>240L garbage waste per dwelling per week), 3 x weekly collections	\$1,075	\$1,730,750
Domestic waste charge, 7 day service area	\$524	\$5,084,896

Total estimated domestic waste yield \$63.4 million before applying pensioner rebates.

Fees and charges

Pricing methodology

Council will charge a range of fees in 2023/24, as detailed within the Schedule of Fees and Charges section of this plan.

The legislative basis for these fees may be found in Section 608 of the *Local Government Act 1993*, which provides that council may charge and recover an approved fee for any service it provides, including the following:

- supplying a service, product or commodity
- giving information
- providing a service in connection with the exercise of Council’s regulatory functions, including receiving an application for approval, granting an approval, making an inspection and issuing a certificate; and
- allowing admission to any building or enclosure.

Under the principle of “user pays”, fees are introduced to offset the cost of service provision, or in the case of commercial activities, to realise a reasonable rate of return on assets employed by Council, in order to support the provision of services and to alleviate the burden that would otherwise be unfairly placed upon ratepayers.

Council has given due consideration to the following factors in determining the appropriate price for each fee:

- the cost of providing the service
- whether the goods or service are supplied under a commercial basis
- the importance of the service to the community
- the capacity of the user to pay
- the impact of the activity on public amenity
- competitive market prices; and
- prices dictated by legislation.

Council discloses its pricing policy by showing a pricing code against each individual fee within the Schedule of Fees and Charges, as:

Market – council provides a good or service in a competitive environment

Full cost – council intends to fully recover the direct and indirect cost of provision, plus any community cost

Partial cost – council intends to partially recover the costs of provision

Legislative – prices are dictated by legislation

Zero – council absorbs the full cost of delivery

Security deposit – refundable deposit against possible damage to council property.

All fees are quoted in “GST Inclusive” terms, as this is the relevant price to the customer. However it should be recognised that, within the Schedule of Fees and Charges, there are many fees that do not attract GST. These fees have either been specifically exempted by the GST legislation or have been included within the Division 81 determination as the Australian government has deemed that the customer does not actually receive a taxable supply in consideration for the fee. The latter excludes many fees for regulatory services that are not provided within a competitive environment, and other forms of information that are provided on a non-commercial basis.

In accordance with the Office of Local Government’s guidelines on competitive neutrality, council has identified its Category 1 business (those with a turnover exceeding \$2 million) as parking stations. This business sets prices in line with market conditions and its results are disclosed, including tax equivalent payments and return on capital, in council’s Annual Report.

Waiving, discounting or reducing fees

Section 610E of the *Local Government Act 1993* allows council to waive payment of or reduce a fee in a particular case, if it is satisfied that the case falls within a category of hardship or any other category that council has determined it may consider in waiving payment, or reducing a fee.

Council has determined the following categories:

Hardship – where there is evidence that the payment of the fee or charge will impose unreasonable financial hardship on the

applicant(s), given their particular circumstances

Charity – where the applicant is a registered charity and the fee is for a service that will enable the provision of charitable services to the City of Sydney community

Not for profit – where the following conditions all apply:

- the applicant is an organisation that holds “not for profit” status; and
- the fee is for a service that will enable the achievement of the applicant’s objectives and betterment for the City of Sydney community; and
- the payment of standard fees or charges would cause financial hardship for the applicant.

Commercial – where Council, or its contractor, operates a service and reduction of the fee is required to compete in the market

Non-provision of service – where Council is unable to provide a service or venue that has been previously agreed upon and an appropriate discount, fee waiver, refund or substitution is required as compensation

Filming related activities – when a production is completed within the local government area, if undertaken by an educational institution for a non-commercial purpose, or by a registered charity or not-for-profit organisation and where the primary purpose is for improvement/benefit to the City of Sydney community, or where the production’s primary purpose is to highlight the City as a tourist destination

Aquatic, leisure and recreation centre special events – where Council, or its contractor, operates an aquatic, leisure or recreation centre and a reduction of fees is offered for community events, open days or other special or promotional events

Covid-19 recovery – in response to the Covid-19 pandemic as it evolves, where it is considered appropriate to facilitate recovery or revitalisation activities related to the Covid-19 pandemic.

Venue hire, and insurance fees will be waived upon application under this category for community hire of community spaces, where a group resides in or provides services largely to communities in the City of Sydney. This

includes incorporated associations and unincorporated associations whose membership base and purpose is within the City of Sydney Local Government Area. Government agencies, political parties, and groups who do not reflect the Inclusion and Equity principles in the City of Sydney’s Community Strategic Plan and other City of Sydney plans such as our Reconciliation Action Plan and Inclusion (Disability) Plan are ineligible for this fee waiver.

Grants and sponsorships – where fee waiver or reduction form part of the financial assistance under an approved grant or sponsorship made under the Grants and Sponsorship Policy and in accordance with the terms of any agreement executed in accordance with that policy.

The following principles will be considered when applying any reduction or waiver of a fee or charge:

- compliance with statutory requirements
- fairness and consistency
- integrity
- equity and transparency
- commercial imperatives.

Some fees or services are prescribed by legislation or are regulatory in nature and a fee waiver or reduction is not available in connection with those fees

Council will directly, or through delegated authority, assess and make determinations on requests for reduction or waiver of fees in accordance with these principles.

On 21 November 2022, Council resolved to waive rental and other fees for the use of footway and roadway areas for outdoor dining until 30 June 2025.

These fees are shown as a zero fee in the Schedule of Fees and Charges attached to the Statement of Revenue Policy. Council anticipates reintroducing these fees in future years. Had these fees not been waived, the fees that would have applied are summarised in the tables below.

PUBLIC DOMAIN CHARGES

DEVELOPMENT SITES / S138 ROADS ACT APPROVALS

Note: Approval may be under a DA consent, or a Section 138

Roads Act 1993 application.

Note: bonds may be retained in full by the City until all public domain construction and rectification works are completed to City standards and the required documentation is provided. A minimum of 10 % of the bond amount may be retained for the duration of the specified defects liability period.

Public Domain Works Bond

Applicable when works are constructed in the public domain (e.g.: for approved Public Domain Plans) and calculated on the total area (m²) and/or lineal metres (lm) of public domain works for each of the proposed materials listed below.

A minimum area of 1 m² and/or a minimum length of 1 lm apply. The Bond may also include and be held against potential damage to the public domain that may arise during the works in lieu of a separate Public Domain Damage Bond, to allow release of a separate Public Domain Damage Bond.

Public Domain Damage Bond

Applicable to all public domain frontages (including footpaths and roadway) where the frontages may be damaged during the development works. The Bond is calculated on the total area (m²) of public domain frontage plus 2m for each adjoining property, multiplied by the corresponding rate for the existing footpath and roadway surface treatment, as listed below. A minimum area of 1 m² applies. Note: a Kerb and Gutter Damage Bond may also apply, as listed below.

1. To aid sustainability, the City encourages the preservation of existing kerbstones/pavers wherever possible.
2. Cracked and sawcut kerbstones/pavers are not reusable. Full replacement for all non-reusable kerbstones/pavers will be added to the permanent restoration to ensure the pre-road opening laid condition can be restored.
3. Reusable kerbstones/pavers must be returned in a clean state (fee of adhesive and/or mortar) to be accepted for re-use, to a designated storage location, at the instruction of the City's Restorations Coordinator.
4. A City Delivery Record of Reusable Kerbstones/Pavers (Road Opening Permit details plus reusable kerbstone/paver type and quantity in lm) is required to avoid the cost of replacement kerbstones/pavers being added to the permanent restoration charges.
5. Kerbstones/pavers may only be returned to the designated City storage location during business hours and following prior arrangement.
6. The City cannot guarantee availability of replacement kerbstones/pavers. Supply of replacement kerbstones/pavers may require research and sourcing from commercial suppliers, at the applicant's cost.
7. Where exact matching kerbstones/pavers are no longer available, the closest match alternative kerbstone/paver available will be substituted and, if due to size, texture or colour variations, the restoration may require replacement of a larger area than the initially measured permanent restoration, at the applicant's cost.

Introduction

The City of Sydney offers several landmark venues for hire, for corporate functions, wedding receptions, live performances, exhibitions, film shoots and other events.

These landmark venues are:

Sydney Town Hall

- Centennial Hall
- Lower Town Hall
- Ancillary venues

Customs House

- Barnet Long Room

Paddington Town Hall

- Stapleton Hall

These venues are managed on a commercial basis by the City's Venue Management business unit. This document outlines the fees and charges for these landmark venues.

Figure 1. Centennial Hall, Sydney Town Hall – Photo by Paul Patterson / City of Sydney

Overview

The fees and charges for these landmark venues are categorised as follows:

- Venue hire
- Technical services
- Personnel, and
- Miscellaneous.

Venue hire fees are the fees applicable for hiring the venue for a period. These fees are calculated on an hourly rate, subject to a minimum number of hours per event type.

Technical services charges are charges for the hiring of audio and visual equipment. They are most commonly charged on a per item per day basis. However, Venue Management does offer several packages tailored to different types of events.

Personnel charges are charges for technical and event support staffing, to facilitate an event.

Miscellaneous charges relate to ancillary services which may be required to facilitate an event, including building management, sub-hiring, communications technology, and waste removal.

Please note the following in relation to pricing:

- Pricing in this document is valid from 1 July 2023 until 30 June 2024.
- All prices quoted include GST, unless stated otherwise.
- The basis of pricing is market rates, unless stated otherwise.

Hirer categories

The City recognises 2 customer/hirer categories in relation to the hire of landmark venues, as follows:

Category 1 – For profit organisation / individual

- Any organisation (including federal / state governments) that operate their business with the purpose of generating revenue, and whose event may or may not contribute to that goal of revenue generation.
- A group or individual who, although their event has no revenue generation purpose, is holding a private activity (e.g. wedding, reception, dinner, meeting, cocktail party, etc).

Category 2 – Not-for-profit organisation

- Any organisation that does not operate to derive any profit, personal gain or benefits from its operation and whose purpose is to benefit the community through its activities.
- This includes charities and community organisations, both of which may aim to raise funds of which are spent on benefitting the wider community.
- To be considered as a Category 2 customer/hirer, the organisation must provide the City with a copy of their Letter of Incorporation or evidence of not-for-profit status.

Venue hire rates

The Venue Management unit will negotiate a venue hire rate for landmark venues with customers, based on the nature and the requirements of the booking.

The factors which may be considered by Venue Management, when negotiating a venue hire rate are outlined below.

Subsidised rates

- Subsidised rates (for venue hire only) may be available to registered not-for-profit and charitable organisations, and to public schools based in the local government area.
- Eligible customers may receive a discount of up to 50% on venue hire charges.
- Subsidised rates are not applicable to other fees and charges related to the booking (such as equipment hire, personnel and miscellaneous charges).
- To be eligible for subsidised rates, the hirer must be a registered not-for-profit organisation at the time of signing their event contract. Subsidised rates will not be backdated or applied retrospectively.
- Subsidised rates may be offered in conjunction with other promotions or seasonal pricing. This will be at the discretion of the City and subject to relevant terms and conditions.

Seasonal pricing

- Seasonal pricing / rate adjustments may apply.
- Where seasonal rates are applied, the base rate advertised below may increase or decrease accordingly.
- Seasonal rates may be applied to all or part of the booking period, or to individual days, at the discretion of the City.

Bundled / all-inclusive / package rates

- The City may, where appropriate, negotiate a bundled / all-inclusive / package rate, which incorporates charges for several different services and fees.
- This rate may be charged on a per person or per hour basis, or as a lump sum amount, or another applicable basis.
- This rate may include charges for third party suppliers required to facilitate the event and may include commissions or mark-ups, as appropriate.

Exhibitions

- Standard rates, including a total minimum venue hire charge, apply to exhibitions with a duration of 14 days or less.
- Fees and charges for exhibitions with a duration of 15 days or more are subject to negotiation.

Multiple day/long duration events

- The venue hire rate for multiple day events (of any type, excluding exhibitions) of 3 or more days are subject to negotiation.
- The venue hire rate for events that are of a long duration (15 days or more, excluding exhibitions), and occupy the majority of spaces of a single building (ie: Sydney Town Hall), are subject to negotiation.

Promotions

- The City may, from time to time as appropriate, implement and run promotional activities.
- These promotional activities may include, but not be limited to, offering booking incentives, discounts, and value-add incentives.
- Where the City determines to implement and run such promotional activities, the rate will be determined by the City as it sees fit, and in line with market conditions.

Performing Arts technical services rates

- The City may, from time to time, elect to support the performing arts by offering co-promotional, tiered, or seasonal rates on technical equipment and services.

These rates will only be available upon application to eligible hirers for live performance and performing arts events.

Support for Grant Recipients

- Not-for-Profit organisations awarded a venue hire support grant from the City (either in cash or value-in-kind) to be used towards a landmark venue hire booking, will be entitled to a 25% reduction on their technical equipment hire fees.

Civic Spaces, Parks and Sporting Fields

Introduction

The City of Sydney's parks and open spaces are amongst the community's most highly valued assets, providing for the diverse recreational needs of our communities. Our park and open space network encompass approximately 212ha throughout the local government area, providing both active and passive places for the community's use and enjoyment.

There are over 400 parks and open spaces of various sizes, from pocket parks to extensive regional parklands, as well as civic spaces. They are broadly categorised, as follows:

Civic spaces are formal public spaces, usually in an urban setting. Civic spaces include squares, plazas and malls, or spaces associated with the forecourt of a building. These spaces are usually hard surfaced, but may accommodate passive recreation, depending on their size.

Iconic parks are parks that are of cultural and historical significance, or of a significant size or prominent location. These parks have high visitation rates from surrounding suburbs, the whole of the City of Sydney or broader than the City, including tourists.

Neighbourhood parks are larger parks within villages and suburbs that have high visitation rates and have greater levels of amenity and infrastructure. These parks usually incorporate areas of turf, trees and garden beds. Depending on their size, these parks can support a variety of functions, including unstructured recreation and organised sport. Neighbourhood parks may also include facilities such as sports fields, with playgrounds and toilets.

Pocket parks are smaller parks and reserves, of less than 2,000m² in area, some of which may be built on street closures. These parks provide informal recreational areas, serving surrounding residents, and usually only accommodate a single function, such as usage as a playground. Some limited facilities may be provided.

Sports fields are areas of landscaped turf and synthetic surfaces purposed for club and professional sport, both games and training.

This document lists the individual parks, sports fields and open spaces within the City of Sydney local government area.

City of Sydney Aquatic and Leisure Centres

Overview

The City of Sydney manages six (6) aquatic and leisure centres across its local government area, providing for the diverse health and fitness needs of our communities, and contributing to their quality of life.

The City of Sydney's six (6) aquatic and leisure centres are:

Centres	Type of Facility	Suburb
Andrew (Boy) Charlton Pool	Outdoor	Sydney
Cook + Phillip Park Aquatic and Fitness Centre	Indoor	Sydney
Ian Thorpe Aquatic Centre	Indoor	Ultimo
Prince Alfred Park Pool	Outdoor	Surry Hills
Victoria Park Pool	Outdoor	Camperdown
Gunyama Park Aquatic and Recreation Centre	Indoor and outdoor	Zetland

Customers

Adult: any person sixteen (16) years and over, who does not qualify for any of the concession categories as outlined below.

Child: three (3) – sixteen (16) years; applies to swimming only.

Children under 3 years: free entry.

Companion Card NSW holders: free entry.

Concession: children under 16, full time students, holders of Commonwealth health care cards, pensioner concession cards, seniors health cards, ImmiCards, ex-carer allowance (child) health care cards, foster child health care cards, low-income health care cards, NSW half-fare entitlement card for job seekers, Department of Veterans Affairs concession cards, or people with proof of an approved Commonwealth concession card.

Concession excludes seniors card holders; verification of concession status may be required.

Spectator all ages:

A person who is accompanying / supervising a child who is participating in a structured program such as learn to swim, squads, school carnival and parties etc. This category also includes the siblings of that child, who may be required to accompany the spectating adult but they themselves are not participating in the program and/or have no intention of using the facilities (i.e.: entering the water).

The City of Sydney and its operators implement supervision requirements which are consistent with the Royal Life Saving Society of Australia Guidelines for Safe Pool Operations and the 'Keep Watch at Public Pools' Safety Program.

- Supervising adult: an adult sixteen (16) years and over accompanying a child under ten (10) years of age, the supervising adult must pay the adult entry fee. This category excludes supervising adults of children attending the Learn to Swim program.
- A child five (5) years and under must be supervised by an adult sixteen (16) years and over, who is always expected to accompany the child in the water and be within arm's reach. Therefore, the adult entry fee applies. Children under three (3) years enter for free. Children three (3) and over are charged the child entry fee.
- A child under ten (10) years and over five (5) years must be accompanied by an adult sixteen (16) years and over. Therefore, the adult and child entry fees apply.

Exercise Physiology Services

Exercise Physiology provides patrons with information and advice about exercise to help them manage and prevent injuries and chronic conditions.

Exercise Physiology services can include the use of the swimming pools and fitness facilities whilst under the guidance of the exercise physiologist. For personal access to these facilities at other times a membership or entry fee is required.

Department of Veterans Affairs

Gold or White Card covers Exercise Physiology treatment that is clinically necessary

- For all conditions, if the patient holds a Veteran Gold Card
- For specific, accepted conditions only, if the patient hold a Veteran White Card

Appointment options include one-on-one Individual session of initial and subsequent consultations for sessions of 30 minutes or group session for two or more participants up to a maximum of twelve.

For more information, refer to:

<https://www.dva.gov.au/health-and-treatment/veteran-healthcare-cards> for terms and conditions

Workcover

A service provided to an injured worker on a one-to-one basis for a maximum one-hour (1) duration session. The participant must be referred by medical practitioner.

National Disability Insurance Scheme (NDIS)

NDIS - Exercise physiologist: a one-hour (1) duration individualised session with NDIS clients to develop programs to improve their physical wellbeing.

NDIS - Personal training: a one-hour (1) duration supervised session to implement programs developed by a doctor or exercise physiologist. Participants can be self-managed, or plan managed.

Exercise Physiologist - Private Session via Care Plans

An initial one-hour (1) duration exercise physiology session with follow up sessions of a duration determined by the client's needs/goals are often provided to a person who has a chronic condition and complex care needs. These sessions are usually provided under the Chronic Disease Management (CDM) Plans and Team Care Arrangements, also referred to as "care plans". These plans were previously known as Enhanced Primary Care (EPC) plans, a term which is now obsolete.

Exercise Physiologist - Private Session via Private Health Insurance

Private sessions are also available to clients who are seeking an exercise physiologist of their own accord for treatment of existing injuries, and not through a care plan. Patrons are advised and can be subsidised through private health insurance providers. Patrons in this situation are encouraged to contact their health cover provider for more information relating to their access to exercise physiology as part of their cover.

Chronic Disease GP Management Plans and Team Care Arrangements Program

This program replaces the Enhanced Primary Care (EPC) Program. The Chronic Disease Management (CDM) Plans and Team Care Arrangements allow for access to Medicare-subsidised services provided by allied health professionals, as referred by a general practitioner for the treatment of chronic or terminal conditions. A referral is required.

Patrons of this program can receive up to 5 individual one-hour sessions under the supervision of an exercise physiologist each calendar year. Patients with type 2 diabetes can also access additional group services for exercise physiology.

For more information regarding Chronic Disease Management (CDM) Plans and Team Care Arrangements see [Chronic Disease Management Patient Information](#).
