Introduction

The City of Sydney has 17 grants and sponsorship programs to support initiatives and projects that build the social, cultural, environmental and economic life of our city. These provide financial and in-kind support for a diverse range of activities.

Our grants and sponsorship programs are highly competitive, so please read these guidelines before applying.

We also hold information sessions during the year. We encourage you to come to an information session or speak with our staff before applying.

The grants and sponsorship policy provides the framework and objectives for each program. In the event of any inconsistency between the policy and these guidelines, the policy will prevail.

For more information about our grants and sponsorships cityofsydney.nsw.gov.au/grants-sponsorships.

You can also email cityconcierge@cityofsydney.nsw.gov.au or call 02 9265 9333.

Grants management process

Application

Applications for grants and sponsorship are completed online. Application forms are available once the grant round opens. See cityofsydney.nsw.gov.au/grants-sponsorships.

For programs open throughout the year, online forms are available on request after you discuss your project concept with our grants staff.

Applications must be submitted by the due date at 5pm AEST (or AEDT if applicable).

We do not accept submissions after the cut-off time and date unless there are exceptional circumstances as determined by our grants manager and supported by appropriate documentation.

You are responsible for choosing the most appropriate program to apply for. Your application must be well-developed, address all the criteria and answer all compliance questions. It must include documentary evidence and support as required.

We encourage you to speak to us before applying.

After we receive your application, we may advise you if your project or program is better suited to a different grant or sponsorship. If this is the case, we'll discuss this with you and provide you with an appropriate timeframe to complete a new application.

Assessment

All applications are assessed by at least three relevant City of Sydney staff members. Some

applications may be assessed by external parties with professional expertise that benefit the assessment process.

Our grants and sponsorship programs are highly competitive. Even though an application may meet the criteria it may not be competitive against other applications. If your application is unsuccessful, you can seek feedback from our staff.

Approval

Only Council has authority to approve grants and sponsorship or other financial assistance.

In limited circumstances, the CEO can approve certain grants and sponsorship programs consistent with our policies, including the grants and sponsorship policy, selection criteria and monetary limitations.

Any waiver or reduction of fees or charges is done in line with our revenue policy by staff with delegated authority.

Approval of a grant or sponsorship does not imply that the City of Sydney has given any other consent.

Applicants should note that many projects including festivals and events require approvals and consents from the City of Sydney (such as development applications), NSW Police and other state government agencies. If the necessary approvals cannot be obtained, we may revoke the grant or sponsorship.

Notification process

We will notify you in writing of the outcome of your application within 10 days after approval.

Details of the status of approval can also be found in the Council meeting minutes, which are listed on the website within the week of Council approval.

Matched funding

We value and recognise the importance of applicant cash and in-kind contributions. Applicants that demonstrate a commitment to the project through either cash or volunteer support are considered favourably.

We may match cash with these types of contributions:

- in-kind contributions such as donated supplies, materials or services
- volunteering time such as labour, set up and pack down, and meeting time to identify, plan and implement projects
- direct cash input to the project through donations or income generated
- funds raised through crowd funding platforms.

Details on the programs that require cash and in-kind matched funding are in the description for each program.

We accept applications for projects that seek to raise their cash contribution using crowdfunding platforms. You have three months to raise the funds after you receive our grant approval notice. A funding agreement will only be finalised after the funds have been raised. If the funds are not raised within three months, the grant will lapse and we will reallocate funds to the grants and sponsorship budget.

Funding agreements and negotiation

We finalise funding agreements with successful applicants within five weeks of Council approval. You must enter into a funding agreement with us before funds are released and before the project can start.

We will negotiate this agreement with you. The agreement will include:

- a description of the project for which funding is being provided
- the amount of cash funding to be received and the details of any value-in-kind support
- specific performance criteria for each project – these should be provided when applying and can be negotiated when finalising the agreement
- sponsorship benefits you will provide the City in return for the sponsorship
- a payment schedule
- the deadline for submission of the project acquittal.

If you fail to finalise the contract within one month of receiving the draft contract from us, we reserve the right to withdraw the grant or sponsorship.

Payments arrangements

Once contracts are finalised, payments are processed with a standard 30-day turnaround time from the invoice date. Payments are not processed before the timeframes stipulated in the funding agreement. If you need the funds sooner due to project deliverables, please contact the grants team to enquire if an urgent payment can be made.

Reporting and monitoring

You must report on and acquit the project(s) as detailed in your funding agreement. Reports provide us with feedback on the success of the project in terms of the agreed outputs and outcomes, relevant data and any lessons learnt. You must provide detailed financial reports.

You may be asked to provide further documentation and evidence of expenses.

We may audit grant recipients.

If the grants or sponsorship is valued at more than \$20,000, we may request you provide audited financial statements on acquitting the project.

Final reports must be submitted no later than one month after the agreed completion date of the project as stated in the funding agreement unless otherwise agreed.

Evaluation and learning framework

We invite feedback at the end of each application and after the acquittal form has been completed. This helps us improve future grants and sponsorship programs and processes.

We use this feedback to:

- measure the degree to which stated outcomes are being achieved
- provide a transparent methodology and process for continuous improvement
- build evaluative capacity of City of Sydney staff and grant recipients
- inform and shape future grants and sponsorship programs.

The framework includes analysing qualitative and quantitative data within and across programs. The overall findings are shared with future grant applicants.

Legislative framework

The grants and sponsorships program is governed by the legislative framework below.

The Local Government Act 1993, s356, states:

1. A council may, in accordance with a resolution of the council, contribute money or otherwise grant financial assistance to persons for the purpose of exercising its functions.
2. A proposed applicant who acts for private gain is not ineligible to be granted financial assistance, but must not receive any benefit under this section until at least 28 days' public notice of the council's proposal to pass the necessary resolution has been given.
3. However, public notice is not required if:
 - a. the financial assistance is part of a specific program, and
 - b. the program's details have been included in the council's draft management plan for the year in which the financial assistance is proposed to be given, and
 - c. the program's proposed budget for that year does not exceed 5 per cent of the council's proposed income from the ordinary rates levied for that year, and

- d. the program applies uniformly to all persons within the council's area or to a significant group of persons within the area.
- e. public notice is also not required if the financial assistance is part of a program of graffiti removal work.

More information

For more information see cityofsydney.nsw.gov.au/grants-sponsorships, email cityconcierge@cityofsydney.nsw.gov.au or call 02 9265 9333.

We hold grants and sponsorship information sessions during the year. We encourage you to attend one of these and speak with our staff before applying.

Grantmaking principles and ethics

We use the principles below when providing financial and value-in-kind assistance.

Providing outcomes that align with Sustainable Sydney 2030

All grant and sponsorship program outcomes should align with Sustainable Sydney 2030, and City of Sydney strategies such as the economic development strategy, Open Sydney strategy and action plan, cultural policy and action plan, social sustainability policy, environmental strategy and action plan and Eora Journey economic development. Applications that meet multiple areas of our strategies will be favourably considered.

Partnership

We build and maintain constructive relationships based on mutual respect and transparency with applicants and recipients. We value the resources and skills that individuals, communities and businesses bring to the grant partnership. Applicants that demonstrate a commitment to the project are considered favourably. Resources can be in the form of cash, volunteer time, donated materials, other grant sources, and funds raised through crowd funding platforms. The City partners with a variety of types of organisations to deliver on its objectives. This includes funding for-profit organisations who show they are best placed to provide public benefit and meet the relevant grant program outcomes.

Diversity and access

Sydney is a diverse community comprising of people from 200 nationalities who form bonds around identity, interests and place. We encourage applications from across the community, including people from diverse ethnic and cultural groups, people of all ages, people of all sexual orientations and gender identities and people with disability. You can find information at our community centres and venues, libraries, and city spaces, and on our website and social media pages. Our online applications comply with accessibility requirements WCAG 2.0 AA. For more information on accessibility see australia.gov.au/accessibility.

Value for money

We seek to obtain the best mix of grants to meet the needs of the community and business and maximise outcomes for the local government area. We support projects that represent good value for the level of cash or value-in-kind support requested and do not duplicate existing services or grants provided by other organisations. Through efficient grant management processes, we seek to minimise administration costs for the City of Sydney and for grant applicants and recipients.

Good governance

We commit to decision making in the public interest, and effective and efficient grant management.

Application forms and acquittal requirements depend on the size of the grant and its expected outcomes.

As part of our commitment to continuous improvement, we ensure there are opportunities for feedback on our grant processes. We support you evaluating your projects in line with our evaluation and learning framework.

Transparency

We ensure our grant processes are transparent and fair. Applications are assessed objectively against the assessment criteria listed in these guidelines. All conflicts of interests are declared and addressed as part of this process.

Child protection

Where an application involves working with children and young people, you must attach a copy of your organisation's child protection policy to the application. If you do not have a formal child protection policy, you must outline how you intend to comply with child protection and working with children legislation.

Eora journey

We are committed to enhancing and supporting the economic prosperity of Aboriginal and Torres Strait Islander peoples and organisations through our grants program.

Organisations applying for grants are encouraged to engage Aboriginal and Torres Strait Islander businesses into all aspects of their supply chain in the planning, delivery and implementation of their event or production.

Climate emergency

The City of Sydney has declared a climate emergency. Our council has adopted a climate emergency response plan that outlines key actions to reduce environmental impact.

Organisations are to ensure that any events or programs funded through a City of Sydney grant are delivered in an environmentally sustainable way. Please see our [sustainable event guidelines](#)

cityofsydney.nsw.gov.au/guides/sustainable-event-guidelines and [guidelines for single use items](https://cityofsydney.nsw.gov.au/guides/reducing-waste-events-services-single-use-items) cityofsydney.nsw.gov.au/guides/reducing-waste-events-services-single-use-items for information on how to reduce waste from events and services.

Organisations are also encouraged to reduce the carbon impact of their grant funded project and at a minimum purchase an appropriate amount of **GreenPower** to offset electricity consumed by their project.

Community recovery plan

The City of Sydney recently adopted the community recovery plan, a strategic plan for economic and social recovery from the Covid-19 pandemic. This plan gives direction to how we will work in partnership with our communities, businesses, the state government and other local governments to lay the groundwork for and support economic and social recovery in our city. The grants and sponsorship guidelines reflect the community recovery plan in each program's funding priorities.

Ethics framework

The City of Sydney does not support any activities or entities that unnecessarily:

- pollute land, air or water
- destroy or waste non-recurring resources
- market, promote or advertise products or services in a misleading or deceitful manner
- produce, promote or distribute products or services likely to be harmful to the community
- acquire land or commodities primarily for speculative gain
- create, encourage, or perpetuate militarism or engage in the manufacture of armaments
- entice people into financial over-commitment
- exploit people through the payment of below-award wages or poor working conditions
- unlawfully discriminate, or encourage unlawful discriminatory behaviour, including discrimination, on the basis of race, religion or sex in employment, marketing or advertising practices
- contribute to the inhibition of human rights generally.

Cultural and creative grants and sponsorship

Overview

This program supports projects and initiatives that provide opportunities for creative participation, enhance creativity in the public domain and strengthen the sustainability and capacity of our cultural and creative industries.

Key dates

This program has one round this year. For relevant dates see [the timing section](#) and cityofsydney.nsw.gov.au/grants-sponsorships.

Funding available

Funding is available in amounts from \$5,000 to \$50,000, for annual project funding or multi-year project funding (up to three years). Value-in-kind in the form of street banners and venue hire fee waiver is available.

For-profit organisations requesting support must match the funding requested with cash. Value-in-kind is not considered a match contribution.

Recipients may need to provide sponsorship benefits back to the City of Sydney community in return for

funding. These benefits are negotiated case-by-case and can be up to the value of their funding provided.

For applications of \$20,000 and over, please contact our grants team on 02 9265 9333 to discuss your project and its alignment with these guidelines.

Expected program outcomes

Initiatives and projects can contribute to one or more of these outcomes:

- increased visibility and recognition of Aboriginal and Torres Strait Islander cultures
- public spaces activated with cultural and creative initiatives
- opportunities for creative practitioners to gain economic benefit or professional development
- opportunities for audiences, including the city's residents, workers and visitors, to engage with creativity, self-expression, learning and cultural participation
- increased visibility and understanding of the history, stories and character of the city and its villages through creative projects
- increased opportunities for access to live music and performance activity.

Funding priorities

Funding will support projects that contribute to achieving the objectives of the City's Cultural Policy and Action Plan 2014-2024. This includes:

- connection with Aboriginal and Torres Strait Islander identities and cultures
- increased participation in cultural and creative activities by
 - Aboriginal and Torres Strait Islander people
 - people with a disability
 - people from culturally and linguistically diverse backgrounds
- development of new work which has a clear connection to our place, histories and communities, as well as benefits to Sydney's artists or communities.

Assessment criteria

Applications are assessed against the funding priorities and expected program outcomes. The assessment panel will also consider:

- demonstrated need for the project and proposed outcomes
- quality of the project and creative personnel involved
- evidence of partnerships with other government agencies, business or community organisations
- capacity of the individual or organisation and its management
- evidence of a realistic budget with appropriate resourcing including payment of creative personnel where applicable (Note – We support the paying of creative personnel where possible and recognise that underpayment and non-payment affects incomes and career sustainability)
- other required supporting documentation ([see supporting documentation](#)).

Eligibility

To be eligible for funding, an applicant must offer a project within the local government area, or primarily

for the local community with a minimum of 75 per cent participants from the local government area.

These individuals and organisations can apply:

- not-for-profit organisations
- for-profit organisations
- sole traders, individuals or unincorporated community groups auspiced by a not-for-profit or for-profit that is eligible to apply in their own right.

If you work with an auspicing organisation, we encourage you to choose one that is relevant to the sector and that can support the development of the proposal.

For more information on eligibility see the [eligibility section](#).

Not eligible for funding

Funding is not available for:

- applications from for-profit organisations that do not provide evidence of matched cash funding for the project
- projects or phases of projects or programs that have already occurred or occur beyond the timeframes relevant to each round (for further information see [timing](#))
- projects that directly contravene the eligibility and ethics framework or City of Sydney policies
- capital expenditure over \$5,000 (equipment up to a cost of \$5,000 may be eligible)
- projects or programs that rely on recurrent funding from the City of Sydney
- permanent staffing costs or ongoing operational costs
- projects considered to be a festival or event.

Festivals and events sponsorship

Overview

This program supports festivals and events that celebrate, develop and engage the city's communities. Festivals and events make an important contribution to the economy and cultural ecosystem of the city, locally and internationally. They may provide forums to share knowledge, create opportunities for active community participation and celebrate the unique social and cultural character of a village.

We provide support for festivals and events under two categories:

- artform
- village and community.

Key dates

This program has two rounds this year. For relevant dates see the timing section and cityofsydney.nsw.gov.au/grants-sponsorships.

Artform

Funding available – artform

Funding up to \$30,000 is available for a one-year program or a program of up to three years.

Funding for established or other festivals and events are negotiated on consultation.

We may, at our discretion, offer a multi-year funding sponsorship agreement based on demonstrated audience attendances, ongoing demand, the applicant's organisational and financial performance and the quality of its programs.

For-profit organisations requesting support must match the funding requested with cash. Value-in-kind is not accepted.

Commercial creative and business events sponsorship

Overview

The commercial creative and business event sponsorship provides sponsorship support for events that bring significant economic benefits to City of Sydney business communities and residents. We recognise that creative and business events contribute to Sydney's economy, cultural life and social life and establish Sydney as a lively and engaging city.

Major creative events create opportunities for community and business participation on a broad scale. A vibrant event calendar creates jobs for the city's creative workers and contributes to the development of the industry sector. It also contributes to the sustainability of the tourism, retail and hospitality sectors. This grant is for a limited number of high-impact creative events each year. Events that receive investment support from the NSW Government will be considered favourably but not exclusively.

National and international business events, including meetings, incentive travel reward programs, and conventions and exhibitions create significant tourism benefits for Sydney. They also serve to enhance Sydney's position as a global city, encourage

innovation and collaboration, trade and investment, and opportunities for the education sector. In an increasingly competitive market, we have partnered with Business Events Sydney, the organisation tasked with securing major business events for Sydney. Most of our support is dedicated to bidding for and securing major business events through this partnership.

Key dates

This sponsorship program is open all year for applications until funds are exhausted.

Funding available

This program provides sponsorship for one-off events or up to triennial sponsorship for recurring commercial creative events. The amount available for major commercial creative events is commensurate with the economic benefit derived from each event.

Value-in-kind in the form of venue hire fee waiver is supported by this program. This program does not provide value-in-kind for the waiving of street banner hire fees.

National or international business events can apply for support of up to \$20,000.

Business events include conferences, conventions, symposia, congresses, incentive group events, marketing events, special celebrations, seminars, courses, public or trade shows, product launches, exhibitions, company general meetings, corporate retreats, study tours or training programs.

As well as the tourism benefits from hosting large-scale events, these events help position Sydney as a city of ideas, creativity and innovation. They provide opportunities for showcasing local expertise, encourage debate and dialogue on local and global issues, and bring global experts to engage with local communities.

In limited circumstances, the commercial creative and business events sponsorship program provides cash grants for national and international business events that are not in partnership with Business Events Sydney. Examples include CeBIT Australia.

Applicants organising outdoor events must consider their security needs, complete and upload the [crowded places self-assessment tool](#), and review the guidance documents from Australian National Security at nationalecurity.gov.au. Depending on the outcome of the self-assessment tool, you may need to speak with NSW Police about the security needs of your event. Security costs to ensure your event is safe and accessible can be included in your budget as a request to us.

- capacity for businesses in the hospitality, retail, tourism and other event supporting sectors to benefit from and leverage event audiences
- increased number of high-quality creative and business events secured, which contribute to a vibrant Sydney event calendar.

Funding priorities

Environmental performance – ratings and assessment grant

Overview

This grant supports environmental ratings, certifications, audits and assessments for buildings. The cost of a rating or assessment can be a significant barrier for organisations and this funding seeks to mitigate this cost. Support is provided for credible industry accepted environmental performance ratings such as the National Australian Built Environment Rating System (NABERS), energy audits that conform to the AS3598 standard and residential energy/water/waste assessments. Successful applicants commit to implementing cost-effective opportunities.

Key dates

This program has two rounds this year. For relevant dates see the [timing section](#) and cityofsydney.nsw.gov.au/grants-sponsorships.

Funding available

Funding is available for improving environmental performance in the residential strata and the accommodation (hotels, hostels and serviced apartments) sectors.

Representatives from these two sectors are encouraged to apply. The amount and type of funding available depends on the sector, relevant rating and implementation stage of your proposal.

Expected program outcomes

Initiatives and projects must contribute to one or more of these outcomes:

- improved knowledge of the current environmental performance of buildings and facilities in the City of Sydney area, and of the business case for performance improvements
- improved energy and water efficiency, indoor environment quality and reduced resource waste impacts

- increased recognition and uptake of credible ratings and certification tools that benchmark environmental performance.

Funding priorities

Accommodation (hotels, hostels and serviced apartments) sectors – energy and water ratings and action plans

Year 1 NABERS, Green Star Performance or EarthCheck – up to \$10,000 for a building's first rating, including an action plan to assist the building to improve this rating.

All recipients commit to investing a minimum amount of their own funds to implement the cost-effective opportunities identified. The minimum amount invested must be half the value of the funds awarded by the City of Sydney. Year 1 ratings do not have to be publicly disclosed, although we encourage this.

Year 2 NABERS, Green Star Performance or EarthCheck – up to \$5,000 for a building's second rating, including an action plan to assist the building to improve this rating. This must be with the same rating or certification tool used in year 1.

Applicants must show evidence of having implemented the cost-effective opportunities in their first action plan and commit to publicly disclosing the rating or certification.

Accommodation (hotels, hostels and serviced apartments) sectors – energy assessments and audits

Year 1 energy assessments and audits – up to \$15,000 for energy assessments of sub-systems (such as a business case to optimise operation of heating, ventilation and air-conditioning) or Australian Standard AS3598 Level 2 audits. An accredited NABERS, Green Star Performance or EarthCheck rating/certification must be included in these projects unless there is a current rating already in place.

All supplier fee proposals must be in our [energy audit fee proposal template](#).

All energy assessment and audit reports must be in our [energy audit report template](#).

Each project will require a kick-off meeting and final presentation, with both meetings to be attended by a City of Sydney representative.

All recipients commit to investing a minimum amount of their own funds to implement the cost-effective opportunities identified. The minimum amount

invested must be equal to the value of the funds awarded by the City of Sydney.

Year 2 follow up implementation support – up to \$5,000 to help the building implement recommended energy and water conservation measures. This support cannot be used to directly pay for equipment and capital upgrades.

Applicants can use this follow-up support to engage specialist contractors to implement opportunities identified in Year 1 energy assessment or audit, or relevant and appropriate water assessment. This includes for:

- further developing business cases
- project management support
- developing technical specifications of upgrades.

Residential strata sector – performance rating and action plan

Year 1 NABERS – up to \$10,000 is available for a building's first NABERS energy and/or water rating. This must be accompanied by an action plan that will assist the building to improve this rating.

Accommodation grant

Overview

The City of Sydney's community facilities include different buildings and spaces that vary in size, location and function. Under our accommodation grants program, we lease facilities or space within facilities generally for up to 5 years at reduced rates (below market rental rates) or at no charge. We may offer some longer tenancies based on operational and community needs and public interest. Tenancies are informed by the strategic priorities reviewed and set by Council every 4 years.

The program makes these facilities available to organisations that benefit our communities and align to our strategic outcomes. It provides opportunities for these organisations to operate in facilities they could not otherwise afford to meet their organisational goals.

We recognise these contributions and services are important in creating a vibrant and sustainable city. We balance meeting our communities' needs with supporting a broad range of organisations and encouraging their financial sustainability. Tenancies are not provided in perpetuity under this program.

This program is open to not-for-profits and for-profits.
