

Food scraps recycling trial

Information for building managers and champions!

We need your help to ensure that the food scraps recycling service works well in your building.

Things that you can do to help make the service a success include:

- Install the signs supplied by the City above the maroon lid food scraps recycling bins
- Keep the bin lid fully closed when not in use
- Advise residents to only use compostable bags or newspaper to line kitchen caddies
- Ensure all building staff and cleaners know about the food scraps recycling service and your collection days
- Put the maroon lid bins out for every collection on the scheduled collection days even if the bins aren't full
- Keep the maroon lid bins clean – rinse them out after every collection.

The City of Sydney thanks you for being a food scraps champion!
