(a) Relates to persons aged between 5 and 14 years who participated in a specific physical activity for exercise, recreation and sport in the school term prior to interview

(b) For any group, term participation rate is the number of children who participated in the activity in the school term prior to interview, expressed as a percentage of the population in the same group

* Estimate has a relative standard error of between 25% and 50% and should be used with caution

** Estimate has a relative standard error greater than 50% and is considered too unreliable for general use
