Sustainable Sydney 2030 and the Corporate Plan

The Integrated Planning and Reporting Framework

A new mandatory integrated planning and reporting framework for NSW Local Government has been introduced, as shown in the diagram below. These reforms of the Local Government Act 1993 replace the former Management Plan and Social Plan structures.

The City of Sydney's response to this statutory framework for planning and reporting is embodied in the suite of Integrated Planning documents which were adopted following public exhibition in May-June 2011. This is explained below.

An ongoing program to achieve a Green, Global, Connected City

Sustainable Sydney 2030 is a long term Community Strategic Plan for the next 20 years and beyond – an ongoing commitment by the City of Sydney to achieve the vision and targets set out for a Green, Global, and Connected City. Not all the projects or outcomes in *Sustainable Sydney 2030* can be delivered immediately.

The aspiration of a Green Global and Connected City, as it is defined in *Sustainable Sydney 2030*, will be achieved over time by accumulated actions and incremental and step changes in the City.

The Corporate Plan 2012-2015 is the City of Sydney's four year Delivery Program in response to the community vision and strategy expressed in *Sustainable Sydney 2030*. It identifies what we will achieve in the period (financial years) 2012-2015 and the steps we will take towards the longer term vision and objectives.

The Corporate Plan will enable the community to review and monitor our progress toward achieving the aspirations of *Sustainable Sydney 2030*. It includes indicators to measure the effect of our work on the City and the community, priority projects and programs over this timeframe with targets and key performance indicators to deliver the long-term goals and outcomes specified under each strategic direction. The financial plan for the delivery of this program is also identified.

The Operational Plan 2012/13 is derived from the Corporate Plan as an annual instalment of the program. It also includes the detailed annual budget and revenue policy, including rates and fees and charges.

Resourcing the plan

To support the community's objectives expressed in *Sustainable Sydney 2030*, a long-term resourcing strategy is required as part of the Integrated Planning and Reporting framework. This serves to both inform and test the aspirations expressed in the strategic plan and how Council's share of the required actions might be achieved. The deliverables and service standards built into the Corporate Plan are aligned with the Resourcing Strategy.

The *Resourcing Strategy* which accompanies the Community Strategic Plan and this Corporate Plan includes three components:

- Long Term Financial Plan
- Workforce Strategy
- Asset Management Plan

Costs for the principal activities undertaken by the City of Sydney under *Sustainable Sydney 2030*, including the continued provision of current services at the appropriate levels necessary to meet the objectives of the community strategic plan, are brought together in the Long Term Financial Plan. This provides a 10-year view of the costs and what can be funded by the City of Sydney or may be required from other sources.

The City of Sydney’s workforce capacity to meet the objectives of the strategy and the broad challenges and responses to planning our future workforce are outlined in the Workforce Strategy.

The Community Asset Management Plan is the summary of the relevant strategies, condition and actions for the assets critical to our operation. More detailed Asset Management Plans for the critical asset classes will be developed in coming months.

How the documents relate

How the City of Sydney’s Integrated Planning and Reporting documents work together is illustrated by the diagram below. All of the key plans are tested and refreshed annually and subject to a major review following the election of each new Council. The next major review will be in 2012/13.

Making it happen

Implementing *Sustainable Sydney 2030* requires new ways of working and thinking. The City of Sydney cannot deliver the vision alone. We are changing the way we work as an organisation, and the way we work in partnership with all our stakeholders. The City of Sydney has a critical role in implementing the program. However, it can only be achieved through partnerships for change with community, business and government.

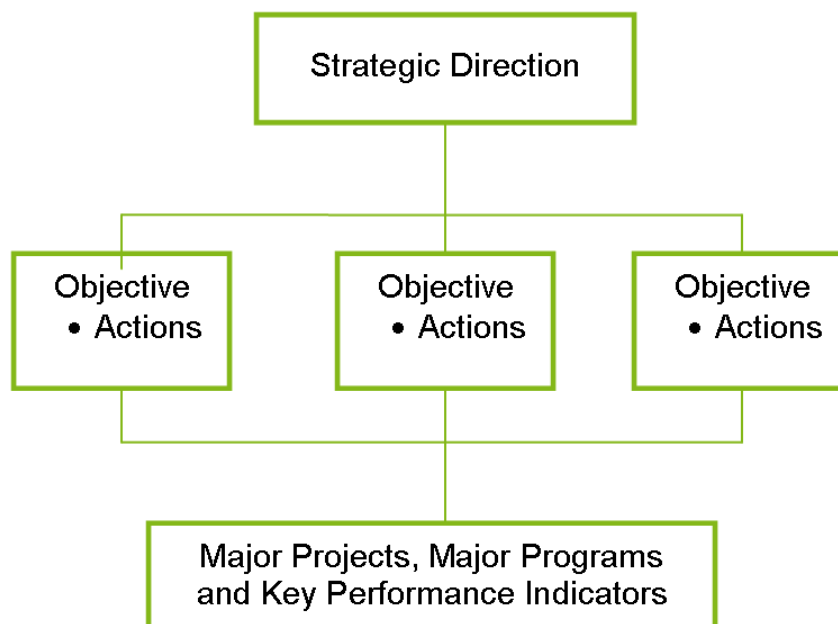

As an organisation we are working to extend our level of influence with other levels of government and major stakeholders to advocate for the policy and project ideas of *Sustainable Sydney 2030*. Only by all working together will *Sustainable Sydney 2030* be achieved.

The 10 Strategic Directions and the strategic Objectives and Actions set for each direction of *Sustainable Sydney 2030* provide the framework for this Corporate Plan.

- A globally competitive and innovative City
- A leading environmental performer
- Integrated transport for a connected City
- A City for walking and cycling
- A lively and engaging city centre
- Vibrant local communities and economies
- A cultural and creative City
- Housing for a diverse population
- Sustainable development, renewal and design
- Implementation through effective governance and partnerships

This framework drives the Major Projects, Major Programs and Service Area Measures which are the principal activities of the Corporate Plan.

Progress is measured against each Strategic Direction as a whole through the delivery of the identified projects and programs and the key performance indicators for the service areas.

Monitoring Progress

Monitoring of a sustainable Sydney requires a two tier process. First there is *Sustainable Sydney 2030*. As the Community Strategic Plan, this requires a monitoring report against broad sustainability indicators for the community and area as a whole. This is a higher level Sustainability Report that monitors everybody's contribution to a sustainable Sydney.

A major project is being undertaken to establish a comprehensive set of indicators for the City's community wellbeing across social, cultural, environmental, economic and democratic perspectives. Public and stakeholder engagement has been conducted to help develop a final set of indicators and measures to be presented to Council for endorsement. When endorsed, these Community Indicators will add an important new dimension to monitoring and reporting on Sustainable Sydney and to the evidence base for Integrated Planning and Reporting.

The Corporate Plan (the City of Sydney's 4-year Delivery Program) and annual Operational Plan are monitored through quarterly performance, financial and sustainability reports to Council, and the Annual Report. These reports provide details on our operational performance, and our progress towards the *Sustainable Sydney 2030*.

The City of Sydney

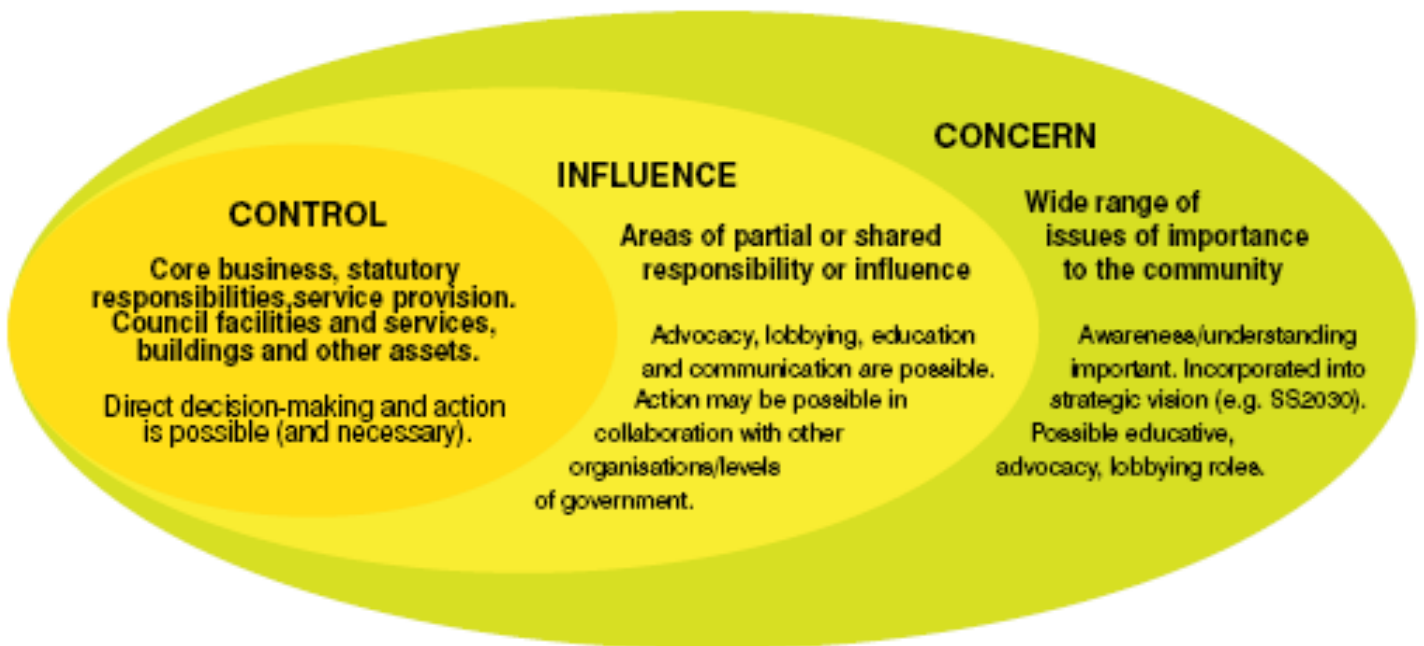

The City of Sydney's Role and Responsibilities

The City of Sydney, as a local government organisation is governed by the requirements of the Local Government Act (1993) and Regulations, the City of Sydney Act (1988) and other relevant legislative provisions and is responsible for administering its local government area.

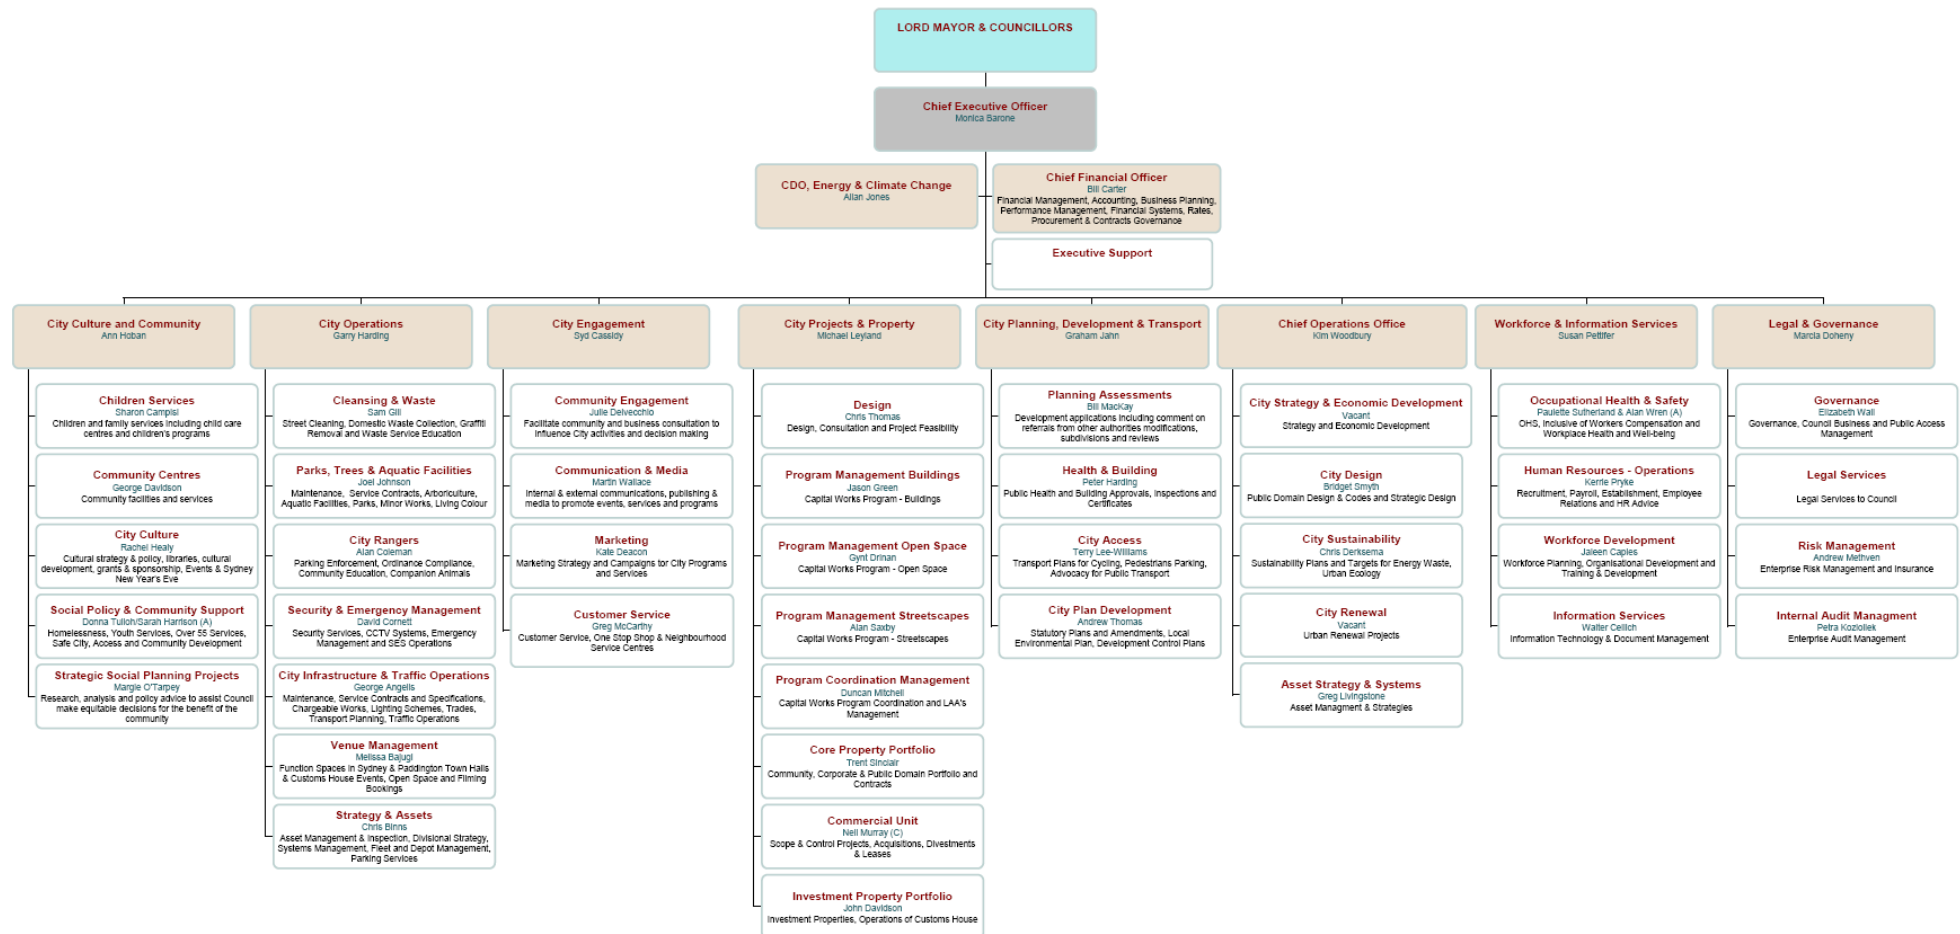

The Local Government Act includes the Charter, which identifies the matters councils need to consider when carrying out their responsibilities. While following this Charter, in reality councils have a range of roles – as a leader, service provider, regulator, advocate, facilitator and educator. Councils have a responsibility to formulate and pursue their community's visions and ideas, provide civic leadership, deliver key services and express local ideas and concerns about important issues to other levels of Government.

There are services that all councils must provide, and some which councils can choose to make available. Many services are also provided by different state and federal agencies, such as public transport, hospitals, and education. There are new policy approaches that influence or direct Council's responses, and legislation that affects the provision of current services. Council's roles extend beyond the direct provision of services to advocating for an equitable allocation of resources from the state and federal governments, and demonstrating, as a leader, its journey towards a more sustainable City.

In following the directions of *Sustainable Sydney 2030* and striving to achieve its objectives, there are limits to what Council alone can control or even influence. As indicated by the diagram below, however, the City of Sydney like *Sustainable Sydney 2030* itself is concerned with the full range of issues which affect the wellbeing of the City and its communities.

Organisational Purpose, Values and Direction

The City of Sydney has recently undertaken a major organisational development project to define and articulate the organisation's Purpose, Values and Direction for the coming years, under the overall imperative to deliver *Sustainable Sydney 2030*

The outcomes of this exercise are shown in the diagram below:

Each Division and Business Unit is required to build the Purpose, Values and Direction into its own business plans and workforce planning priorities.

These organisational directions are aligned with the Workforce Strategy for 2012-2015, which is now part of our Integrated Planning and Reporting framework (explained in more detail above). This will help drive the further development of the organisation and its workforce and workplace in the term of this Corporate Plan.

THIS PAGE IS INTENTIONALLY LEFT BLANK

Strategic Directions and 2012/13 Activities

THIS PAGE IS INTENTIONALLY LEFT BLANK

For the purposes of section 404 of the *Local Government Act 1993*, this Corporate Plan is the City of Sydney's four year Delivery Program. In accordance with the *Act*, the following ten Strategic Directions are derived from the Community Strategic Plan (Sustainable Sydney 2030, updated 2011) and contain the City of Sydney's principal activities to respond to the long term strategy within the four year period of (financial years) 2012-2015.

Each of the following Strategic Directions are set out to show that City of Sydney works under the principles of **PLAN, DO, REVIEW**.

The Strategic Direction sets out our high level outcomes, with objectives, projects, programs and services identifying what it is we are doing to achieve the objectives. Delivery measures, including key performance indicators are used to measure our progress towards the outcomes.

In improving our planning and reporting to address *Sustainable Sydney 2030* outcomes, we have developed a number of new key performance indicators. Not all of these indicators have historical data to report, nor do they all have identified targets.

There are two reasons for this.

First, it is not always appropriate to set targets, as some indicators are better served by plotting trends to measure performance.

Second, where we do not have historical data we do not know what is an appropriate target to set. This will be changed where appropriate as we collect enough data to guide us in target setting.

1. A globally competitive and innovative city

Sustainable Sydney 2030:

Keeping Sydney globally competitive is central to Sydney's and Australia's future. The city must focus on the global economy and sustained innovation to ensure continuing prosperity.

Annual Budget and Financial Statements

Financial Plan and Budget 2012/13

The City's 2012/13 budget and ten year plan have been developed with a clear focus on the long term future of the City.

The City is committed to maintaining its long term financial sustainability and aims to achieve this through a prudent financial strategy which will satisfy community desires for services and facilities and deliver capital works outcomes.

The financial plan has been developed in accord with the following principles:

- Maintain diversity of income streams
- Adopt Minister's approved rate increases
- Tightly controlled operational expenditure
- Maintain staff FTE's at budget levels with minimal increases
- Implement key projects in Council's plans
- Deliver major capital works and programs to provide improved facilities, infrastructure and public domain works across the City
- Maintain appropriate levels of cash reserves to satisfy future commitments, meet cash flow demands and ensure responsible financial management control.

The tables on the following pages show the proposed budget for 2012/13 and the comparison between the current year's budget and forecast. Further financial details, in respect of future years, can be located within the Corporate Plan and the Resourcing Strategy. Amounts shown in the financial statements are rounded to the nearest million dollars, unless otherwise stated.

BUDGETED INCOME STATEMENT

The City's financial accounts for 2012/13 will include income and expenditure items that arise from the application of International Financial Reporting Standards (AIFRS) and revaluation of fixed assets required by the Department of Local Government's Code of Accounting Practice and Financial Reporting.

A major non cash item that may impact the City's financial results is the incremental increase / decrease arising from the annual market revaluation of the City's investment properties. The recognition of this valuation change will have no impact upon the budgeted funds available for the Council and is therefore excluded from the 2012/13 budget.

SUMMARY OF INCOME AND EXPENDITURE BY PRINCIPAL ACTIVITY 2012/13

Council has adopted the Strategic Directions from the Sustainable Sydney 2030 vision as its Principal Activities for this Corporate Plan. A number of Principal Activities are of an advocacy and facilitation role for the City and not one of direct service provision such as *Housing for a Diverse Population*. As a result, the proposed budget does not reflect any substantial operational costs for this Principal Activity. The Principal Activities for *A City for Walking and Cycling* and *A Lively and engaging City Centre* will be largely achieved via capital works for infrastructure and reflects minimal operational expenditure.

The summary of income and expenditure by Principal Activity below includes both the proposed operational budget for 2012/13 and the capital works program to better reflect the allocation of Council funds towards these major directions.

CAPITAL WORKS PROGRAM 2012/13 TO 2015/16

The City has developed a four year forward Capital Works Program that will continue to deliver vital improvements to the City's domain, roads, footways, pools, open space and community facilities. The proposed program will enable the commencement and completion of many key infrastructure projects and progress a number of Sustainable Sydney 2030 projects. Asset Replacement and Sales

Council holds assets to ensure its financial viability, for commercial and strategic reasons and to meet the needs of its operations.

Depreciating assets such as plant, equipment and vehicles, held for Council's operations are changed or replaced in line with Council's current needs and the operational life of the asset. The City replaces its light fleet every two years or 40,000km excluding utility vehicles which are replaced every three years or 60,000km. The City also adopts a replacement program to renew its Personal Computer assets on an average three-yearly cycle.

The City's Plant and Assets Budget for the 2012/13 year is \$24.2M (net).

Statement of Business or Commercial Activities

The City of Sydney expects to continue with Parking Stations as a Category 1 business activity. These commercial activities provide an additional source of funding that enables the Council to continue to provide enhanced services and infrastructure delivery without placing additional burden on the City's ratepayers.

Borrowings

The City maintains its commitment to prudent financial management. The City will fund its operations and capital programs from its own available cash resources and does not intend to borrow any money in the next financial year to complete the objectives outlined with this plan.

Revenue Policy – Charges for Works Carried out on Private Land

Council does not generally carry out works on private land, however if Council were required to undertake such works (e.g. construction of a private road), then the works would be charged at the appropriate commercial rate.

Rating and Revenue Policy Statement 2012/13

The City has adopted the 3.6% general rate increase set by the Independent Pricing and Regulatory Tribunal. However, 2011/12 was the final year of the Quality of Life Special Levy of 1.5%. Therefore the net increase is 2.1%.

The proposed rating structure has one ordinary rate with minimum rates for all residential properties and two sub-categories for business properties.

The City has determined the following residential and business sub-categories of rateable land for the 2012/13 year:

Residential

Residential Rate - Ordinary

Business

Business Rate- Ordinary

Business Rate - Central Business District (CBD)

The boundaries of the business sub-categories are shown on the plan located below.

The proposed rating structure for 2012/13 is set out below:

Category	Minimum Rate	Ad valorem Rates (in the Dollar)	Estimated Yield \$M
Residential Rate – Ordinary	\$486.70	0.001778	53.3
Business Rate – Ordinary Rate	\$622.60	0.007152	62.4
Business Rate – CBD	\$622.60	0.013237	122.1

Pensioner Rebates

The City of Sydney will again provide a 100% rebate for those eligible pensioners within its Local Government Area in 2012/13.

Rating of car spaces and storage lots (Aggregation policy)

For rating purposes, in accordance with s548A of the local Government Act 1993, Council will aggregate:

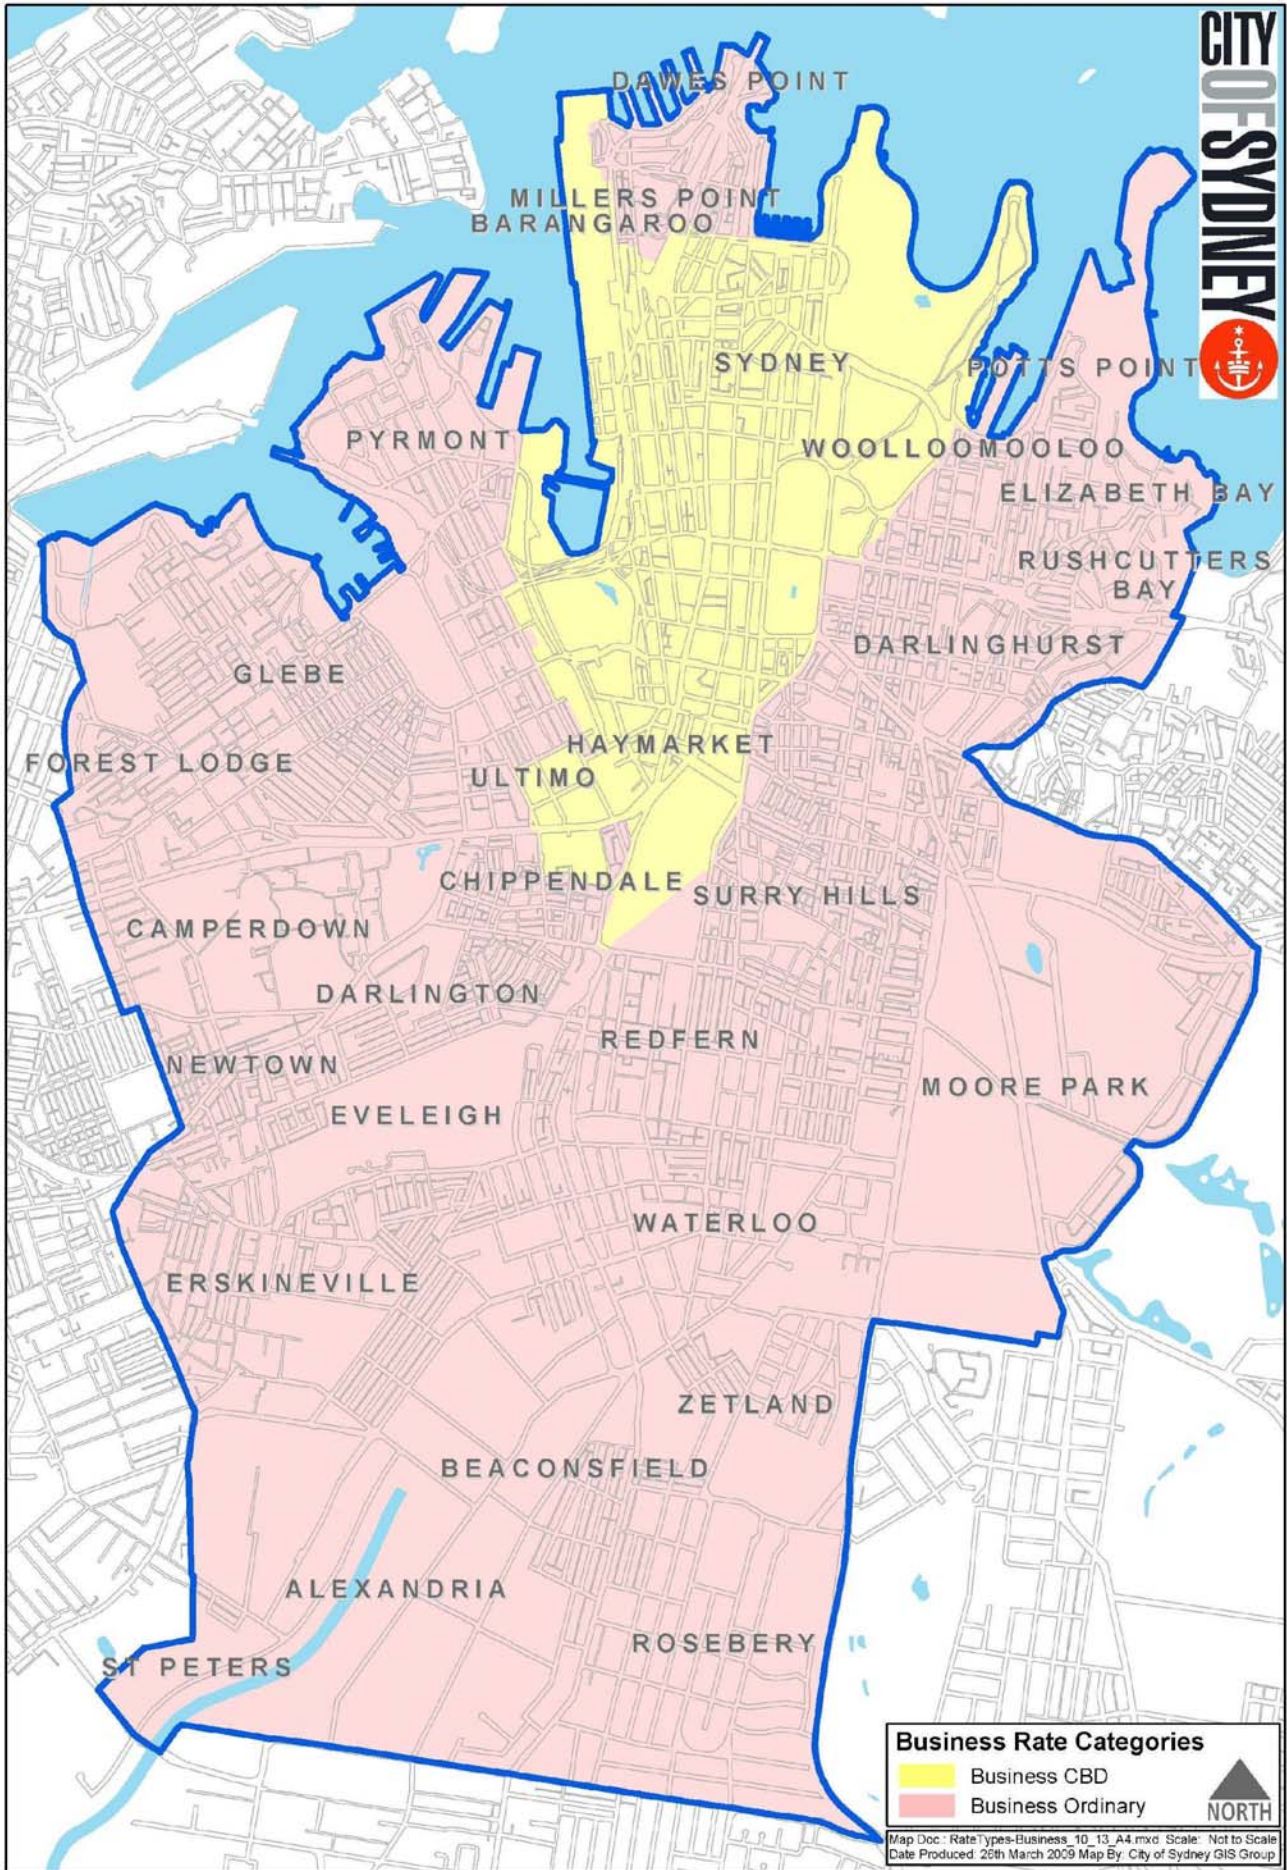

- a maximum of three car spaces and all storage lots to a residentially rated strata unit, and
- one car space and one storage lot to a business rated strata unit provided that the car and storage lots are:
 - used in conjunction with the unit; and
 - used by the occupier of the unit; and
 - not leased out for private purpose.

Council will only aggregate lots if:

- the ownership of each lot is exactly the same for each lot as per the land title; and
- all lots are within the same strata plan or strata scheme or it is noted on the Strata Plan that the lots are used in conjunction; and
- none of the lots include mooring lots.

Applications must be on the approved form found on the City's website. Approved aggregations will attract an aggregated rate from the start of the next quarter following the application received date.

Business Rate Sub-Categories (Illustrated)

Stormwater Management Service Charge

The Department of Local Government released guidelines in July 2006 that provides assistance to councils to raise additional funding through the Stormwater Management Service Charge to support them in improving the management of urban stormwater in NSW. This follows the gazettal of the Local Government Amendment (Stormwater) Act 2005.

The City introduced a Stormwater Management Service Charge in 2008 and proposes to continue this charge in 2012/13. The initial stormwater plan proposed \$46M of works over the next 15 years. Initial research and studies have begun and a number of stormwater infrastructure works have begun with more scheduled to commence during the 2012/13 year. The proposed plan indicates the potential for stormwater works to be completed at an average of \$1.7M over the next four years. Substantial provisions for major works have been provided within the ten year long term financial plan and the works program will be reviewed every year as part of the Corporate Plan and budget development process.

It is proposed to levy residential land parcels \$25 and business land parcels \$25 per 350m².

Residential

Non Strata land parcels	\$25.00 per parcel
Strata Unit	\$12.50 per unit
Company Title	\$12.50 per unit

Business

Non Strata land parcels	\$25.00 per 350m ² or part thereof
Strata Unit	Pro-rata of above, but a minimum of \$5

The total amount of the proposed Stormwater and Drainage Levy is \$1.8M less pensioner rebates for a net amount of \$1.75M.

Domestic Waste Management Annual Availability Charge (DWMAAC)

The Local Government Act (LGA) 1993 requires Council to recover the full cost of providing the Domestic Waste Management Service.

This is achieved through an annual availability charge for each parcel of rateable land entitled to receive the service [s496]. This mostly applies to land categorised “residential” but includes some land categorised business where the property contains a residential component and non rateable land with a residential component where a domestic waste service is requested. Every dwelling in a strata lot or company titled unit is to be taken as a separate parcel and levied a separate DWMAAC [S518A].

Similarly the form of a charge may be expressed as the number of individual units or dwellings forming part of that assessment [s540]. For example a block of units with ten residential premises (flats, bedsits etc) may be owned by one ratepayer subject to a single rates assessment but the DWMAAC charge would be for ten dwellings, that is ten DWMAAC's.

Council retains the right to determine the most suitable means of providing the service particularly in terms of the bin size and type (Carry Bin, Mobile Garbage Bin or Bulk Bin) and frequency of collection (daily, weekly or multi) to suit particular properties and localities mindful of efficiencies and practicalities.

The availability charges are as follows:

Description	Fee \$	Yield \$'s (estimated)	Description	Fee \$	Yield \$'s (estimated)
Single Unit Dwellings			Multi Unit Dwellings		
Minimum Domestic Waste Charge (<120 litre bin)	224.70	451,871	Minimum Domestic Waste Charge	224.70	799,483
Domestic Waste Charge (120 litre bin)	341.25	7,460,407	Minimum Domestic Waste Charge , 2 x weekly	252.00	7,911,036
Domestic Waste Charge (240 litre bin)	684.60	436,513	Minimum Domestic Waste Charge , 3 x weekly	279.30	437,384
			Standard Domestic Waste Charge	341.25	1,261,601
			Standard Domestic Waste Charge, 2x weekly	368.55	2,862,159
			Standard Domestic Waste Charge, 3 x weekly	395.85	4,715,761
			Large Domestic Waste Charge	535.50	8,568
			Large Domestic Waste Charge x 3 weekly	590.10	475,030
			Domestic Waste Charge, 7 Day Service Area	365.40	3,475,319
Council is proposing to trial a communal bin arrangement within selected streets. It is proposed that the amended charge for those trialling the process will be \$208.95.			Residential Units where waste cannot be collected by Council, after review by authorised Council officers. ** (per assessment)	99.75	798
			Serviced Apartments where Waste is not collected by Council (per assessment) *	99.75	118,603
*This charge is levied in accordance with the current classification of "Serviced Apartments" as residential dwellings for the purposes of rating and will be applied in cases where waste is collected by parties other than the Council. **This charge may be applied in specific residential situations where Council cannot collect the waste, after review by authorised Council Officers.					
The yield amounts shown here are based on the amount after value of proposed pensioner rebates has been deducted on Domestic Waste Management Charges.

Fees and Charges

REVENUE POLICY – Fees

The Council proposes to charge a range of fees in 2012/13, as detailed within the attached Schedule of Proposed Fees and Charges.

The legislative basis for these fees may be found in Section 608 of the Local Government Act 1993 which provides that Council may charge and recover an approved fee for any service it provides, including the following:-

- supplying a service, product or commodity;
- giving information;
- providing a service in connection with the exercise of the council's regulatory functions – including receiving an application for approval, granting an approval, making an inspection and issuing a certificate; and
- allowing admission to any building or enclosure.

Under the principle of “user pays”, fees are introduced to offset the cost of service provision, or in the case of commercial activities to realise a reasonable rate of return on assets employed by the Council, in order to support the provision of services and to alleviate the burden that would otherwise be unfairly placed upon ratepayers.

Council has given due consideration to the following factors in determining the appropriate price for each fee:-

- the cost of providing the service;
- whether the goods or service are supplied under a commercial basis;
- the importance of the service to the community;
- the capacity of the user to pay;
- the impact of the activity on public amenity;
- competitive market prices; and
- prices dictated by legislation.

Council discloses its pricing policy by showing a pricing code against each individual fee within the attached Schedule of Proposed Fees and Charges, as:-

- Market Council provides a good / service in a competitive environment
- Full Cost Council intends to fully recover the direct and indirect cost of provision plus any community cost
- Partial Cost Council intends to partially recover the costs of provision
- Legislative Prices are dictated by legislation
- Zero Council absorbs the full cost of delivery
- Security Deposit Refundable deposit against possible damage to Council property

All fees are quoted in “GST Inclusive” terms as this is the relevant price to the customer, however it should be recognised that within the schedule there are many fees that do not attract GST. These fees have either been specifically exempted by the GST legislation or have been included within the Division 81 determination as the Australian government has deemed that the customer does not actually receive a taxable supply in consideration for the fee. The latter excludes many fees for regulatory services that are not provided within a competitive environment, and other forms of information that are provided on a non-commercial basis.

In accordance with the Department of Local Government's guidelines on competitive neutrality, Council has identified its Category 1 business (those with a turnover exceeding \$2 million) as Parking Stations. These businesses set prices in line with market conditions and

their results are disclosed, including tax equivalent payments and return on capital, with Council's Annual Report.

Reduction or waiving of fees

Section 610E of the Local Government Act 1993 allows Council to waive payment of, or reduce a fee in a particular case if it is satisfied that the case falls within a category of hardship or any other category that Council has determined it may consider waiving payment, or reducing a fee.

Council has determined the following categories:

Hardship – where there is evidence that the payment of the fee or charge will impose unreasonable financial hardship on the applicant given their particular circumstances;

Charity – where the applicant is a registered charity and the fee is for a service that will enable the provision of charitable services to the City of Sydney community;

Not For Profit – where the applicant is an organisation that holds “not for profit” status and the fee is for a service that will enable the achievement of their objectives and betterment for the City of Sydney community;

Commercial – where the City, or its contractor, operates a service and reduction of the fee is required to compete in the market.

The following principles will be considered when applying any reduction or waiver of a fee or charge.

- Compliance with statutory requirements
- Fairness and consistency
- Integrity
- Equity
- Transparency

The Council will directly, or through delegated authority, assess and make determinations on requests for reduction or waiver of fees in accordance with these principles.

Council may endorse a reduction or waiver of fees and charges to organisations as part of the City's Grants and Sponsorship arrangements.
