## Sustainable Sydney 2030, Corporate Plan and the Operational Plan

#### The Integrated Planning and Reporting Framework

A new mandatory integrated planning and reporting framework for NSW Local Government has been introduced, as shown in the diagram below. These reforms of the Local Government Act 1993 replace the former Management Plan and Social Plan structures.

The City of Sydney's response to this statutory framework for planning and reporting is embodied in the suite of Integrated Planning documents which were adopted following public exhibition in May-June 2011. This is explained below.

#### An ongoing program to achieve a Green, Global, Connected City

*Sustainable Sydney 2030* is a long term Community Strategic Plan for the next 20 years and beyond – an ongoing commitment by the City of Sydney to achieve the vision and targets set out for a Green, Global, Connected City. Not all the projects or outcomes in *Sustainable Sydney 2030* can be delivered immediately.

The aspiration of a Green Global and Connected City, as it is defined in *Sustainable Sydney 2030*, will be achieved over time by accumulated actions and incremental and step changes in the City.

The Corporate Plan 2012-2015 is the City of Sydney's four year Delivery Program in response to the community vision and strategy expressed in *Sustainable Sydney 2030*. It identifies what we will achieve in the period (financial years) 2012-2015 and the steps we will take towards the longer term vision and objectives.

The Corporate Plan will enable the community to review and monitor our progress toward achieving the aspirations of *Sustainable Sydney 2030*. It includes indicators to measure the effect of our work on the City and the community, priority projects and programs over this timeframe with targets and key performance indicators to deliver the long-term goals and outcomes specified under each strategic direction. The financial plan for the delivery of this program is also identified.

The Operational Plan 2011/12 is derived from the Corporate Plan as an annual instalment of the program. It also includes the detailed annual budget and revenue policy, including rates and fees and charges.

#### Resourcing the plan

To support the community's objectives expressed in *Sustainable Sydney 2030*, a long-term resourcing strategy is required as part of the Integrated Planning and Reporting framework. This serves to both inform and test the aspirations expressed in the strategic plan and how Council's share of the required actions might be achieved. The deliverables and service standards built into the Corporate Plan are aligned with the Resourcing Strategy.

The *Resourcing Strategy* which accompanies the Community Strategic Plan and the Corporate Plan includes three components:

- Long Term Financial Plan
- Workforce Strategy
- Asset Management Plan

Costs for the principal activities undertaken by the City of Sydney under *Sustainable Sydney 2030*, including the continued provision of current services at the appropriate levels necessary to meet the objectives of the community strategic plan, are brought together in the Long Term Financial Plan. This provides a 10-year view of the costs and what can be funded by the City of Sydney or may be required from other sources.

The City of Sydney's workforce capacity to meet the objectives of the strategy and the broad challenges and responses to planning our future workforce are outlined in the Workforce Strategy.

The Community Asset Management Plan is the summary of the relevant strategies, condition and actions for the assets critical to our operation. More detailed Asset Management Plans for the critical asset classes will be developed in coming months.

#### How the documents relate

How the City of Sydney's Integrated Planning and Reporting documents work together is illustrated by the diagram below. All of the key plans are tested and refreshed annually and subject to a major review following the election of each new Council. The next major review will be in 2012/13.

#### Making it happen

Implementing *Sustainable Sydney 2030* requires new ways of working and thinking. The City of Sydney cannot deliver the vision alone. We are changing the way we work as an organisation, and the way we work in partnership with all our stakeholders. The City of Sydney has a critical role in implementing the program. However, it can only be achieved through partnerships for change with community, business and government.

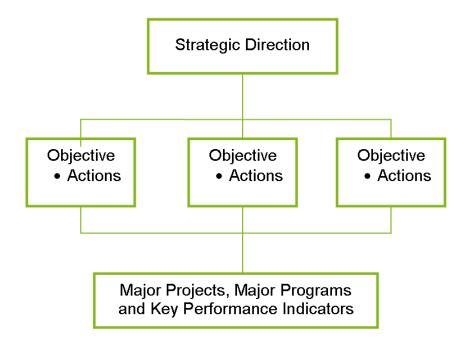

As an organisation we are working to extend our level of influence with other levels of government and major stakeholders to advocate for the policy and project ideas of *Sustainable Sydney 2030*. Only by all working together will *Sustainable Sydney 2030* be achieved.

The 10 Strategic Directions and the strategic Objectives and Actions set for each direction of *Sustainable Sydney 2030* provide the framework for this Operational Plan.

- A globally competitive and innovative City
- A leading environmental performer
- Integrated transport for a connected City
- A City for walking and cycling
- A lively and engaging city centre
- Vibrant local communities and economies
- A cultural and creative City
- Housing for a diverse population
- Sustainable development, renewal and design
- Implementation through effective governance and partnerships

This framework drives the Major Projects, Major Programs and Service Area Measures which are the principal activities of the Operational Plan.

Progress is measured against each Strategic Direction as a whole through the delivery of the identified projects and programs and the key performance indicators for the service areas.

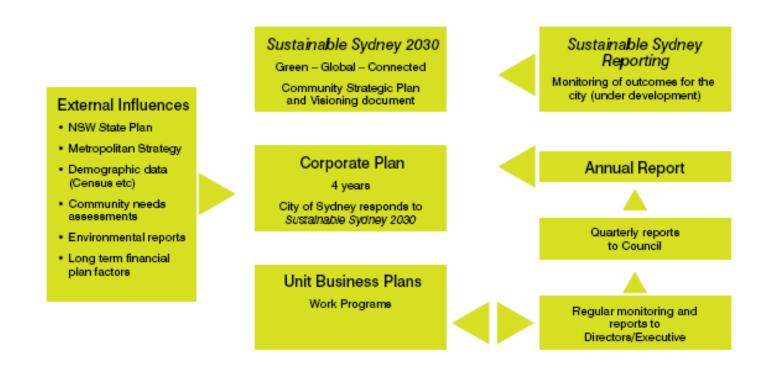

## **Monitoring Progress**

Monitoring of a sustainable Sydney requires a two tier process. First there is *Sustainable Sydney 2030*. As the Community Strategic Plan, this requires a monitoring report against broad sustainability indicators for the community and area as a whole. This is a higher level Sustainability Report that monitors everybody's contribution to a sustainable Sydney.

A major project is being undertaken to establish a comprehensive set of indicators for the City's community wellbeing across social, cultural, environmental, economic and democratic perspectives. Public and stakeholder engagement will be carried out shortly on a draft set of indicators and measures. When finalised, these Community Indicators will add an important new dimension to monitoring and reporting on Sustainable Sydney and to the evidence base for Integrated Planning and Reporting.

The Corporate Plan (the City of Sydney's 4-year Delivery Program) and annual Operational Plan are monitored through quarterly performance, financial and sustainability reports to Council, and the Annual Report. These reports provide details on our operational performance, and our progress towards the *Sustainable Sydney 2030*.

# **CITY OF SYDNEY**

## The City of Sydney's Role and Responsibilities

The City of Sydney, as a local government organisation is governed by the requirements of the Local Government Act (1993) and Regulations, the City of Sydney Act (1988) and other relevant legislative provisions and is responsible for administering its local government area.

The Local Government Act includes the Charter, which identifies the matters councils need to consider when carrying out their responsibilities. While following this Charter, in reality councils have a range of roles – as a leader, service provider, regulator, advocate, facilitator and educator. Councils have a responsibility to formulate and pursue their community's visions and ideas, provide civic leadership, deliver key services and express local ideas and concerns about important issues to other levels of Government.

There are services that all councils must provide, and some which councils can choose to make available. Many services are also provided by different state and federal agencies, such as public transport, hospitals, and education. There are new policy approaches that influence or direct Council's responses, and legislation that affects the provision of current services. Council's roles extend beyond the direct provision of services to advocating for an equitable allocation of resources from the state and federal governments, and demonstrating, as a leader, its journey towards a more sustainable City.

In following the directions of *Sustainable Sydney 2030* and striving to achieve its objectives, there are limits to what Council alone can control or even influence. As indicated by the diagram below, however, the City of Sydney like *Sustainable Sydney 2030* itself is concerned with the full range of issues which affect the wellbeing of the City and its communities.

#### CONTROL

Core business, statutory responsibilities, service provision. Council facilities and services, buildings and other assets.

Direct decision-making and action is possible (and necessary).

#### INFLUENCE

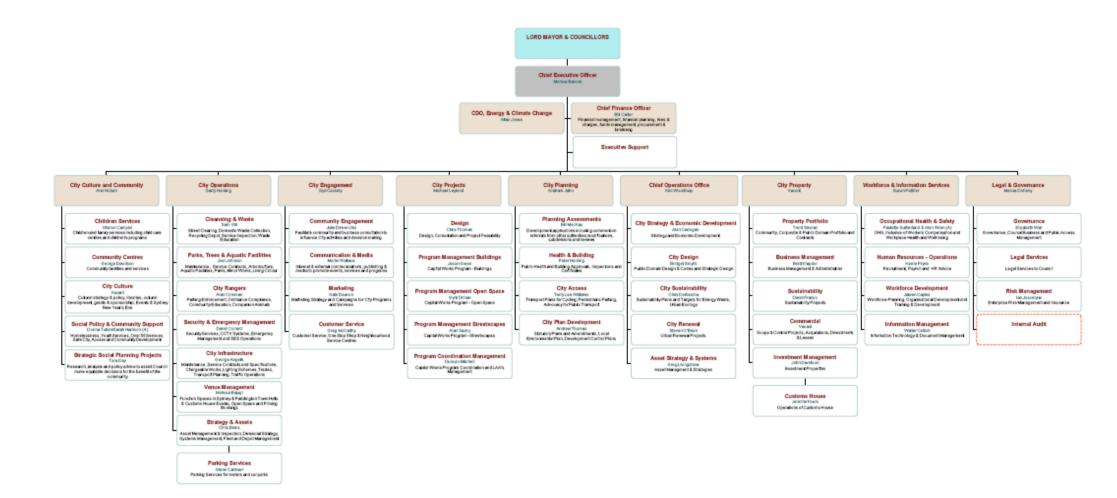

Areas of partial or shared responsibility or influence

Advocacy, lobbying, education and communication are possible. Action may be possible in collaboration with other organisations/levels a of government. Wide range of issues of importance to the community

CONCERN

Awareness/understanding important. Incorporated into strategic vision (e.g. SS2030). Possible educative, advocacy, lobbying roles.

### Organisational Purpose, Values and Direction

The City of Sydney has recently undertaken a major organisational development project to define and articulate the organisation's Purpose, Values and Direction for the coming years, under the overall imperative to deliver *Sustainable Sydney 2030* 

The outcomes of this exercise are shown in the diagram below:

Each Division and Business Unit is required to build the Purpose, Values and Direction into its own business plans and workforce planning priorities.

These organisational directions are aligned with the Workforce Strategy for 2012-2015, which is now part of our Integrated Planning and Reporting framework (explained in more detail above). This will help drive the further development of the organisation and its workforce and workplace in the term of this Operational Plan.

## STRATEGIC DIRECTIONS AND ACTIVITIES FOR 2011/12

THIS PAGE IS INTENTIONALLY LEFT BLANK

For the purposes of section 405 of the *Local Government Act 1993*, this document is is the City of Sydney's Operational Plan for the financial year 2011/12. In accordance with the Act, the following ten Strategic Directions are derived from the Community Strategic Plan (Sustainable Sydney 2030, updated 2011) and the projects, programs and services are the annual activities set by the Corporate Plan (Delivery Program) to respond to the long term strategy within the year.

Each of the following Strategic Directions are set out to show that City of Sydney works under the principles of **PLAN**, **DO**, **REVIEW**.

That is, the Strategic Direction sets out our high level outcomes and objectives, projects, programs and services identify what it is we are doing to achieve the objectives, and the delivery measures including key performance indicators measure our progress towards the overall outcomes of the Strategic Direction.

In improving our planning and reporting to address *Sustainable Sydney 2030* outcomes we have developed a number of new key performance indicators. Not all these indicators have historical data to report, nor do they all have identified targets.

There are two reasons for this.

First, it is not always appropriate to set targets, as some indicators are better served by plotting trends to measure performance.

Second, where we do not have historical data we do not know what is an appropriate target to set. This will be changed where appropriate as we collect enough data to guide us in target setting.

## 1. A globally competitive and innovative city

#### Sustainable Sydney 2030:

Keeping Sydney globally competitive is central to Sydney's and Australia's future. The city must focus on the global economy and sustained innovation to ensure continuing prosperity.

## 2. A leading environmental performer

#### Sustainable Sydney 2030:

The City of Sydney has adopted ambitious greenhouse gas emission reduction targets and will work towards a sustainable future for the City's use of water, energy and waste.

#### Key Functions and Services

The functions and services of the City of Sydney which primarily relate or contribute to the Objectives of this Strategic Direction include:

- Arbocultural Services
- Depot Management
- Domestic Waste Collection Services
- Fleet Management
- Graffiti Removal
- Littering and Unlawful Dumping Inspections
- Property Management
- Public Space Syringe Bin Collection

- Recycling Depot
- Stormwater Management
- Street Cleaning
- Sustainability Engagement and Education
- Sustainable Asset Management
- Sustainability Planning
- Weed Control

#### Objective 2.1 Increase the capacity for local energy generation and water supply within City boundaries

Action 2.1.1 Prepare a Green Infrastructure Plan for the City.
Action 2.1.2 Increase the use of recycled water.
Action 2.1.3 Integrate Green Infrastructure throughout the City by using the City's streets and public domain for reticulation.
Action 2.1.4 Improve environmental reporting and disclosure against published targets.

#### **Objective 2.2** *Reduce waste generation and stormwater pollutant loads to the catchment*

Action 2.2.1 Develop an Integrated Waste Management Strategy to reduce pollutants and reuse waste as a resource.

Action 2.2.2 Implement the Decentralised Water Master Plan to reduce pollutants and encourage resource reuse.

Corporate Plan Projects	Deliverables in 2011/12	Responsibility	2030 Action linkages	
Integrated Waste Management	Annual Stage 1 of 4: Finalise Waste Management Strategy for the local government area to achieve the waste objectives in Sustainable Sydney 2030 and initiate priority actions.	City Sustainability	2.2.2	
	Annual Stage 1 of 4: Complete an Advanced Waste Collection Master Plan for the local government area and initiate priority actions to facilitate implementation.			
Advanced Waste Treatment Facility	Annual Stage 1 of 4: Implement the recommendations of the advanced waste treatment facility business case.	City Sustainability	2.2.1	
Auvanceu wasie freatment Facility	Annual Stage 1 of 3: Increase the waste diversion of the City's waste to existing advanced waste treatment facilities.	Cleansing & Waste	2.2.1	
Stormwater Infrastructure	Annual Stage 1 of 3: Develop a Stormwater Management Plan based on the flood studies previously conducted.	City Infrastructure	2.2.1 2.4.2	

Major Programs	Annual Deliverables	Responsibility	2030 Action linkages	
Waste Management and Reduction	Provide advice and deliver programs to encourage waste avoidance and reduction to business and residential communities.	City Sustainability	2.4.3 2.4.4	
	Provide domestic waste and recycling collection services to defined standards.	Cleansing & Waste		
	Ensure the cleanliness of the city through regular street sweeping and rubbish collection to defined standards.	Cleansing & Waste	2.4.3	
	Undertake targeted patrols to minimise illegal dumping, graffiti, litter and bill posters.	City Rangers	2.4.4	
	Deliver a waste education campaign to reduce the amount of waste that goes to landfill.	Cleansing & Waste City Sustainability		
Sustainability Partnerships and Initiatives	Partner with organisations that can maximise the efforts of Council to achieve more sustainable outcomes within the local government area.	City Sustainability	2.1.3, 2.2.1	

#### Objective 2.3 Improve the environmental performance of existing buildings

Action 2.3.1 Investigate ways to accelerate retrofitting of existing buildings for better environmental performance.

Action 2.3.2 Encourage the community to make sustainable energy choices.

Action 2.3.3 Extend the work of existing programs that make a positive contribution to improved resource efficiency across the City.

Action 2.3.4 Investigate ways to accelerate connection to the City's Green Infrastructure Network and low carbon zones.

Corporate Plan Projects	Deliverables in 2011/12	Responsibility	2030 Action linkages
Retrofit of City of Sydney Building Portfolio	Annual Stage 1 of 2:Implement building retrofits that generate energy and water savings.Annual Stage 1 of 4:Ensure continuous improvement of utility measurement across the organisation.Annual Stage 1 of 4:Implement 5-year Photovoltaic (solar energy) project for City of Sydney buildings.	City Property	2.3.1 2.3.3

Major Programs	Annual Deliverables	Responsibility	2030 Action linkages
Business Sustainability Initiatives	Deliver the CitySwitch Green Office program by working with commercial office tenants throughout the target areas to help them reduce their energy consumption and improve their environmental performance.		2.3.2; 2.3.3; 2.4.4
	Deliver the Smart Business – Live Green program to assist small to medium business to improve their environmental sustainability outcomes.	City Sustainability	2.3.2; 2.3.3; 2.4.3; 2.4.4
	Deliver the Better Building Partnership program to improve the environmental performance of commercial buildings within the local government area.		2.3.1, 2.3.2, 2.3.3

## Objective 2.4 Demonstrate leadership in environmental performance through the City of Sydney's operations and activities

Action 2.4.1 Implement carbon minimisation criteria in procurements and contracts.

Action 2.4.2 Investigate climate change adaptation initiatives to prepare the City for the social and other impacts of global warming, such as peak fuel impacts, storms and flooding.

Action 2.4.3 Work with other sectors to promote sustainable environmental industries and develop economic benefits.

Action 2.4.4 Continue to develop and implement education and support initiatives to assist residents, businesses, workers and visitors to reduce their environmental impacts.

Corporate Plan Projects	Deliverables in 2011/12	Responsibility	2030 Action linkages
Climate Change Action Plan	Annual Stage 1 of 2: Develop a Climate Change Action Plan to prioritise and plan mitigative and adaptive actions to prepare the city for the environmental, social and economic impacts of climate change.	City Sustainability	2.4.2
Urban Ecology Strategy	Finalise an Urban Ecology Strategy.Annual Stage 1 of 4:Implement priority actions from the Urban Ecology Strategy.	City Sustainability	2.4.4
Energy Efficient Public Domain Lighting	Annual Stage 1 of 4: Install energy efficient lighting to all City owned public domain lighting.	City Infrastructure	2.3.3
Low Emissions Vehicle Strategy	Develop a Low Emission Vehicle Strategy to inform the City's conversion of its fleet, where feasible, and accelerate the uptake of low emission vehicles within the City of Sydney	City Sustainability	3.3.4
City Farm	Conduct project plan and Business Case for a City Farm in the City of Sydney.	Parks, Trees & Aquatic Facilities	2.4.4
Environmental Management System	Annual Stage 1 of 4: Implement an environmental management system across Council operations that will deliver sustainable asset management and operations.	City Sustainability	2.4.2
Urban Forest Policy	Prepare an Urban Forest Policy, to increase canopy cover, with urban canopy targets for 2030 and 2050. <i>Annual Stage 1 of 4:</i> Implement priority actions from the Urban Forest Policy.	Parks, Trees & Aquatic Facilities	2.4.4
Street Tree Master Plan	Undertake a strategic review of the Street Tree Master Plan and the Significant Tree Register to assess tree species, performance and benefits provided.	Parks, Trees & Aquatic Facilities	2.4.4

Major Programs	Annual Deliverables	Responsibility	2030 Action linkages	
Carbon Neutral Program	Review and manage the Carbon Neutral Program to ensure that City of Sydney's emissions reduction practices remain at the leading edge and beyond compliance.	City Sustainability	2.3.2 ; 2.4.1; 2.4.2	
Fleet Management	Manage the light and heavy vehicle fleets to encourage low emission driving behaviour and reduce CO2 emissions by 20% over four years (2010 to 2014).	Strategy and Assets	2.4.2	
Community Greening	Support and develop community gardens and sites maintained and managed by community volunteer groups.	Parks, Trees & Aquatic Facilities	2.4.3, 2.4.4	
Public Domain Lighting Advocacy	Advocate for all Energy Australia owned public domain lighting in the City of Sydney to be replaced with energy efficient lights.	City Infrastructure	2.3.3	
	Improve the quality and quantity of the City's parks and trees by developing and implementing best practice services.			
	Protect and enhance the urban forest and enhance the distinct character of the various city precincts by increasing the number, health, and longevity of street, park and privately owned trees.	Parks, Trees &		
Greening Sydney Plan	Implement a community tree planting grant program for the planting and maintenance of large canopy trees on residential properties.	Aquatic Facilities	2.4.3, 2.4.4	
	Deliver themed Living Colour floral displays throughout the City during spring and summer.			
	Implement an aerial bundled cabling program to improve the urban canopy and reduce tree canopy pruning for electrical wires by 75%.			
	Encourage new developments to maximise landscaping and build green roofs and walls.	City Plan Development	2.4.3, 2.4.4	
Residential Environmental Action	Deliver village based targeted programs to inform and educate residents on how to reduce their environmental footprint and to live green. Provide a 'one-stop-shop' capability that connects the resources and support available to these communities.			
Strategy	Partner with Marrickville Council to deliver sustainability programs to the community through the Watershed Green Living Centre (Sustainability Resource Centre).	City Sustainability	2.4.2; 2.4.3; 2.4.4 2.4.2; 2.4.3; 2.4.4	
	Deliver the Green Apartment buildings sustainability program to improve the environmental performance of existing buildings in the residential apartment sector.			
Environmental Sponsorship & Grants	Provide funding to community groups to implement programs that improve the environment, reduce environmental impacts or result in improved awareness of environmental issues.		2.4.2; 2.4.4

### 3. Integrated transport for a connected city

#### Sustainable Sydney 2030:

Quality transport will be a major driver to sustainability – the City must offer a variety of effective and affordable transport options.

#### Key Functions and Services

The functions and services of the City of Sydney which primarily relate or contribute to the Objectives of this Strategic Direction include:

- City Transport and Access
- Clearways and Arterial Roads Inspections
- Community Transport
- Parking Meter Management
- Parking Station Management

- Public Domain Assessment
- Roads and Footways Maintenance
- Street Furniture Maintenance
- Street Lighting Maintenance
- Traffic Management

Action 3.1.1 Support improved metropolitan rail systems and new metro rail lines.

Action 3.1.2 Support improvements to existing City Centre stations and their surroundings, including their interchange role.

Action 3.1.3 Support and plan for the integration of cross-regional public transport services, including light rail and metropolitan rail systems and the quality of modal interchanges.

Corporate Plan Projects	Deliverables in 2011/12	Responsibility	2030 Action linkages
Green Square Transport Management and Accessibility Plan (TMAP)	Update the TMAP to reflect greater proposed resident and worker density. <i>Annual Stage 1 of 4:</i> Work with NSW Transport, Roads & Traffic Authority and other stakeholders on cross agency implementation groups to reduce car ownership and reliance in Green Square and improve accessibility by non- car travel modes. City Centre Transport Access Plans	Annual Stage 1 of 4:         Assist the NSW State Government to develop and implement a City         Centre Access Plan for Sydney that provides for growth in the rail and bus         networks that serve the city centre from the Region and also efficiently         distributes people through the city.         Annual Stage 1 of 4:         Develop planning options for major rail station precincts as gateways for         workers and visitors accessing the city centre.         Develop a city centre loading strategy to relieve peak hour road         congestion, enhancing regional bus reliability and efficiency.         Annual Stage 1 of 2:         Develop a trip census to better understand who is accessing the city at         what time for which purpose in order to better target policy.         Annual Stage 1 of 2:         Develop a city centre parking strategy to relieve peak hour road         congestion, enhancing regional bus reliability and efficiency.         Annual Stage 1 of 2:         Develop a city centre parking strategy to relieve peak hour road         congestion, enhancing regional bus reliability and efficiency.         Develop an electric vehicle strategy to provide key infrastructure for         vehicles with limited range to access the city.         Ongoing:         Implement the Inner Sydney Bike Network in partnership with surrounding local government areas to provide regional cycling connections.	City Access	3.1.1; 3.1.2; 3.1.3

#### Objective 3.2 Align transport infrastructure with City growth

Action 3.2.1 Develop an Inner Sydney Integrated Land Use and Transport Strategy.

Action 3.2.2 Identify a network of local bus services.

Action 3.2.3 Enhance the integrated accessible community transport network.

Action 3.2.4 Investigate development opportunities at and around existing and new stations in proposed Village Centres.

Corporate Plan Projects	Deliverables in 2011/12	Responsibility	2030 Action linkages
Integrated Transport and Access Strategy	Develop a detailed multi-modal integrated transport and land-use access strategy that maps out the required investments by the City and others to support projected employment and residential growth across the local government area in a sustainable, economic and socially acceptable way. Includes development of an integrated light rail network servicing major city attractors, bus network, cycleway network, pedestrian network, freight network within an over-arching road hierarchy. Community Transport Review	Conduct a review to determine how best to manage community transport resources to provide services to transport disadvantaged people.	City Access Social Policy & Community Support	3.2.3
Wynyard, Central and Newtown Stations Access and Design Studies	Annual Stage 1 of 3: Investigate how public transport hubs support development around Wynyard, Central and Newtown Stations.	City Access City Design	3.2.4

Major Programs	Annual Deliverables	Responsibility	2030 Action linkages
Community Transport	Provide a community transport service for a diverse range of people from all backgrounds, ages and socio economic groups.	Social Policy & Community Support	3.2.5
Accessible Bus Stops	Monitor and undertake improvement works to bus stops to ensure 55% compliance by 2012 with the requirements of the Standards for Accessible Public Transport.	City Infrastructure	3.2.5
Roads Maintenance and Renewal	Undertake proactive and reactive maintenance on the City's roads to improve the lifespan of pavement. Complete annual Roads Renewal program.	City Infrastructure	3.4.2

# Objective 3.3 Reduce negative impacts from transport on public space in the City Centre and villages

Action 3.3.1 Improve surface transport reliability in the City Centre.	
Action 3.3.2 Increase access for sustainable transport modes.	
Action 3.3.3 Manage car travel demand.	
Action 3.3.4 Develop sustainable travel initiatives.	
Action 3.3.5 Investigate transport pricing mechanisms to encourage sustainable travel.	
Action 3.3.6 Develop a comprehensive parking strategy that supports land use, environmental and sustainability policies.	

Corporate Plan Projects	Deliverables in 2011/12	Responsibility	2030 Action linkages

# 4. A city for walking and cycling

## Sustainable Sydney 2030:

A safe and attractive walking and cycling network linking the City's streets, parks and open spaces.

#### Key Functions and Services

The functions and services of the City of Sydney which primarily relate or contribute to the Objectives of this Strategic Direction include:

- City Transport and Access
- Cycling Strategy
- Parks Inspections
- Public Domain Assessment

- Road Safety Education
- Roads and Footways Maintenance
- Roads and Pedestrian Areas Management
- Traffic Management

#### Objective 4.1 A network of safe, linked pedestrian and cycleways integrated with green spaces throughout both the City and Inner Sydney

Action 4.1.1 Deliver the Cycling Strategy and Pedestrian Strategy and their respective plans (Liveable Green Network).

Action 4.1.2 Work with partners, owners, agencies and authorities to develop and implement the Liveable Green Network in the City and extend it to Inner Sydney.

Action 4.1.3 Advocate, negotiate and prepare design plans for a continuous foreshore path between Glebe and Rushcutters Bay and from the harbour at Glebe, to Botany Bay, Rosebery and beyond.

Action 4.1.4 Continue to ensure walking and cycling facilities and networks are provided and designed to be safe and meet the needs of everyone.

Corporate Plan Projects	Deliverables in 2011/12	Responsibility	2030 Action linkages
	Annual Stage 1 of 4: Develop Liveable Green Network implementation strategy and priority works plan to guide investment and integrate with village centre and transport planning.	City Design City Access

Footpath Maintenance and Renewal	Maintain footpaths to ensure safe, accessible and amenable walking routes continue to be available.	City Infrastructure	4.1.4
	Complete the annual Footpath Renewal program.		

#### Objective 4.2 Give greater priority to cycle and pedestrian movements and amenity in the City Centre

Action 4.2.1 Manage streets to encourage walking, cycling and the use of public transport.

Action 4.2.2 Advocate for the re-timing of traffic signals and phasing to give priority to pedestrians and bike riders.

Action 4.2.3 Advocate for the reduction of the speed limit in the City Centre to a maximum 40kph to improve safety and amenity.

Action 4.2.4 Implement part-time or full time road lanes and street closures where outdoor activities can be encouraged.

Action 4.2.5 Improve directional signs and education about pedestrian and cycling networks.

Action 4.2.6 Implement a public bicycle scheme.

Corporate Plan Projects	Deliverables in 2011/12	Responsibility	2030 Action linkages
Traffic Signal Priority	Annual Stage 1 of 2: Work with the RTA to decrease waiting time and overall trip time for bike riders and pedestrians on identified priority routes in the City Centre by changing traffic signal settings.	City Access	4.2.2
40 km/h Speed Limits	Annual Stage 1 of 2: Reduce speed limit in the city centre to 40 km/h on thoroughfares and 10 km/h in shared/slow zones.	City Access	4.2.3, 4.1.4

# 8. Housing for a diverse population

## Sustainable Sydney 2030:

A wider range of housing so people who provide vital City services can afford to live in the City.

### Key Functions and Services

The functions and services of the City of Sydney which primarily relate or contribute to the Objectives of this Strategic Direction include:

- Homeless Services
- Statutory Planning and LEP
- Strategic Planning
- Subdivision Assessment
- Urban Renewal

#### Objective 8.1 Facilitate the supply of housing by the private market

Action 8.1.1 Address unnecessary barriers to residential development by the private market.

Action 8.1.2 Ensure substantial future residential development at major renewal sites.

Action 8.1.3 Provide physical and social infrastructure to meet the needs of residents in a timely way.

Action 8.1.4 Monitor the availability of private and public land for residential development.

Action 8.1.5 Work with Inner City Councils and State Government to ensure a good supply of land for residential development.

#### Objective 8.2

## Ensure that housing developments provide a diversity of housing opportunities for different lifestyle choices and household types

Action 8.2.1 Develop and promote an affordable Housing Strategy for Sydney and inner Sydney.

Action 8.2.2 Explore new ways to ensure that planning instruments facilitate a mix of housing types to ensure social diversity.

Action 8.2.3 Ensure new residential development is well designed and provides for people with a disability or limited mobility and is adaptable for use by different household types.

## Objective 8.3 Ensure that a substantial proportion of housing is aimed at the lower end of the market

Action 8.3.1 Encourage the development industry to develop innovative housing models that result in lower priced housing.

Action 8.3.2 Ensure there are no unnecessary barriers to the supply of lower cost accommodation types.

Action 8.3.3 Develop a strategy to monitor and maintain the supply of boarding houses and bedsit/ studio accommodation in the City; support boarding house operators and facilitate the development of new boarding houses.

The above objectives are addressed by the City Plan

Action 8.4.1 Support the Not-for-Profit sector in providing affordable housing.

Action 8.4.2 Investigate new affordable housing pilot project in partnership with the not-for-profit and community housing sector.

Action 8.4.3 Investigate the benefits and opportunities of expanding existing inclusionary zones for affordable housing to fund the not-for-profit and community housing sectors, such as expansion in future renewal areas or on all commercial development across the City.

Corporate Plan Projects	Deliverables in 2011/12	Responsibility	2030 Action linkages

# ANNUAL BUDGET AND FINANCIAL STATEMENTS

THIS PAGE IS INTENTIONALLY LEFT BLANK

# Financial Plan and Budget 2011/12

The City's 2011/12 budget and ten year plan have been developed with a clear focus on the long term future of the City.

The City is committed to maintaining its long term financial sustainability and aims to achieve this through a prudent financial strategy which will satisfy community desires for services and facilities and deliver capital works outcomes.

The financial plan has been developed in accord with the following principles:

- Maintain diversity of income streams
- Adopt Minister's approved rate increases
- Tightly controlled operational expenditure
- Maintain staff FTE's at budget levels with minimal increases
- Implement key projects in Council's plans
- Deliver major capital works and programs to provide improved facilities, infrastructure and public domain works across the City
- Maintain appropriate levels of cash reserves to satisfy future commitments, meet cash flow demands and ensure responsible financial management control.

The tables on the following pages show the proposed budget for 2011/12 and the comparison between the current year's budget and forecast. Further financial details, in respect of future years, can be located within the Corporate Plan and the Resourcing Strategy. Amounts shown in the financial statements are rounded to the nearest million dollars, unless otherwise stated.

# **BUDGETED INCOME STATEMENT**

The City's financial accounts for 2011/12 will include income and expenditure items that arise from the application of International Financial Reporting Standards (AIFRS) and revaluation of fixed assets required by the Department of Local Government's Code of Accounting Practice and Financial Reporting.

A major non cash item that may impact the City's financial results is the incremental increase / decrease arising from the annual market revaluation of the City's investment properties. The recognition of this valuation change will have no impact upon the budgeted funds available for the Council and is therefore excluded from the 2011/12 budget.

# SUMMARY OF INCOME AND EXPENDITURE BY PRINCIPAL ACTIVITY 2011/12

Council has adopted the Strategic Directions from the Sustainable Sydney 2030 vision as its Principal Activities for this Corporate Plan. A number of Principal Activities are of an advocacy and facilitation role for the City and not one of direct service provision such as *Housing for a Diverse Population*. As a result, the proposed budget does not reflect any substantial operational costs for this Principal Activity. The Principal Activities for *A City for Walking and Cycling* and *A Lively and engaging City Centre* will be largely achieved via capital works for infrastructure and reflects minimal operational expenditure.

The summary of income and expenditure by Principal Activity below includes both the proposed operational budget for 2011/2012 and the capital works program to better reflect the allocation of Council funds towards these major directions.

# Summary of Income and Expenditure by Principal Activity

## CAPITAL WORKS PROGRAM 2011/12 TO 2014/15

The City has developed a four year forward Capital Works Program that will continue to deliver vital improvements to the City's domain, roads, footways, pools, open space and community facilities. The proposed program will enable the commencement and completion of many key infrastructure projects and progress a number of Sustainable Sydney 2030 projects. The program prepared is in line with the agreed long term financial parameters and represents the City's capacity to deliver the program each year and provisions for significant projects which may be delivered by third parties.

# **Asset Replacement and Sales**

Council holds assets to ensure its financial viability, for commercial and strategic reasons and to meet the needs of its operations.

Depreciating assets such as plant, equipment and vehicles, held for Council's operations are changed or replaced in line with Council's current needs and the operational life of the asset. The City replaces its light fleet every two years or 40,000km excluding utility vehicles which are replaced every three years or 60,000km. The City also adopts a replacement program to renew its Personal Computer assets on an average three-yearly cycle.

The City's Plant and Assets Budget for the 2011/12 year is \$21.1M (net).

# **Statement of Business or Commercial Activities**

The City of Sydney expects to continue with Parking Stations as a Category 1 business activity. These commercial activities provide an additional source of funding that enables the Council to continue to provide enhanced services and infrastructure delivery without placing additional burden on the City's ratepayers.

# Borrowings

The City maintains its commitment to prudent financial management. The City will fund its operations and capital programs from its own available cash resources and does not intend to borrow any money in the next financial year to complete the objectives outlined with this plan.

# Revenue Policy – Charges for Works Carried out on Private Land

Council does not generally carry out works on private land, however if Council were required to undertake such works (e.g. construction of a private road), then the works would be charged at the appropriate commercial rate.

# Rating and Revenue Policy Statement 2011/12

The City has adopted the 2.8% general rate increase allowed by the Minister for Local Government.

The proposed rating structure has one ordinary rate with minimum rates for all residential properties and two sub-categories for business properties.

The City has determined the following residential and business sub-categories of rateable land for the 2011/12 year:

# Residential

Residential Rate - Ordinary

## **Business**

Business Rate- Ordinary Business Rate - Central Business District (CBD)

The boundaries of the business sub-categories are shown on the plan located below.

The proposed rating structure for 2011/12 is set out below:

Category	Minimum Rate	Ad valorem (Cents in Dollar)	Estimated Yield \$M
Residential Rate – Ordinary	\$469.80	0.1760	51.4
Business Rate – Ordinary Rate	\$601.00	0.6963	60.3
Business Rate – CBD	\$601.00	1.2940	119.2

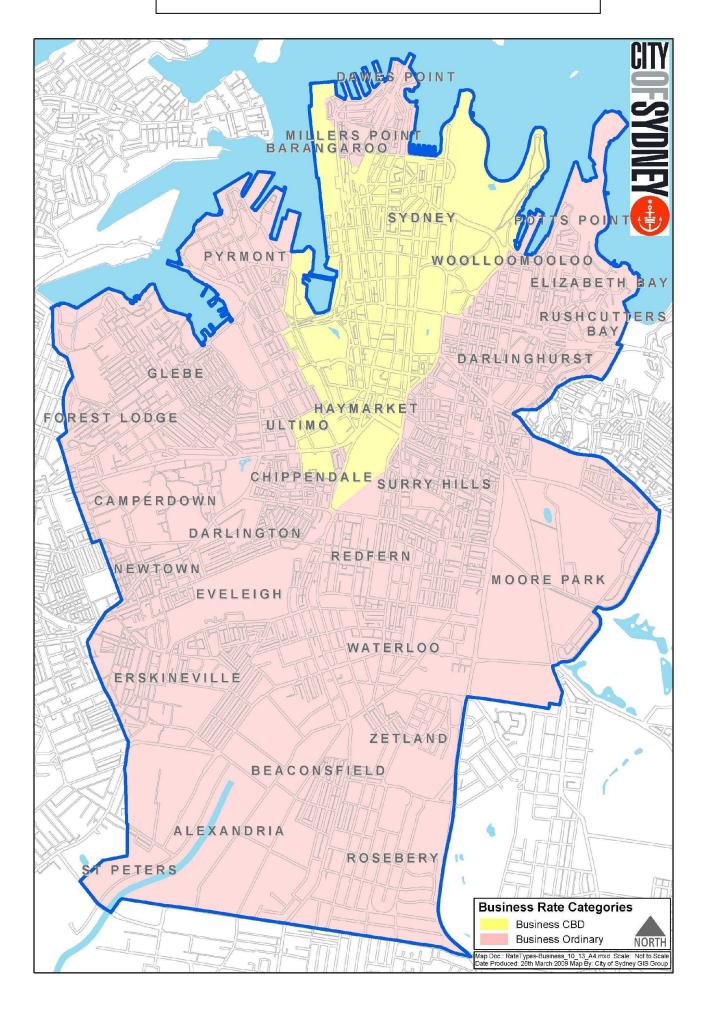

# **Pensioner Rebates**

The City of Sydney will again provide a 100% rebate for those eligible pensioners within its Local Government Area in 2011/12.

# Rating of car spaces and storage lots (Aggregation policy)

The City of Sydney's aggregation policy will apply for the Local Government Area in 2011/12.

# Business Rate Sub-Categories (Illustrated)

# Stormwater Management Service Charge

The Department of Local Government released guidelines in July 2006 that provides assistance to councils to raise additional funding through the Stormwater Management Service Charge to support them in improving the management of urban stormwater in NSW. This follows the gazettal of the Local Government Amendment (Stormwater) Act 2005.

The City introduced a Stormwater Management Service Charge in 2008 and proposes to continue this charge in 2011/12. The initial stormwater plan proposed \$46M of works over the next 15 years. Initial research and studies have begun and a number of stormwater infrastructure works have begun with more scheduled to commence during the 2011/12 year. The proposed plan indicates the potential for stormwater works to be completed at an average of \$1.7M over the next four years. Substantial provisions for major works have been provided within the ten year long term financial plan and the works program will be reviewed every year as part of the Corporate Plan and budget development process.

It is proposed to levy residential land parcels \$25 and business land parcels \$25 per 350m2.

#### **Residential**

Non Strata land parcels	\$25.00 per parcel
Strata Unit	\$12.50 per unit
Company Title	\$12.50 per unit

#### **Business**

Non Strata land parcels	\$25.00 per 350m2 or part thereof
Strata Unit	Pro-rata of above, but a minimum of \$5

The total amount of the proposed Stormwater and Drainage Levy is \$1.8M less pensioner rebates for a net amount of \$1.75M.

# Domestic Waste Management Annual Availability Charge (DWMAAC)

The Local Government Act (LGA) 1993 requires Council to recover the full cost of providing the Domestic Waste Management Service.

This is achieved through an annual availability charge for each parcel of rateable land entitled to receive the service [s496]. This mostly applies to land categorised "residential" but includes some land categorised business where the property contains a residential component and non rateable land with a residential component where a domestic waste service is requested. Every dwelling in a strata lot or company titled unit is to be taken as a separate parcel and levied a separate DWMAAC [S518A].

Similarly the form of a charge may be expressed as the number of individual units or dwellings forming part of that assessment [s540]. For example a block of units with ten residential premises (flats, bedsits etc) may be owned by one ratepayer subject to a single rates assessment but the DWMAAC charge would be for ten dwellings, that is ten DWMAAC's.

Council retains the right to determine the most suitable means of providing the service particularly in terms of the bin size and type (Carry Bin, Mobile Garbage Bin or Bulk Bin) and frequency of collection (daily, weekly or multi) to suit particular properties and localities mindful of efficiencies and practicalities.

The availability charges are as follows:

Description	Fee	Yield \$'s	<b>–</b> • <i>i</i>	Fee	Yield \$'s
	\$	(estimated)	Description	\$	(estimated)
Single Unit Dwellings			Multi Unit Dwellings		
Minimum Domestic Waste Charge (<120 litre bin)	214.00	392,904	Minimum Domestic Waste Charge	214.00	770,935
Domestic Waste Charge (120 litre bin)	325.00	6,665,640	Minimum Domestic Waste Charge , 2 x weekly	240.00	7,422,677
Domestic Waste Charge (240 litre bin)	652.00	391,852	Minimum Domestic Waste Charge , 3 x weekly	266.00	411,103
			Standard Domestic Waste Charge	325.00	1,173,819
			Standard Domestic Waste Charge, 2x weekly	351.00	2,501,752
			Standard Domestic Waste Charge, 3 x weekly	377.00	4,290,007
			Large Domestic Waste Charge x 3 weekly	562.00	449,038
			Domestic Waste Charge, 7 Day Service Area	363.00	3,289,197
Council is proposing to trial a communal bin arrangement within selected streets. It is proposed that the amended charge for those trialling the process will be \$199.00.		Residential Units where waste cannot be collected by Council, after review by authorised Council officers.	95.00	1,045	
		harge for theore	** (per assessment)		
			Serviced Apartments where Waste is not collected by Council (per assessment) *	95.00	113,145
*This charge is levied in accordance with the current classification of "Serviced Apartments" as residential dwellings for the purposes of rating and will be applied in cases where waste is collected by parties other than the Council. **This charge may be applied in specific residential situations where Council cannot collect the waste, after review by authorised Council Officers.					
The yield amounts shown here are base on Domestic Waste Management Charg		int after value of	proposed pensioner rebates has been deducted Total		27,873,114

# FEES AND CHARGES

**CITY OF SYDNEY OPERATIONAL PLAN 2011/12** 

THIS PAGE IS INTENTIONALLY LEFT BLANK

# **REVENUE POLICY – Fees**

The Council proposes to charge a range of fees in 2011/12, as detailed within the attached Schedule of Proposed Fees and Charges.

The legislative basis for these fees may be found in Section 608 of the Local Government Act 1993 which provides that Council may charge and recover an approved fee for any service it provides, including the following:-

- supplying a service, product or commodity;
- giving information;
- providing a service in connection with the exercise of the council's regulatory functions including receiving an application for approval, granting an approval, making an inspection and issuing a certificate; and
- allowing admission to any building or enclosure.

Under the principle of "user pays", fees are introduced to offset the cost of service provision, or in the case of commercial activities to realise a reasonable rate of return on assets employed by the Council, in order to support the provision of services and to alleviate the burden that would otherwise be unfairly placed upon ratepayers.

Council has given due consideration to the following factors in determining the appropriate price for each fee:-

- the cost of providing the service;
- whether the goods or service are supplied under a commercial basis;
- the importance of the service to the community;
- the capacity of the user to pay;
- the impact of the activity on public amenity;
- competitive market prices; and
- prices dictated by legislation.

Council discloses its pricing policy by showing a pricing code against each individual fee within the attached Schedule of Proposed Fees and Charges, as:-

- Market Council provides a good / service in a competitive environment
- Full Cost Council intends to fully recover the direct and indirect cost of provision plus any community cost
- Partial Cost Council intends to partially recover the costs of provision
- Legislative Prices are dictated by legislation
- Zero Council absorbs the full cost of delivery
- Security Deposit Refundable deposit against possible damage to Council property

All fees are quoted in "GST Inclusive" terms as this is the relevant price to the customer, however it should be recognised that within the schedule there are many fees that do not attract GST. These fees have either been specifically exempted by the GST legislation or have been included within the Division 81 determination as the Australian government has deemed that the customer does not actually receive a taxable supply in consideration for the fee. The latter excludes many fees for regulatory services that are not provided within a competitive environment, and other forms of information that are provided on a non-commercial basis.

In accordance with the Department of Local Government's guidelines on competitive neutrality, Council has identified its Category 1 business (those with a turnover exceeding \$2 million) as Parking Stations. These businesses set prices in line with market conditions and their results are disclosed, including tax equivalent payments and return on capital, with Council's Annual Report.

Note: The CEO has delegated authority to adjust fees or charges payable for services provided on a commercial basis, and to waive or reduce fees in cases of financial hardship or for pressing community needs. The CEO also has delegated authority to waive fees incurred in directly carrying out its own operations or works. This does not include waiving fees for third parties conducting works or operations on behalf of the City.
