

# Fees & Charges

## Revenue Policy

The City will charge a range of fees in 2021/22, as detailed within the attached Schedule of Proposed Fees and Charges.

The legislative basis for these fees may be found in Section 608 of the Local Government Act 1993 which provides that a council may charge and recover an approved fee for any service it provides, including the following:

- supplying a service, product or commodity;
- giving information;
- providing a service in connection with the exercise of Council’s regulatory functions, including receiving an application for approval, granting an approval, making an inspection and issuing a certificate; and
- allowing admission to any building or enclosure.

Under the principle of “user pays”, fees are introduced to offset the cost of service provision, or in the case of commercial activities, to realise a reasonable rate of return on assets employed by the City, in order to support the provision of services and to alleviate the burden that would otherwise be unfairly placed upon ratepayers.

The City has given due consideration to the following factors in determining the appropriate price for each fee:

- the cost of providing the service;
- whether the goods or service are supplied under a commercial basis;
- the importance of the service to the community;
- the capacity of the user to pay;
- the impact of the activity on public amenity;
- competitive market prices; and
- prices dictated by legislation.

Figure 22. Items being dropped off for recycling at "Recycle It Saturday" in September 2020

The City discloses its pricing policy by showing a pricing code against each individual fee within the attached Schedule of Proposed Fees and Charges, as:

<b>Market</b>	The City provides a good / service in a competitive environment
<b>Full Cost</b>	The City intends to fully recover the direct and indirect cost of provision, plus any community cost
<b>Partial Cost</b>	The City intends to partially recover the costs of provision
<b>Legislative</b>	Prices are dictated by legislation
<b>Zero</b>	The City absorbs the full cost of delivery
<b>Security Deposit</b>	Refundable deposit against possible damage to the City's property

All fees are quoted in "GST Inclusive" terms, as this is the relevant price for payment, however it should be recognised that within the Schedule there are many fees that do not attract GST. These fees have either been specifically exempted by the GST legislation or have been included within the Division 81 determination as the Federal Government has deemed that the person does not actually receive a taxable supply in consideration for the fee. The latter excludes many fees for regulatory services that are not provided within a competitive environment, and other forms of information that are provided on a non-commercial basis.

In accordance with the Office of Local Government's guidelines on competitive neutrality, the City has identified its Category 1 business (those with a turnover exceeding \$2 million) as Parking Stations. This business set prices in line with market conditions and its results are disclosed, including tax equivalent payments and return on capital, in the City's Annual Report.

## **Waiving, Discounting or Reducing Fees**

Section 610E of the Local Government Act 1993 allows the City to waive payment of or reduce a fee in a particular case if it is satisfied that the case falls within a category of hardship or any other category that the City has determined it may consider in waiving payment, or reducing a fee.

The City has determined the following categories:

**Hardship** – where there is evidence that the payment of the fee or charge will impose unreasonable financial hardship on the applicant(s) given their particular circumstances;

**Charity** – where the applicant is a registered charity and the fee is for a service that will enable the provision of charitable services to the City of Sydney community;

**Not For Profit** – where the following conditions all apply:

1. the applicant is an organisation that holds "not for profit" status; and
2. the fee is for a service that will enable the achievement of the applicant's objectives and betterment for the City of Sydney community; and
3. the payment of standard fees or charges would cause financial hardship for the applicant.

**Commercial** – where the City, or its contractor, operates a service and reduction of the fee is required to compete in the market.

**Non-Provision of Service** – where the City is unable to provide a service or venue that has been previously agreed upon and an appropriate discount, fee waiver or substitution is required as compensation.

**Filming related activities** - applicable fees and charges may be waived or reduced for productions completed within the LGA if undertaken by an educational institution for a non-commercial purpose, or by a registered charity or not-for-profit organisation where the primary purpose is for improvement/benefit to the City of Sydney community, or where the production's primary purpose is to highlight the city as a tourist destination.

**Aquatic, Leisure and Recreation Centre Special Events** - where the City, or its contractor, operates an aquatic, leisure or recreation centre and a reduction of fees is offered for community events, open days or other special or promotional events.

**Covid-19** – The City may choose to apply such a waiver or reduction, for example, in cases where a business has seen significantly reduced income as a result of Covid-19. Under this section of the Act, the City will continue to consider waiving or reducing fees in response to the Covid-19 situation as it evolves and may endorse a reduction or waiver of fees and charges to organisations.

The following principles will be considered when applying any reduction or waiver of a fee or charge:

- Compliance with statutory requirements;
- Fairness and consistency;
- Integrity;
- Equity and transparency;
- Commercial imperatives;
- Some fees or services are prescribed by legislation or are regulatory in nature and a fee waiver or reduction is not available in connection with those fees

The City will directly, or through delegated authority, assess and make determinations on requests for reduction or waiver of fees in accordance with these principles.

The City may endorse a reduction or waiver of fees and charges to organisations as part of its Grants and Sponsorships arrangements.

### **PUBLIC DOMAIN CHARGES**

#### **DEVELOPMENT SITES / S138 ROADS ACT APPROVALS**

**Note: Approval may be under a DA consent, or a S138 Roads**

#### **Act application.**

*Note: bonds may be retained in full by the City until all public domain construction and rectification works are completed to City standards and the required documentation is provided. A minimum of 10% of the bond amount may be retained for the duration of the specified defects liability period.*

#### **Public Domain Works Bond**

*Applicable when works are constructed in the public domain (e.g.: for approved Public Domain Plans) and calculated on the total area (m<sup>2</sup>) and/or lineal metres (lm) of public domain works for each of the proposed materials listed below. A minimum area of 1 m<sup>2</sup> and/or a minimum length of 1 lm apply. The bond may also include and be held against potential damage to the public domain that may arise during the works, in lieu of a separate Public Domain Damage bond, to allow release of a separate Public Domain Damage bond.*

1. To aid sustainability, the City encourages the preservation of existing kerbstones/pavers wherever possible.
2. Cracked and sawcut kerbstones/pavers are not reusable. Full replacement for all non-reusable kerbstones/pavers will be added to the permanent restoration to ensure the pre-road opening laid condition can be restored.
3. Reusable kerbstones/pavers must be returned in a clean state (fee of adhesive and/or mortar) to be accepted for re-use, to a designated storage location, at the instruction of the City's Restorations Coordinator.
4. A City Delivery Record of Reusable Kerbstones/Pavers (Road Opening Permit details plus reusable kerbstone/paver type and quantity in 1m) is required to avoid the cost of replacement kerbstones/pavers being added to the permanent restoration charges.
5. Kerbstones/pavers may only be returned to the designated City storage location during business hours and following prior arrangement.
6. The City cannot guarantee availability of replacement kerbstones/pavers. Supply of replacement kerbstones/pavers may require research and sourcing from commercial suppliers, at the applicant's cost.
7. Where exact matching kerbstones/pavers are no longer available, the closest match alternative kerbstone/paver available will be substituted and, if due to size, texture or colour variations, the restoration may require replacement of a larger area than the initially measured permanent restoration, at the applicant's cost.

*Notes for Decorative paving*

1. To aid sustainability the City encourages the preservation of existing pavers wherever possible.
2. Cracked and sawcut pavers are not reusable. Full paver replacement for all non-reusable pavers will be added to Permanent Restoration to ensure Per Road Opening laid condition can be restored.
3. Reusable Pavers must be returned to the City Stoneyard in a clean state (free of adhesive and/or mortar) to be accepted for re-use.
4. City Stoneyard Delivery Record of Reusable Pavers (Road Opening Permit details plus reusable paver type and quantity in m2) is required to avoid the cost of replacement pavers being added to the Permanent Restoration charges.
5. Pavers may only be returned to the City Stoneyard during business hours and following prior arrangement.
6. The City cannot guarantee availability of replacement pavers. Supply of replacement pavers may require research and sourcing from commercial suppliers at the Applicant's cost.
7. Where exact matching pavers are no longer available the closest match alternative paver will be substituted and due to size, texture or colour variations may require the replacement of a larger area than the initially measured permanent restoration at the Applicant's cost.

# Introduction

The City of Sydney offers a number of landmark venues for hire, for corporate functions, wedding receptions, exhibitions, film shoots and other events.

These landmark venues are:

- Sydney Town Hall
  - Centennial Hall
  - Lower Town Hall (Peace Hall)
  - Ancillary venues
- Customs House
  - Barnet Long Room
- Paddington Town Hall
  - Stapleton Hall

These venues are managed on a commercial basis by the City's Venue Management business unit.

This document outlines the fees and charges for these landmark venues.

## Overview

The fees and charges for these landmark venues are categorised as follows:

- Venue Hire
- Technical Services
- Personnel, and
- Miscellaneous

Venue Hire fees are the fees applicable for hiring the venue for a period of time. These fees are calculated on an hourly rate, subject to a minimum number of hours per event type.

Technical Services charges are charges for the hiring of audio and visual equipment. They are most commonly on a per item per day basis. However, Venue Management does offer a number of packages tailored to different types of events.

Personnel charges are charges for technical and event support staffing, to facilitate an event.

Miscellaneous charges relate to ancillary services which may be required to facilitate an event, including building management, sub-hiring, communications technology, and waste removal.

Please note the following in relation to pricing:

- Pricing in this document is valid from 1 July 2021 until 30 June 2022.
- All prices quoted include GST, unless stated otherwise.
- The basis of pricing is market rates, unless stated otherwise.

## Hirer Categories

The City recognises two customer/hirer categories in relation to the hire of landmark venues, as follows:

### **Category 1 – For Profit Organisation / Individual**

- Any organisation (including Federal / State Governments) that operate their business with the purpose of generating revenue, and whose event may or may not contribute to that goal of revenue generation
- A group or individual who, although their event has no revenue generation purpose, is holding a private activity (e.g. wedding, reception, dinner, meeting, cocktail party, etc.).

### **Category 2 - Not-For-Profit Organisation**

- Any organisation that does not operate in order to derive any profit, personal gain or benefits from its operation and whose purpose is to benefit the community through its activities.
- This includes charities and community organisations, both of which may aim to raise funds of which are spent on benefitting the wider community.
- To be considered as a Category 2 customer/hirer, the organisation must provide the City with a copy of their Letter of Incorporation or evidence of not-for-profit status.

# Venue Hire Rates

The Venue Management unit will negotiate a venue hire rate for landmark venues with customers, based on the nature and the requirements of the booking.

The factors which may be taken into account by Venue Management, when negotiating a venue hire rate are outlined below.

## Subsidised Rates

- Subsidised rates (for venue hire only) may be available to registered not-for-profit and charitable organisations, and to public schools based in the local government area.
- Eligible customers may receive a discount of up to 25% on venue hire charges
- Subsidised rates are not applicable to other fees and charges related to the booking (such as equipment hire, personnel and miscellaneous charges).
- To be eligible for subsidised rates, the hirer must be a registered not-for-profit organisation at the time of signing their event contract. Subsidised rates will not be backdated or applied retrospectively.
- Subsidised rates may be offered in conjunction with other promotions or seasonal pricing. This will be at the discretion of the City and subject to relevant terms and conditions.

## Seasonal Pricing

- Seasonal pricing / rate adjustments may apply.
- Where seasonal rates are applied, the base rate advertised below may increase or decrease accordingly.
- Seasonal rates may be applied to all or part of the booking period, or to individual days, at the discretion of the City.

## Bundled / All-Inclusive / Package Rates

- The City may, where appropriate, negotiate a bundled / all-inclusive / package rate, which incorporates charges for a number of different services and fees.
- This rate may be charged on a per person or per hour basis, or as a lump sum amount, or another applicable basis.
- This rate may include charges for third party suppliers required to facilitate the event and may include commissions or mark-ups, as appropriate.

## Multiple day events

- The rate for multiple day events (of any type, excluding exhibitions) of 3 or more days are subject to negotiation.
- Standard rates, including a total minimum venue hire charge, apply to exhibitions with a duration of 14 days or less.
- Fees and charges for exhibitions with a duration of 15 days or more are subject to negotiation.

## Promotions

- The City may, from time to time as appropriate, implement and run promotional activities.
- These promotional activities may include, but not be limited to, offering booking incentives, discounts, and value-add incentives.
- Where the City determines to implement and run such promotional activities, the rate will be determined by the City as it sees fit, and in line with market conditions.

## Performing Arts Technical Services Rates

- The City may, from time to time, elect to support the performing arts by offering co-promotional, tiered or seasonal rates on technical equipment and services.
- These rates will only be available upon application to eligible hirers for live performance and performing arts events.
