

Application guide for tradespersons parking permit

About this form

This permit allows tradespersons to park their vehicle for longer than the signposted time limit and exempts the tradesperson from parking fees when parked in an area to which the permit applies if the signs state 'permit holders excepted'.

For trades parking associated with construction work at a development site refer to the [City's Works Zone](#) page.

How this permit works

- We issue this permit to the resident rather than the tradesperson. The tradesperson will then need to attach the permit to the vehicle.
- The permit is held by the resident and given to their tradesperson to display on their vehicle.
- Permits are only valid in the area printed on the permit and parking sign.
- The permit does not allow a tradesperson to park in a Clearway, No Stopping, No Parking, Bus, Loading, Works, Trucks or Disabled Parking zones.
- Permits do not guarantee the availability of a space to the permit holder.
- A tradesperson visitor parking permit does not exempt you from requiring a temporary works permit to use in the public way.
